A Modest Proposal-Jonathan Swift 2018-10-16 A Modest Proposal is a satirical essay written and published by Jonathan Swift. Swift suggests that the impoverished Irish might ease their economic troubles by selling their children as food for rich gentlemen and ladies. This satirical hyperbole mocks heartless attitudes towards the poor, as well as Irish policy in general. In English writing, the phrase "a modest proposal" is now conventionally an allusion to this style of straight-faced satire. Swift goes to great lengths to support his argument, including a list of possible preparation styles for the children, and calculations showing the financial benefits of his suggestion. He uses methods of argument throughout his essay which lampoon the then-influential William Petty and the social engineering popular among followers of Francis Bacon. These lampoons include appealing to the authority of "a very knowing American of my acquaintance in London" and "the famous Psalmanazar, a native of the island Formosa." This essay is widely held to be one of the greatest examples of sustained irony in the history of the English language. Much of its shock value derives from the fact that the first portion of the essay describes the plight of starving beggars in Ireland, so that the reader is unprepared for the surprise of Swift's solution when he states, "A young healthy child well nursed, is, at a year old, a most delicious nourishing and wholesome food, whether stewed, roasted, baked, or boiled; and I make no doubt that it will equally serve in a fricassee, or a ragout." Readers unacquainted with its reputation as a satirical work often do not immediately realize that Swift was not seriously proposing cannibalism and infanticide. The satirical element of the pamphlet is often only understood after the reader notes the allusions made by Swift to the attitudes of landlords, such as the following: "I grant this food may be somewhat dear, and therefore very proper for Landlords, who as they have already devoured most of the Parents, seem to have the best Title to the Children." Swift extends the conceit to get in a few jibes at England's mistreatment of Ireland, noting that "For this kind of commodity will not bear exportation, and flesh being of too tender a consistence, to admit a long continuance in salt, although perhaps I could name a country, which would be glad to eat up our whole nation without it."

Landmark Essays on Rhetoric and Literature-Craig Kallendorf 2017-10-03 The studies of rhetoric and literature have been closely connected on the theoretical level ever since antiquity, and many great works of literature were written by men and women who were well versed in rhetoric. It is therefore well worth investigating exactly what these writers knew about rhetoric and how the practice of literary criticism has been enriched through rhetorical knowledge. The essays reprinted here have been arranged chronologically, with two essays selected for each of six major periods: Antiquity, the Middle Ages, the Renaissance (including Shakespeare), the 17th century, the 18th century, and the 19th and 20th centuries. Some are more theoretically oriented, whereas others become exercises in practical criticism. Some cover well-trod ground, whereas others turn to parts of the rhetorical tradition that are often overlooked. Scholars in the field should benefit from having this material collected together and reprinted in one volume, but the essays included here will also be useful to graduate students and advanced undergraduates for course work and general reading. Students of rhetoric seeking to understand how the principles of their field extend into other forms of communication will find this volume of interest, as will students of literature seeking to refine their understanding of the various modes of literary criticism.

A Modest Proposal in the Context of Swift's Irish Tracts-Maria-Angeles Ruiz Moneva 2020-06-12 Swift's A Modest

Proposal has always aroused the interest not just of literary critics, but also of linguists and pragmatists. Within the latter approaches, the study of irony, and more concretely, the intentions and attitudes that must have guided the production of such an intricate work, have always been paramount. However, it seems that within pragmatics the analysis has been restricted so far to the 1729 work itself. In the present author's view, it is interesting to contextualise this masterpiece of irony and satire within Swift's wider writing on Ireland, an approach that remains to be carried out. Accordingly, this work sets out to analyse a selection of Swift's Irish Tracts, with a view to tracing the evolution within Swift's literary production of his views and attitudes towards the situation of his homeland. Although different pragmatic approaches are applied, the emphasis is laid upon the contributions that the relevance-theoretical framework and its studies on irony may bring to the understanding of this particular Tract. The works selected are meant to cover and also be representative of the main phases currently distinguished within Swift's writing on the "Irish Question". It is therefore hoped that a deeper analysis of the former works by Swift on this topic will provide new insights for a better understanding of A Modest Proposal. A Modest Proposal and Other Writings-Jonathan Swift 2009-09-24 The political dilemma of Ireland; the state of faith in England; the charms of the Beggar's Opera; the importance of puns . . . This selection gathers together some of Swift's most brilliant prose, from high politics to social gossip, from savage tirades to lighthearted social satire. In addition to his classic essays, the collection includes several of Swift's letters to Alexander Pope and other great thinkers of the age.

Rhetorical Spaces-Lorraine Code 2013-03-07 The arguments in this book are informed at once by the moral-political implications of how knowledge is produced and circulated and by issues of gendered subjectivity. In their critical dimension, these lucid essays engage with the incapacity of the philosophical mainstream's dominant epistemologies to offer regulative principles that guide people in the epistemic projects that figure centrally in their lives. In its constructive dimension, Rhetorical Spaces focuses on developing productive, case-by-case analyses of knowing other people in situations where social-political inequalities create asymmetrical patterns of epistemic power and privilege.

Rendering the Word in Theological Hermeneutics-Mark Alan Bowald 2007-01-01 This book proposes an original typology for grasping the differences between diverse types of biblical interpretation, fashioned in a triangle around a major theological and philosophical lacuna: the relation between divine and human action. Despite their purported concern for reading God's word, most modern and postmodern approaches to biblical interpretation do not seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture. Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in the composition of the biblical text and the reader. This book presents an important contribution to the emerging field of theological hermeneutics.

Rhetoric and Discourse in Supreme Court Oral Arguments-Ryan Malphurs 2013-01-04 While legal scholars,

psychologists, and political scientists commonly voice their skepticism over the influence oral arguments have on the Court's voting pattern, this book offers a contrarian position focused on close scrutiny of the justices' communication within oral arguments. Malphurs examines the rhetoric, discourse, and subsequent decision-making within the oral arguments for significant Supreme Court cases, visiting their potential power and danger and revealing the rich dynamic nature of the justices' interactions among themselves and the advocates. In addition to offering advancements in scholars' understanding of oral arguments, this study introduces Sensemaking as an alternative to rational decision-making in Supreme Court arguments, suggesting a new model of judicial decision-making to account for the communication within oral arguments that underscores a glaring irony surrounding the bulk of related research—the willingness of scholars to criticize oral arguments but their unwillingness to study this communication. With the growing accessibility of the Court's oral arguments and the inevitable introduction of television cameras in the courtroom, this book offers new theoretical and methodological perspectives at a time when scholars across the fields of communication, law, psychology, and political science will direct even greater attention and scrutiny toward the Supreme Court.

The New Cambridge Bibliography of English Literature: Volume 2, 1660-1800-George Watson 1971-07-02 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

Composition in the University-Sharon Crowley 1998-05 Composition in the University examines the required introductory course in composition within American colleges and universities. Crowley argues that due to its association with literary studies in English departments, composition instruction has been inappropriately influenced by humanist pedagogy and that modern humanism is not a satisfactory rationale for the study of writing. Crowley envisions possible nonhumanist rationales that could be developed for vertical curricula in writing instruction, were the universal requirement not in place. Composition in the University examines the required introductory course in composition within American colleges and universities. According to Sharon Crowley, the required composition course has never been conceived in the way that other introductory courses have been—as an introduction to the principles and practices of a field of study. Rather it has been constructed throughout much of its history as a site from which larger educational and ideological agendas could be advanced, and such agendas have not always served the interests of students or teachers, even though they are usually touted as programs of study that students "need." If there is a master narrative of the history of composition, it is told in the institutional attitude that has governed administration, design, and staffing of the course from its beginnings—the attitude that the universal requirement is in place in order to construct docile academic subjects. Crowley argues that due to its association with literary studies in English departments, composition instruction has been inappropriately influenced by humanist pedagogy and that modern humanism is not a satisfactory rationale for the study of writing. She examines historical attempts to reconfigure the required course in nonhumanist terms, such as the advent of communications studies during the 1940s. Crowley devotes two essays to this phenomenon, concentrating on the furor caused by the adoption of a communications program at the University of Iowa. Composition in the University concludes with a pair of essays that argue against maintenance of the universal requirement. In the last of these, Crowley envisions possible nonhumanist rationales that could be developed for vertical curricula in writing instruction, were the universal requirement not in place. Crowley presents her findings in a series of essays because she feels the history of the required composition course cannot easily be understood as a coherent narrative since understandings of the purpose of the required course have altered rapidly from decade to decade, sometimes in shockingly sudden and erratic fashion. The essays in this book are informed by Crowley's long career of teaching composition, administering a composition program, and training teachers of the required introductory course. The book also draw on experience she gained while working with committees formed by the Conference on College Composition and Communication toward implementation of the Wyoming Resolution, an attempt to better the working conditions of post-secondary teachers of writing.

A Modest Proposal and Other Satires-Jonathan Swift 2019-02-06 Brought together here in this volume is a classic

collection of satirical works from Jonathan Swift, perhaps one of the greatest satirist in the English language. While Swift is probably best known for his novel "Gulliver's Travels," he was a brilliant satirist with a cutting wit and mastery of language. His skills with the pen, which made him both famous and feared by the powerful, can be seen in "A Modest Proposal." Swift's famous essay, originally published anonymously in 1729, suggests that the poor in Ireland could best solve their problems by selling their children as food to the rich. Swift's outrageous hyperbole was used as powerful social commentary and was directed at the rich and powerful and their heartless treatment of the poor and destitute. Also included in this collection is "A Tale of the Tub," a prose parody of the moral and ethical aspects of the English religious and political life of Swift's time, which was widely misunderstood and consequently damaging to his reputation. "A Modest Proposal and Other Satires" is a collection of nine essays in total which provide a representative selection of Swift's satirical gift. This edition in printed on premium acid-free paper.

This collection highlights major topics that range from newspaper genres like sports reports, advertisements and comic strips to a variety of news practices. All contributions view news discourse in a specific historical period or across time and relate language features to their sociohistorical contexts and changing ideologies. The varying needs and expectations of the newspaper producers, writers and readers, and even news agents, are taken into account. The articles use interdisciplinary study methods and move at interfaces between sociolinguistics, journalism, semiotics, literary theory, critical discourse analysis, pragmatics and sociology.

What Do We Need Men For?-E. Jean Carroll 2019-07-02 As seen on the cover of New York Magazine, America's longest running advice columnist goes on the road to speak to women about hideous men and whether we need them. "Carroll's lively prose careens in constant pursuit of pleasure...indefatigably funny and full of life." -Lindsay Zoladz, The Ringer "Darkly humorous and deadly serious." -Sibbie O'Sullivan, Washington Post "A compulsively interesting feminist memoir." -Virginia Heffernan, Slate "Somehow hilarious, in the way that only E. Jean could have written it" -Leigh Haber, Oprah Magazine "Roving, curious, compassionate, whimsical." -Megan Garber, The Atlantic When E. Jean Carroll—possibly the liveliest woman in the world and author of the "Ask E. Jean" advice column in Elle Magazine, realized that her eight million readers and question-writers all seemed to have one thing in common—problems caused by men—she hit the road. Crisscrossing the country with her blue-haired poodle, Lewis Carroll, E. Jean stopped in every town named after a woman between Eden, Vermont and Tallulah, Louisiana to ask women the crucial question: What Do We Need Men For? E. Jean gave her rollicking road trip a sly, stylish turn when she deepened the story, creating a list called "The Most Hideous Men of My Life," and

began to reflect on her own sometimes very dark history with the opposite sex. What advice would she have given to her past selves—as Miss Cheerleader USA and Miss Indiana University? Or as the fearless journalist, television host, and eventual advice columnist she became? E. Jean intertwines the stories of the fascinating people she meets on her road trip with her “horrible history with the male sex” (including mafia bosses, media titans, boyfriends, husbands, a serial killer, and a president), creating a decidedly dark yet hopeful, hilarious, and thrilling narrative. Her answer to the question What Do We Need Men For? will shock men and delight women.

The Rhetoric of Fiction-Wayne C. Booth 1961 "Rhetoric is the author's term for the means by which the writer makes known his vision to the reader and persuades him of its validity; and he demonstrates convincingly that there is no essential difference between ostentatiously rhetorical novelists like Fielding and Dickens, and the admired masters of impersonality--Flaubert, James, Joyce ... this is a major critical work which should be required reading for everyone concerned in the academic study of prose fiction." Essays on Classical Rhetoric and Modern Discourse-Robert J. Connors 1984 Eighteen essays by leading scholars

in English, speech communication, education, and philosophy explore the vitality of the classical rhetorical tradition and its influence on both contemporary discourse studies and the teaching of writing. Some of the essays investigate theoretical and historical issues. Others show the bearing of classical rhetoric on contemporary problems in composition, thus blending theory and practice. Common to the varied approaches and viewpoints expressed in this volume is one central theme: the 20th-century revival of rhetoric entails a recovery of the classical tradition, with its marriage of a rich and fully articulated theory with an equally efficacious practice. A preface demonstrates the contribution of Edward P. J. Corbett to the 20th-century revival, and a last chapter includes a bibliography of his works.

The Art Of Rhetoric-Aristotle 2014-09-02 In The Art of Rhetoric, Aristotle demonstrates the purpose of rhetoric—the ability to convince people using your skill as a speaker rather than the validity or logic of your arguments—and outlines its many forms and techniques. Defining important philosophical terms like ethos, pathos, and logos, Aristotle establishes the earliest foundations of modern understanding of rhetoric, while providing insight into its historic role in ancient Greek culture. Aristotle’s work, which dates from the fourth century B.C., was written while the author lived in Athens, remains one of the most influential pillars of philosophy and has been studied for centuries by orators, public figures, and politicians alike.
