Bonhoeffer on the Christian Life-Stephen J. Nichols 2013-06-30 The abundance of conferences, lectures, and new books related to Dietrich Bonhoeffer attests to the growing interest in his amazing life and thought-provoking writings. The legacy of his theological reflections on the nature of fellowship, the costliness of grace, and the necessity of courageous obedience has only been heightened by the reality of how he died: execution at the hands of a Nazi death squad. In this latest addition to the popular Theologians on the Christian Life series, historian Stephen J. Nichols guides readers through a study of Bonhoeffer's life and work, helping readers understand the basic contours of his cross-centered theology, convictions regarding the Christian life, and circumstances surrounding his dramatic arrest and execution. Part of the Theologians on the Christian Life series. It is night. Merlin. You sleep, my Arielle, you my inner force, the neglected power which slumbers in every soul and which I alone, till now, awaken at will.... You sleep, my docile and familiar little fairy, and your hair, straying like a blue mist, invisible to men, mingles with the moon, the perfumes of the night, the rays of the stars, the roses that shed their petals, the spreading sky, to remind us thus that nothing separates us from any existing thing and that our thought does not know where the light begins for which it hopes, nor where the shadow ends which it escapes.... You are sleeping soundly and, while you sleep, I lose all my knowledge and become like my blind brethren, who do not yet

know that on this earth there are as many hidden gods as there are hearts that throb.... Alas, I am to them the genius to be avoided, the wicked sorcerer in league with their enemies!... They have no enemies, but only subjects who know not where to find their king.... They are persuaded that my secret virtue, which is obeyed by the plants and the stars, by water, stone and fire and to which the future at times reveals some of its features: they are persuaded that this new and yet so human virtue is hidden in philtres, in horrible charms, in hellish herbs and awful signs.... No, it is in myself, even as it resides in them; it is in you, my frail Arielle, in you who were once in me.... I have taken two or three bolder steps in the dark.... I have done a little earlier what they will do later.... All things will be subject to them when they have learnt at last to revive your goodwill, even as I have revived it.... But it were vain for me to tell them that you are sleeping here and to point to your dazzling grace: they would not see you.... Each one of them must find you within himself; each one of them must open as I do the tomb of his life and come to awake you as I awake you now.... [He bends over Arielle and kisses her. Arielle. (Waking.) Master!... Merlin. This is the hour, Arielle, when love must watch.... I shall often trouble your sleep in these coming days.... Arielle. My sleep was so long that I am always relapsing into it; but I feel stronger and become happier at each new awakening that your thought imposes on me.... To be continue in this ebook Modeling Life-Alan Garfinkel 2017-09-06 This book develops the mathematical tools essential for students in the life sciences to describe interacting systems and predict their behavior. From predator-prey populations in an ecosystem, to hormone regulation within the body, the natural world abounds in dynamical systems that affect us profoundly. Complex feedback relations and counter-intuitive responses are common in nature; this book develops the quantitative skills needed to explore these interactions. Differential equations are the natural mathematical tool for quantifying change, and are the driving force throughout this book. The use of Euler's method makes nonlinear examples tractable and accessible to a broad spectrum of early-stage undergraduates, thus providing a practical alternative to the procedural approach of a traditional Calculus curriculum. Tools are developed within numerous, relevant examples, with an emphasis on the construction, evaluation, and interpretation of mathematical models throughout. Encountering these concepts in context, students learn not only quantitative techniques, but how to bridge between biological and mathematical ways of thinking. Examples range broadly, exploring the

dynamics of neurons and the immune system, through to population dynamics and the Google PageRank algorithm. Each scenario relies only on an interest in the natural world; no biological expertise is assumed of student or instructor. Building on a single prerequisite of Precalculus, the book suits a two-quarter sequence for first or second year undergraduates, and meets the mathematical requirements of medical school entry. The later material provides opportunities for more advanced students in both mathematics and life sciences to revisit theoretical knowledge in a rich, real-world framework. In all cases, the focus is clear: how does the math help us understand the science?

Michelangelo, Selected Scholarship in English: Life and early works-William E. Wallace 1995 The volume begins with overviews of Michelangelo's life and work and contains more focused essays on the artist's political thought and his chief biographers, Ascanio Condivi and Giorgio Vasari. Other articles survey Michelangelo's early career and principal works, including the Rome "Piet," the "David," the "Doni Tondo," and his commission to paint the "Battle of Cascina" in competition with Leonardo da Vinci.

Friedrich Nietzsche (English Edition)-Georg Brandes 2015-02-25 Example in this ebook AN ESSAY ON ARISTOCRATIC RADICALISM (1889) Friedrich Nietzsche appears to me the most interesting writer in German literature at the present time. Though little known even in his own country, he is a thinker of a high order, who fully deserves to be studied, discussed, contested and mastered. Among many good qualities he has that of imparting his mood to others and setting their thoughts in motion. During a period of eighteen years Nietzsche has written a long series of books and pamphlets. Most of these volumes consist of aphorisms, and of these the greater part, as well as the more original, are concerned with moral prejudices. In this province will be found his lasting importance. But besides this he has dealt with the most varied problems; he has written on culture and history, on art and women, on companionship and solitude, on the State and society, on life's struggle and death. He was born on October 15, 1844; studied philology; became in 1869 professor of philology at Basle; made the acquaintance of Richard Wagner and became warmly attached to him, and associated also with the distinguished historian of the Renaissance, Jakob Burckhardt. Nietzsche's admiration and affection for Burckhardt were lasting. His feeling for Wagner, on the other hand, underwent a complete revulsion

in the course of years. From having been Wagner's prophet he developed into his most passionate opponent. Nietzsche was always heart and soul a musician; he even tried his hand as a composer in his Hymn to Life (for chorus and orchestra, 1888), and his intercourse with Wagner left deep traces in his earliest writings. But the opera of Parsifal, with its tendency to Catholicism and its advancement of the ascetic ideals which had previously been entirely foreign to Wagner, caused Nietzsche to see in the great composer a danger, an enemy, a morbid phenomenon, since this last work showed him all the earlier operas in a new light. During his residence in Switzerland Nietzsche came to know a large circle of interesting people. He suffered, however, from extremely severe headaches, so frequent that they incapacitated him for about two hundred days in the year and brought him to the verge of the grave. In 1879 he resigned his professorship. From 1882 to 1888 his state of health improved, though extremely slowly. His eyes were still so weak that he was threatened with blindness. He was compelled to be extremely careful in his mode of life and to choose his place of residence in obedience to climatic and meteorological conditions. He usually spent the winter at Nice and the summer at Sils-Maria in the Upper Engadine. The years 1887 and 1888 were astonishingly rich in production; they saw the publication of the most remarkable works of widely different nature and the preparation of a whole series of new books. Then, at the close of the latter year, perhaps as the result of overstrain, a violent attack of mental disorder occurred, from which Nietzsche never recovered. To be continue in this ebook

Italian Literature before 1900 in English Translation-Robin Healey

2011-12-15 Italian Literature before 1900 in English Translation provides the most complete record possible of texts from the early periods that have been translated into English, and published between 1929 and 2008. It lists works from all genres and subjects, and includes translations wherever they have appeared across the globe. In this annotated bibliography, Robin Healey covers over 5,200 distinct editions of pre-1900 Italian writings. Most entries are accompanied by useful notes providing information on authors, works, translators, and how the translations were received. Among the works by over 1,500 authors represented in this volume are hundreds of editions by Italy's most translated authors - Dante Alighieri, Machiavelli,

and Boccaccio - and other hundreds which represent the author's only English translation. A significant number of entries describe works originally published in Latin. Together with Healey's Twentieth-Century Italian Literature in English Translation, this volume makes comprehensive information on translations accessible for schools, libraries, and those interested in comparative literature.

Bulletproof Marriage - English Edition-Renato & Cristiane Cardoso

2015-01-13 Marriage was God's idea. He decided that man and woman should be "one flesh". Furthermore, the Bible says "God is love".

Unfortunately, many couples never learned to love each other. A feeling, passion or some other influence brought them together, but they never learned how to study or explore each other, or discover what makes them happy. When you do not know another person it is impossible to love them because you do not know what pleases or annoys them, their dreams and struggles, or how they think. In such ignorance, you will make many mistakes in your relationship and so cause many problems. These problems will cause you to withdraw, even though you are married and were in love at one time. If you have been wondering: Do I still love my husband/wife Did I marry the wrong person Why is my partner so cold to me Why do we love each other but can't stay together? How can I make sure my marriage lasts? How can I live with a person who is so difficult? Why do our problems go away, but then come back worse than before? Is my marriage always going to be about hardships, or will I find happiness one day? Cheer up! You will learn how to love intelligently and how to be happy with your spouse, even if he (or she) acts like King Kong.

The Daughter of Heaven (English Edition)-Judith Gautier 2014-11-06 Example in this ebook Thoroughly to understand China, one must realize that it has for three hundred years cherished in its heart a deep and continually bleeding wound. When the country was conquered by the Manchus of Tartary, the ancient dynasty of the Mings was forced to yield the throne to the Tzin invaders, but the Chinese nation never ceased to mourn the ancient dynasty nor to hope for its restoration. Revolution is therefore a permanent thing in China—a fire which smoulders eternally, breaking into flame in one province only to be smothered and blaze out

again presently in another. No doubt the Yellow Empire is too immense to permit of complete understanding among the revolutionaries, or of collective effort to break off the Tartar yoke. Several times, nevertheless, the Chinese race has been near to victory. When, some twenty years ago, certain events, which Europe never really understood, brought about an upheaval in China, the revolutionaries, victorious for a time, proclaimed at Nang-King an emperor of Chinese blood and of the dynasty of the Mings. His name was Ron-Tsin-Tse, which means: The Final Flowering, and by the faithful his era was called Tai-Ping-Tien-Ko, which is as much as to say: The Empire of the Great Celestial Peace. He reigned seventeen years, concurrently with the Tartar Emperor at Peking and almost within the shadow of that city. Later, the authorities forced a complete suppression of his history: all records of it were confiscated and burned, and men were forbidden, under penalty of death, even to utter his name. Here, however, is the translation of a passage relating to him which occurs in a voluminous report addressed by the Tartar general Tsen-Konan-Wei, to the Emperor at Peking: "When the revolutionaries rose in the province of Chan-Tung (he says) they possessed themselves of sixteen provinces and six hundred cities. Their guilty chief and his criminal friends had become really formidable. All their generals fortified themselves in the places they had taken, and not until they had stood three years of siege were we again Masters in Nang-King. At this time the rebel army numbered more than two hundred thousand men, but not one of them would surrender. The moment they perceived themselves lost they set fire to the palace and burned themselves alive. Many of the women hanged or strangled themselves, or threw themselves into the lakes in the gardens. However, I succeeded in making one young woman prisoner, and pressed her to tell me where the Emperor was. 'He is dead,' she replied; 'vanquished, he poisoned himself.' But immediately the new Emperor was proclaimed in the person of his son, Hon-Fo-Tsen. She led me to the old Emperor's tomb, which I ordered broken open. In it was found in fact the Emperor's body, enveloped in a shroud of yellow silk embroidered with dragons. He was old, bald, and had a white mustache. I caused his body to be burned and his ashes to be thrown to the winds. Our soldiers destroyed all that remained within the walls: there were three days and nights of killing and pillage. However, one troop of several thousands of rebels, very well-armed, succeeded in escaping from the city, dressed in the costumes of our dead, and it is to be feared that the new Emperor was able to escape with them." This Emperor, Hon-Fo-Tsen, who,

in fact, did succeed in fleeing from Nang-King, was looked upon by the real Chinese as their legitimate sovereign, and his descendants in secret no doubt reigned after him uninterruptedly. To be continue in this ebook Quintus Claudius, Volume 2 (of 2) (English Edition)-Ernst Eckstein 2014-11-08 Example in this ebook CHAPTER I. The same day, which saw our friends in the country house at Ostia, and the bond of love sealed between Aurelius and Claudia, had been one of infinite agitation and annoyance to the Emperor Domitian. The very first thing in the morning came vexatious tidings from the town and provinces. At the earliest dawn inscriptions had been discovered on several of the fountains, columns and triumphal arches, of which the sting was more or less covertly directed against the Palatium and the person of Caesar. "Enough!" was attached to the base of a portrait bust. "The fruit is ripe!" was legible on the arch of Drusus. In the fourth, eighth and ninth regions the revolutionary question was to be seen in many places: "Where is Brutus?" and at the entrance of the baths of Titus, in blood-red letters, stared the appeal: "Nero is raging; Galba, why dost thou tarry?" Domitian, who had heard all this from his spies, long before the court officials even suspected what had happened, received these courtiers in the very worst of tempers. His levée was not yet ended, when a mounted messenger brought the news, that a centurion had raised the standard of revolt on the Germanic frontier, but that he had been defeated and slain after a short struggle. At noonday the soldiers of the town-guard seized an astrologer, Ascletario by name, who had publicly announced that ruin threatened Caesar. Before the moon should have twelve times rounded—so ran his prophecy—Caesar's blood would be shed by violence. The immortals were wroth at his reprobate passion for a woman who, by all the laws of gods and men, he had no right to love. At first Domitian laughed. His connection with Julia seemed to him so dull and pointless a weapon for his foe to turn against him, that the stupidity of it astonished him. However, he commanded that the astrologer should be brought before him. "Who paid you?" he enquired with a scowl, when the prisoner was dragged into the room. "No one, my lord!" "You lie." "My lord, as I hope for the mercy of the gods, I do not lie." "Then you really assert, that you actually read in the stars the forecast you have uttered?" "Yes, my lord; I have only declared, what my skill has revealed to me." The superstitious sovereign turned pale. "Well then, wise prophet, you can of course foretell your own end?" "Yes, my lord. Before this day is ended, I shall be torn to pieces by dogs." Domitian looked scornfully round on the

circle of men. "I fancy," he said, "that I can upset the prophetic science of this worthy man. Carry him off at once to execution, and take care that his body is burnt before sundown." The astrologer bowed his head in sullen resignation. He was led away to the field on the Esquiline, and immediately beheaded before an immense concourse; within an hour Domitian was informed that all was over. At this news his temper and spirit improved a little. He congratulated himself on the prompt decision, which had so signally proved the falsehood of the prophecy. At dinner he carried on an eager conversation with Latinus, the actor who, among other farcical parts, filled the role of news-monger. "You are later than usual to-day," said Caesar graciously. "What detained you?" To be continue in this ebook Part of Earth - 004 - Berlin (Simple English Edition)-

Writings on the Sober Life- 2014-02-24 Alvise Cornaro (c.1484-1566) was the son of a Paduan innkeeper with presumed ties to the patrician Cornaro family of Venice. Highly ambitious, he acquired a name for himself as a

businessman, architect, and patron of the arts. Critically ill around age 40 - likely with diabetes and gout - he resolved to abandon his intemperate lifestyle. The strict rules regarding food and drink that he adopted and which led to his recovery are outlined in his most famous treatise, the *Vita Sobria* (1558). The work, which featured prescriptions for living to 100 years - stressing healthy lifestyle, proper diet, and avoidance of excess - became an international success. This edition offers the most comprehensive and faithful version of this early modern classic ever available in English, and includes Cornaro's *Aggionta* ("Addition"), translated here for the first time. An introductory essay by the late Marisa Milani offers biographical background and analysis and discusses the work's publication history. The volume also presents letters by Cornaro's contemporaries commenting on the treatise as well as his Eulogy, now viewed as having been written by Cornaro himself. A foreword by award-winning health journalist Greg Critser speaks to the continuing relevance of Cornaro's fascinating and seminal work.
