A Matter of Trust-A.C. Katt 2020-08-08 The bittersweet tale of Bear and his Boy -- a BDSM Dom and his fledgling Sub -- who live "the life" in west central New Jersey, just north of Trenton. Donald K. Drummond is the Master of all he surveys -- a legend in commercial real estate in

New Jersey by day and by night a Master Dom at the gay BDSM club, Indiscreet. What he couldn't find was a boy to call his own. That all changed when a nerd with taped glasses and worn Dockers barged into his office spilling his bottle of 1985 Bourdeau over his priceless Persian carpet. Brian Murphy came with a host of troubles, the least of which was his grasping

aunt, his invalid mother, and his rather tenuous position in Donald's mail room. Can a Dom with issues of his own come to train and trust a needy boy from his own mailroom? It's all A Matter of Trust.

Meticulous research backed by hundreds of hours of interviews with agents, double agents and case officers has resulted in answers to these questions. The account of Britain's premier counter-intelligence organization is thoroughly documented with names, dates and places.

rollicking historical adventure from New York Times bestselling author Candace Camp, originally published in 1997. Benedict Wincross appears in Camilla Ferrand's life as quickly as the gunfire pursuing him. Though he is obviously no gentleman, Camilla realizes Benedict may be just what she needs: a temporary fiancé to satisfy her family's worries. And Benedict needs something in return: an entrée into Chevington Park, Camilla's estate, to conduct an undercover investigation into corruption—without Camilla's knowledge. Each is drawing the other into a dangerous deceit—for even if they survive the danger of Benedict's mission, what will they do about the love that's grown between them? An Indiscreet Chronicle from the Pacific-Bertram Lenox Putnam Weale 1922

In the Matter of J. Robert Oppenheimer-Richard Polenberg 2002 At the end of World War II, J. Robert Oppenheimer was one of America's preeminent physicists. For his work as director of the Manhattan Project, he was awarded the Medal for Merit, the highest honor the U.S. government can bestow on a civilian. Yet, in 1953, Oppenheimer was denied security

clearance amidst allegations that he was "more probably than not" an "agent of the Soviet Union." Determined to clear his name, he insisted on a hearing before the Atomic Energy Commission's Personnel Security Board. In the Matter of J. Robert Oppenheimer contains an edited and annotated transcript of the 1954 hearing, as well as the various reports resulting from it. Drawing on recently declassified FBI files, Richard Polenberg's introductory and concluding essays situate the hearing in the Cold War period, and his thoughtful analysis helps explain why the hearing was held, why it turned out as it did, and what that result meant, both for Oppenheimer and for the United States. Among the forty witnesses who testified were many who had played vitally important roles in the making of U.S. nuclear policy: Enrico Fermi, Hans Bethe, Edward Teller, Vannevar Bush, George F. Kennan, and Oppenheimer himself. The hearing provides valuable insights into the development of the atomic bomb and the postwar debate among scientists over the hydrogen bomb, the conflict between the foreign policy and military

establishments over national defense, and the controversy over the proper standards to apply in assessing an individual's loyalty. It reveals as well the fears and anxieties that plagued America during the Cold War era.
