Blue in Old English-Carole Patricia Biggam 1997  
Blue in Old English represents the first thorough investigation of an area of the colour semantics of Old English, and the methodology developed for this study is believed to be appropriate for researching the colour semantics of any language which survives only in recorded texts. By means of a collection of in-depth word-studies, which suggest new interpretations of many well-known passages, an understanding of how blueness was described in Old English is developed. The approach is interdisciplinary, using evidence from subjects such as botany, manuscript illustration, etymology, early technologies, and others. The conclusion contradicts certain previously held views on Old English colour, and presents a hitherto obscured sociolinguistic picture of differing language use among various groups of Old English speakers.

Popular Texts in English-Antonio Ballesteros González 2001 This book comprises a collection of articles devoted to the academic study of popular texts in English. Authors analyse genres which had been habitually looked down on by canonical approaches to literature and art. They take into serious consideration forms like horror literature, the gothic, fantasy, de-ctective fiction, science fiction, best-sellers, films and television series of different kinds... among some other representations of what conservative scholars had been considering as marginal. The referential richness of the perspectives reflected here demonstrates that popular texts can be enjoyable for readers and audiences, at the same time that they can be significant in order to reach a better understanding of our culture and ourselves at the beginning of a new millennium.

A Man Called Ove-Fredrik Backman 2015-05-05  
Read the New York Times bestseller that has taken the world by storm In this "charming debut" (People) from one of Sweden's most successful authors, a grumpy yet loveable man finds his solitary world turned on its head when a boisterous young family moves in next door. Meet Ove. He's a curmudgeon--the kind of man who points at people he dislikes as if they were burglars caught outside his bedroom window. He has staunch principles, strict routines, and a short fuse. People call him "the bitter neighbor from hell." But must Ove be bitter just because he doesn't walk around with a smile plastered to his face all the time? Behind the cranky exterior there is a story and a sadness. So when one November morning a chatty young couple with two chatty young daughters move in next door and accidentally flatten Ove's mailbox, it is the lead-in to a comical and heartwarming tale of unkempt cats, unexpected friendship, and the ancient art of backing up a U-Haul. All of which will change one cranky old man and a local residents' association to their very foundations. A feel-good story in the spirit of The Unlikely Pilgrimage of Harold Fry and Major Pettigrew's Last Stand, Fredrik Backman's novel about the angry old man next door is a thoughtful exploration of the profound impact one life has on countless others. "If there was an award for 'Most Charming Book of the Year, ' this first novel by a Swedish blogger-turned-overnight-sensation would win hands down" (Booklist, starred review).
