Aren't You Glad We're Not Your Neighbors-Jenne Gilbert 2007-04-01 Grandma Sadie liked scandalizing people. She enjoyed the attention. It became her favorite pastime, second only to marrying men which she did with gusto and regularity. When she bought a car and drove it alone, some of the members of the community complained. "You mean I should have some old goat driving around with me?" she asked innocently. Several days later, she showed up again in her shiny new car with a black and white baby goat wearing a leash and a diaper. "I couldn't find an old goat, so I got a young one," she said with a flash of an impertinent grin and a mischievous look in her brilliant blue eyes. She loved life and we loved her, and she started it all.

Confessions-Selena Kitt 2011-12-05 Every erotica writer will some day face the question, "Did that really happen?" The thought that there might be a glimmer of truth behind the fiction seems more titilating in erotica than any other genre. The truth is, most mystery writers have never experienced anything like a real murder, but almost all erotica writers have presumably had sex, and have certainly been shaped by early experiences. In light of that, what is contained here is a series of short scenes titled "Confessions"-because that's just what they are, a few of the true stories that shaped my own sexual being.Are they all completely factual?I don't know if a fiction writer ever writes anything that is ever completely fact. Even when we're journaling, we're not journalists, after all. Nor are we poets. Fiction writers tell stories, we elaborate, we give the truth "scope." So while I will say that most, if not all, of these stories did, indeed, happen, in some sense of the word-I have certainly, as most writers do, taken liberties, and changed names to protect the innocent. Or not so innocent.But these are my confessions, told in the same, secret whisper I might tell them to you if we were alone, sharing the heat of memory in the dark----Warnings: This title contains graphic language and sex----It was the first time I'd ever had a cock in my mouth. I'd had plenty of them in my hand or rubbing up against me in the dark. But I'd never been brave enough and the boys I'd been with had never been bold enough, and so I'd never actually tasted the thick length of a cock before. Until that night. This man--let's call him David--parked the car down the block, like we'd been doing. We proceeded to kiss and touch and do all those things we'd been doing for the past few weeks.I had his cock in my hand, stroking it fast and hard, making him moan as he shoved my skirt up and pulled my panties aside. I'd learned quickly to wear skirts instead of jeans, giving his probing fingers easy access to my aching pussy. He almost inevitably made me come within a few minutes, shuddering against him, squeezing his dick in my hand until pre-cum leaked from the tip.That night, he didn't stop after that first one. He grabbed me, my hair in his hand, pulling my head back so he could kiss me--hard--his tongue probing deep into my mouth. His fingers kept pistoning in and out of my flesh, his thumb rubbing my throbbing little clit, and I twisted and arched against him, aching for that second come, working for it, rocking on his hand and begging, please, please, please.That's when he lowered my mouth slowly to his lap. I remember understanding what he wanted, but being afraid. Afraid I'd do it wrong, or not know how. It really didn't matter, though. He was good at guiding me, sliding my mouth down onto his cock. I remember gagging a little, feeling him back off, catching my breath. So this is how it was done. Up and down with my mouth, the same motion I'd been making with my hand.It was sloppy and uncontrolled, but I don't think he cared. My ass was in the air, my panties pulled down around my knees, my skirt up, and if a passing car had gone by and looked in, they might have gotten quite a view. He distracted me with his hand, fingering me as I sucked him, my pussy already on fire from his earlier attention. It didn't take me long to catch back up and I ground my hips, sometimes forgetting about the throbbing cock in my mouth altogether.

Cherokee Strip Land Rush-Jay M. Price 2006 On September 16, 1893, over 100,000 people converged on the edges of six million acres just south of the Kansas border, a parcel officially designated the Cherokee Outlet but more commonly called the Cherokee Strip. This was the largest of the rushes, where officials threw open whole parcels of land at one time. The opening of the outlet drew people with a wide mix of motivations. Those who arrived that stifling September found heat, dust, wretched conditions, high prices--and hope. Among them was William Prettyman, whose photographs remain the most stirring record of the event. When the starting gun went off at noon, the blurred images of people and animals racing across the dusty terrain became part of the memory of a whole region.

Affective Health and Masculinities in South Africa-Hans Reihling 2020-04-24 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African "tradition" that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

School Choice In Chile-Varun Gauri 1999-02-15 School Choice in Chile examines the dramatic educational decentralization and privatization of schools in Chile. In the early 1980s, the Pinochet regime decentralized schooling, providing vouchers for parental choice of public or private schools. At the same time, the government supposedly gave the administration of schools to local municipalities. Although the reform has merit and is defended by some as a major achievement, Varun Gauri shows the many ways in which it has not worked. In this process of reform, neither the administration of schools nor school content was really decentralized from the Ministry of Education, nor did students gain equality of educationally opportunity or better schooling outcomes. These failures of the post-welfare model are due partly to Chile's political and economic problems of the era, but are also evidence of flaws at its core, at least where education is concerned. The study presents data for an original survey of 726 households in Greater Santiago that finds more evidence for social and economic stratification among Chilean schools than past analyses have shown. Gauri finds that information about school quality, a sense of entitlement, and the use of specific search techniques increase the odds that a child attends a school with high achievement scores. Gauri offers some insights as he supports the criticism that market forces might exacerbate inequalities without necessarily generating clear gains in academic achievement. In the new system, many parents continued to be ill-informed about differences among schools, nonacademic factors played a major role in school selection, schools appeared to use entrance exams to practice a form of "creaming," and parental wealth was a strong determinant of whether families were willing and able to take full advantage of choice programs. These are extremely timely findings, especially in light of the current debate over school choice and vouchers in the United States. Because the United States has little experience in school choice, School Choice in Chile presents a convincing and necessary report on an almost twenty-year-old experience with information from which all nations can learn. Parents, policy analysts in education and social welfare, as well as those studying political science, public policy, and education, will find it extremely useful.

She is a brilliant young mathematics professor, and he turns out to be one of her students. Sleeping with him is against her college's rules, and may have a grave professional cost, but Beth is attracted enough to Ethan that she simply doesn't care. She breaks the rules, and sees him again, and begins to realize that she has become too lost in her work and forgotten how wonderful such moments can be. No-one is getting hurt, she thinks, and no harm is being done, so she sees no reason not to have her fun. Unfortunately, Beth is also in a long-term, long-distance, very off and on relationship that suddenly turns out to be on again. Robert is moving to be near her, to live with her, and although she doesn't want to give up sex with Ethan, she owes Robert something too. She can't simply tell Robert they are done. She decides to be selfish and keep everything secret. Because she wants to put herself first, and because what Robert doesn't know won't hurt him, and because by keeping secrets she may, in the end, hurt everyone less. But mostly because she still wants Ethan, and doesn't seem to be able to make herself stop. One Plus Two Minus One is a novel of lust and desire, of the sensuality and confusion of meeting someone new, of the chaos and harm that secrets can cause, of avoiding choices, and making choices, and of foolishly hoping things will work out for the best.
