How Can Man Die Better-Mike Snook 2010-05-30 This chronicle of the first battle in the Anglo-Zulu War is “the most powerful and moving modern account of the great Zulu epic that I have ever read” (Richard Holmes, historian and author of *The Age of Wonder*). On January 22, 1879, a massive Zulu host attacked the British Army’s 24th Regiment in its encampment at the foot of the mountain of Isandlwana. It was the first major encounter in the Anglo-Zulu War and a disastrous defeat for the colonial power. Later that afternoon the victorious Zulus would strike the tiny British garrison at Rorke’s Drift. How Can Man Die Better is a unique analysis of the Battle of Isandlwana, covering the weapons, tactics, terrain, and the intriguing characters who made key military decisions. While much is still unknown about the battle, this work eschews the commonly held perception that the British collapse was sudden and that the 24th Regiment was quickly overwhelmed. Rather, historian Mike Snook argues that there was a protracted and heroic defense against a determined and equally heroic foe. A British Army colonel who served in South Africa, Snook reconstructs the final phase of the battle in a way that has never been attempted before.

Live and Die Like a Man-Farha Ghannam 2013-09-04 Watching the revolution of January 2011, the world saw Egyptians, men and women, come together to fight for freedom and social justice. These events gave renewed urgency to the fraught topic of gender in the Middle East. The role of women in public life, the meaning of manhood, and the future of gender inequalities are hotly debated by religious figures, government officials, activists, scholars, and ordinary citizens throughout Egypt. Live and Die Like a Man presents a unique twist on traditional understandings of gender and gender roles, shifting the attention to men and exploring how they are collectively “produced” as gendered subjects. It traces how masculinity is continuously maintained and reaffirmed by both men and women under changing socio-economic and political conditions. Over a period of nearly twenty years, Farha Ghannam lived and conducted research in al-Zawiya, a low-income neighborhood not far from Tahrir Square in northern Cairo. Detailing her daily encounters and ongoing interviews, she develops life stories that reveal the everyday practices and struggles of the neighborhood over the years. We meet Hiba and her husband as they celebrate the birth of their first son and begin to teach him how to become a man; Samer, a forty-year-old man trying to find a suitable wife; Abu Hosni, who struggled with different illnesses; and other local men and women who share their reactions to the uprising and the changing situation in Egypt. Against this backdrop of individual experiences, Ghannam develops the concept of masculine trajectories to account for the various paths men can take to embody social norms. In showing how men work to realize a “male ideal,” she counters the prevalent dehumanizing stereotypes of Middle Eastern men all too frequently reproduced in media reports, and opens new spaces for rethinking patriarchal structures and their constraining effects on both men and women.

Watching a group of scientists excavate an ancient Native American site along the Mississippi, the private detective’s thoughts turn first to the archaeologist who broke his heart, and then to murder. Hoping for beads or pottery, the scientists have found a dirt-stained skeleton whose fillings tell them he was killed during the twentieth century, whose amputated leg suggests a veteran, and whose punctured skull says death by pistol. The bones belonged to Max Chantry, a 1940s reform political candidate who disappeared under mysterious circumstances. But if New Orleans politics killed him, why did he end up buried a state away? This case is ice cold, but solving it will put Dunn in the hot seat.

Dying to Be Men-L. Stephanie Cobb 2008-09-04 At once brave and athletic, virtuous and modest, female martyrs in the second and third centuries were depicted as self-possessed gladiators who at the same time exhibited the quintessentially "womanly" qualities of modesty, fertility, and beauty. L. Stephanie Cobb explores the double embodiment of "male" and "female" gender ideals in these figures, connecting them to Greco-Roman virtues and the construction of Christian group identities. Both male and female martyrs conducted their battles in the amphitheater, a masculine environment that enabled the divine combatants to showcase their strength, virility, and volition. These Christian martyr accounts also illustrated masculinity through the language of justice, resistance to persuasion, and-more subtly but most effectively-the juxtaposition of "unmanly" individuals (usually slaves, the old, or the young) with those at the height of male maturity and accomplishment (such as the governor or the proconsul). Imbuing female martyrs with the same strengths as their male counterparts served a vital function in Christian communities. Faced with the possibility of persecution, Christians sought to inspire both men and women to be braver than pagan and Jewish men. Yet within the community itself, traditional gender roles had to be maintained, and despite the call to be manly, Christian women were expected to remain womanly in relation to the men of their faith. Complicating our understanding of the social freedoms enjoyed by early Christian women, Cobb's investigation reveals the dual function of gendered language in martyr texts and its importance in laying claim to social power.

The King Must Die-Mary Renault 2013-09-10 New York Times Bestseller: This retelling of the Greek myth of Theseus, king of Athens, is “one of the truly fine historical novels of modern times” (*The New York Times*). In myth, Theseus was the slayer of the child-devouring Minotaur in Crete. What the founder-hero might have been in real life is another question, brilliantly explored in *The King Must Die*. Drawing on modern scholarship and archaeological findings at Knossos, Mary Renault’s Theseus is an utterly lifelike figure—a king of immense charisma, whose boundless strivings flow from strength and weakness—but also one steered by implacable prophecy. The story follows Theseus’s adventures from Troizen to Eleusis, where the death in the book’s title is to take place, and from Athens to Crete, where he learns to jump bulls and is named king of the victims. Richly imbued with the spirit of its time, this is a page-turner as well as a daring act of imagination. Renault’s story of Theseus continues with the sequel *The Bull from the Sea*. This ebook features an illustrated biography of Mary Renault including rare images of the author.

Will You Die for Me?-Charles Watson 1978

To Die in Cuba-Louis A. Pérez Jr. 2012-12-01 For much of the nineteenth century and all of the twentieth, the per capita rate of suicide in Cuba was the highest in Latin America and among the highest in the world--a condition made all the more extraordinary in light of Cuba's historic ties to the Catholic church. In this richly illustrated social and cultural history of suicide in Cuba, Louis A. Perez Jr. explores the way suicide passed from the unthinkable to the unremarkable in Cuban society. In a study that spans the experiences of enslaved Africans and indentured Chinese in the colony, nationalists of the twentieth-century republic, and emigrants from Cuba to Florida following the 1959 revolution, Perez finds that the act of suicide was loaded with meanings that changed over time. Analyzing the social context of suicide, he argues that in addition to confirming despair, suicide sometimes served as a way to consecrate patriotism, affirm personal agency, or protest injustice. The act was often seen by suicidal persons and their contemporaries as an entirely reasonable response to circumstances of affliction, whether economic, political, or social. Bringing an important historical perspective to the study of suicide, Perez offers a valuable new understanding of the strategies with which vast numbers of people made their way through life--if only to choose to end it. To Die in Cuba ultimately tells as much about Cubans' lives, culture, and society as it does about their self-inflicted deaths.
