[Books] A New Usage Of The Heikinashi Representation With Indicators And Trading Systems Fast Trading Series In English

As recognized, adventure as skillfully as experience very nearly lesson, amusement, as capably as bargain can be gotten by just checking out a ebook **a new usage of the heikinashi representation with indicators and trading systems fast trading series in english** furthermore it is not directly done, you could agree to even more a propos this life, more or less the world.

We have the funds for you this proper as well as easy mannerism to get those all. We allow a new usage of the heikinashi representation with indicators and trading systems fast trading series in english and numerous book collections from fictions to scientific research in any way. among them is this a new usage of the heikinashi representation with indicators and trading systems fast trading series in english that can be your partner.

A New General English Dictionary ; Peculiarly Calculated for the Use and Improvement of Such as are Unacquainted with the Learned Languages. Where in the Difficult Words, and Technical Terms Made Use of in Anatomy, Architecture, Etc. to which is Prefixed a Compendious English Grammar,... Together with a Supplement of the Proper Names of the Most Noted,... as Also of the Most Celebrated Emperors, Kings, Etc. Originally Begun by the Late Reverend Mr. Thomas Dyche and Now Finished by William Pardon. The Eleventh Edition, with the Addition of the Several Market Towns in England and Wales,...-Thomas Dyche 1760

Manual for Use of the Legislature of the State of New York-New York (State). Secretary's Office 1858

A New General English Dictionary; Peculiarly Calculated for the Use and Improvement of Such as are Unacquainted with the Learned Languages... To which is Prefixed, a Compendious English Grammar... Together with a Supplement, of the Proper Names of the Most Noted Kingdoms, Provinces... Originally Begun by the Late Reverend Mr. Thomas Dyche..., and Now Finish'd by William Pardon..-Thomas Dyche 1740

The New York Times Manual of Style and Usage, 5th Edition-Allan M. Siegal 2015-02-24 The premier source for journalists, now revised and updated for 2015. Does the White House tweet? Or does the White House post on Twitter? Can "text" be a verb and also a noun? When should you link? For anyone who writes--short stories or business plans, book reports or news articles--knotty choices of spelling, grammar, punctuation and meaning lurk in every line: Lay or lie? Who or whom? That or which? Is Band-Aid still a trademark? It's enough to send you in search of a Martini. (Or is that a martini?) Now everyone can find answers to these and thousands of other questions in the handy alphabetical guide used by the writers and editors of the world's most authoritative news organization. The guidelines to hyphenation, punctuation, capitalization and spelling are crisp and compact, created for instant reference in the rush of daily deadlines. The 2015 edition is a revised and condensed version of the classic guide, updated with solutions to problems that plague writers in the Internet age: · How to cite links and blogs · How to handle tweets, hashtags and other social-media content · How to use current terms like "transgender," or to choose thoughtfully between "same-sex marriage" and "gay marriage" With wry wit, the authors have created an essential and entertaining reference tool.

The Old and new Testament Connected in the History of the Jews and Neighbouring Nations-Humphrey Prideaux 1820

Three Views on the New Testament Use of the Old Testament-Zondervan, 2009-08-30 To read the New Testament is to meet the Old Testament at every turn. But exactly how do Old Testament texts relate to their New Testament references and allusions? Moreover, what fruitful interpretive methods do New Testament texts demonstrate? Leading biblical scholars Walter Kaiser, Darrel Bock and Peter Enns each present their answers to questions surrounding the use of the Old Testament in the New Testament. Contributors address elements such as Divine and human authorial intent, the context of Old Testament references, and theological grounds for an interpretive method. Each author applies his framework to specific texts so that readers can see how their methods work out in practice. Each contributor also receives a thorough critique from the other two authors. A one-stop reference for setting the scene and presenting approaches to the topic that respect the biblical text, Three Views on the New Testament Use of Old Testament gives readers the tools they need to develop their own views on this important subject. The Counterpoints series provides a forum for comparison and critique of different views on issues important to Christians. Counterpoints books address two categories: Church Life and Bible & Theology. Complete your library with other books in the Counterpoints series.

The Use of the Septuagint in New Testament Research-Tim McLay 2003 Too often the Septuagint is misunderstood or, worse, ignored in New Testament studies. In this book R. Timothy McLay makes a sustained argument for the influence of the Greek Jewish Scriptures on the New Testament and offers basic principles for bridging the research gap between these two critical texts. McLay explains the use of the Septuagint in the New Testament by looking in depth at actual New Testament citations of the Jewish Scriptures. This work reveals the true extent of the Septuagint s impact on the text and theology of the New Testament. Indeed, given the textual diversity that existed during the first century, the Jewish Scriptures as they were known, read, and interpreted in the Greek language provided the basis for much, if not most, of the interpretive context of the New Testament writers. Complete with English translations, a glossary of terms, an extensive bibliography, and helpful indexes, this book will give readers a new appreciation of the Septuagint as an important tool for interpreting the New Testament.

A New Companion to The Gothic-David Punter 2012-02-20 The thoroughly expanded and updated New Companion to the Gothic, provides a series of stimulating insights into Gothic writing, its history and genealogy. The addition of 12 new essays and a section on 'Global Gothic' reflects the direction Gothic criticism has taken over the last decade. Many of the original essays have been revised to reflect current debates Offers comprehensive coverage of criticism of the Gothic and of the various theoretical approaches it has inspired and spawned Features important and original essays by leading scholars in the field The editor is widely recognized as the founder of modern criticism of the Gothic

Planning for Power Advertising-Anand Halve 2005-10-04 This book is a step-by-step guide to producing a sound foundation for advertising: one that will serve as the springboard to inspire powerful creative expression. Rich in cases from the evolving Indian context, Planning for Power Advertising offers an understanding of how strategic advertising is created. It takes the reader through cases and analyses of what worked or did not work in the marketplace. Anand Halve invests the reader throughout in exercises with Action Points at the end of most chapters—an approach that brings alive the concepts within, and helps readers discover the theory in practice. For advertising professionals, this is a manual to create a robust advertising brief. For students of advertising and marketing, Planning for Power Advertising is a simulation exercise from which they will learn how to apply the principles that will help them in their future careers. And for professionals in areas related to advertising—such as media, event management and PR—this book provides an insight into how the strategic underpinning of advertising is built.

Walker remodelled, a new critical pronouncing dictionary of the English language-Benjamin Humphrey Smart 1836

The New York Times Manual of Style and Usage-Allan M. Siegal 1999 Offers more than six hundred alphabetically-arranged entries that provide guidelines on questions of spelling, punctuation, English usage, grammar, syntax, and style.

The Law of International Watercourses-Stephen C. McCaffrey 2019 The Law of International Watercourses is an authoritative guide to the rules of international law governing the navigational and non-navigational uses of international rivers, lakes, and groundwater. The continued growth of the world's population places increasing demands on Earth's finitesupplies of fresh water. Because two or more States share many of the world's most important drainage basins - including the Danube, the Ganges, the Indus, the Jordan, the Mekong, the Nile, the Rhine and the Tigris-Euphrates - competition for increasingly scarce fresh water resources will onlyincrease. Agreements between the States sharing international watercourses are negotiated, and disputes over shared water are resolved, against the backdrop of the rules of international law governing the use of this precious resource.The basic legal rules governing the use of shared freshwater for purposes other than navigation are reflected in the 1997 UN Convention on the Law of the Non-Navigational Uses of International Watercourses. This book devotes a chapter to the 1997 Convention but also examines the factual and legalcontext in which the Convention should be understood, considers the more important rules of the Convention in some depth, and discusses specific issues that could not be addressed in a framework instrument of that kind. The book reviews the major cases and controversies concerning internationalwatercourses as a background against which to consider the basic substantive and procedural rights and obligations of States in the field.The third edition covers the implications of the 1997 Convention coming into force in August 2014, and the compatibility of the 1997 and 1992 Conventions. This edition also updates the entire book, adds new material to many of the chapters, and adds a number of new case studies, including Pulp Millson the River Uruguay (Argentina v. Uruguay) and Certain Activities carried out by Nicaragua in the Border Area (Costa Rica v. Nicaragua), amongst others.

Synonyms Discriminated-Charles John Smith 1910

An Inquiry Into the Usage of Baptizo and the Nature of Johannic Baptism-James Wilkinson Dale 1871

Distribution Water Quality Issues Related to New Development Or Low Usage-Yakir J. Hasit 2007-05 Many water utilities deal with water quality problems in the distribution system due to low water usage. This study uncovers the many problems of low usage and reports on the variety of mitigation practices used by North American utilities. An included CD-ROM provides decision support software to help utilities systematically weigh the costs and benefits of a variety of best management practices (BMPs) for mitigating the water quality issues caused by low usage and thus cutting down on customer complaints and higher distribution costs.

Understanding Creative Users of ICTs-David Kurt Herold 2013-09-13 The disjuncture between the design intent of the developers of ICTs and the needs of the users has often led to surprising use of new technologies, as users have refused to become mere agents of the designers. Individual users have adopted their uses of ICTs based on the complex webs of relations and meanings in which they function as social actors. Instead of adjusting these webs to new ICTs, they have fit the ICTs into their pre-existing social webs, often resulting in imaginative and creative uses of new technologies, not envisaged by the original designers. The contributions in this volume provide studies of such integrations of ICTs into the lives of human users, and demonstrate that such uses should not be regarded as 'faulty' or 'mistaken', merely because they 'fail' to meet the expectations of the original designers of the ICTs. Instead, human users should be given precedence over ICTs, and the creative uses of 'universal' technologies by individual users should be emphasised and studied, so as to move towards a better understanding and appreciation of the integration of ICTs into human lives. This book was originally published as special issue of The Information Society.

Killing by Remote Control-Bradley Jay Strawser 2013-05-30 The increased military employment of remotely operated aerial vehicles, also known as drones, has raised a wide variety of important ethical questions, concerns, and challenges. Many of these have not yet received the serious scholarly examination such worries rightly demand. This volume attempts to fill that gap through sustained analysis of a wide range of specific moral issues that arise from this new form of killing by remote control. Many, for example, are troubled by the impact that killing through the mediated mechanisms of a drone half a world away has on the pilots who fly them. What happens to concepts such as bravery and courage when a war-fighter controlling a drone is never exposed to any physical danger? This dramatic shift in risk also creates conditions of extreme asymmetry between those who wage war and those they fight. What are the moral implications of such asymmetry on the military that employs such drones and the broader questions for war and a hope for peace in the world going forward? How does this technology impact the likely successes of counter-insurgency operations or humanitarian interventions? Does not such weaponry run the risk of making war too easy to wage and tempt policy makers into killing when other more difficult means should be undertaken? Killing By Remote Control directly engages all of these issues. Some essays discuss the just war tradition and explore whether the rise of drones necessitates a shift in the ways we think about the ethics of war in the broadest sense. Others scrutinize more specific uses of drones, such as their present use in what are known as "targeted killing" by the United States. The book similarly tackles the looming prospect of autonomous drones and the many serious moral misgivings such a future portends. "A path-breaking volume! BJ Strawser, an internationally known analyst of drone ethics, has assembled a broad spectrum of civilian and military experts to create the first book devoted to this hot-button issue. This important work represents vanguard thinking on weapon systems that make headlines nearly every day. It will catalyze debates policy-makers and military leaders must have in order to preserve peace and protect the innocent. - James Cook, Department Chair/Head of Philosophy, US Air Force Academy "The use of 'drones' (remotely piloted air vehicles) in war has grown exponentially in recent years. Clearly, this evolution presages an enormous explosion of robotic vehicles in war - in the air, on the ground, and on and under the sea. This collection of essays provides an invaluable contribution to what promises to be one of the most fundamental challenges to our assumptions about ethics and warfare in at least the last century. The authors in this anthology approach the ethical challenges posed by these rapidly advancing technologies from a wide range of perspectives. Cumulatively, they represent an essential overview of the fundamental ethical issues involved in their development. This collection makes a key contribution to an urgently needed dialogue about the moral questions involved." - Martin L. Cook, Adm. James B. Stockdale Professor of Professional Military Ethics, Professor Leadership & Ethics, College of Operational & Strategic Leadership, U.S. Naval War College

Asian Digital Libraries. Looking Back 10 Years and Forging New Frontiers-Dion Goh 2007-11-22 This book constitutes the refereed proceedings of the 10th International Conference on Asian Digital Libraries, ICADL 2007, held in Hanoi, Vietnam, in December 2007. The 41 revised full papers, 15 revised short papers, and extended abstracts of 10 poster papers presented together with three keynote and three invited papers were carefully reviewed and selected from a total of 154 submissions. The papers are organized in topical sections.

Biblical Theology of the Old and New Testaments-Brevard S. Childs 1993 This monumental work is the first comprehensive biblical theology to appear in many years and is the culmination of Brevard Child's lifelong commitment to constructing a biblical theology that surrounds objections to the discipline raised over the past generation. Childs rejects any approaches that overstress either the continuity or discontinuity between the Old and New Testaments. He refuses to follow the common pattern in Christian thought of subordinating biblical theology with the New Testament's interest in the Old. Rather, Childs maps out an approach that reflects on the whole Christian Bible with its two very different voices, each of which retains continuing integrity and is heard on its own terms.

Computers Helping People with Special Needs-Klaus Miesenberger 2004-06-25 This book constitutes the refereed proceedings of the 9th International Conference on Computers Helping People with Special Needs, ICCHP 2004, held in Paris, France, in July 2004. The 172 revised contributions presented were carefully reviewed and selected for inclusion in the book. The papers evaluate how various fields in computer science can contribute to helping people with various kinds of

disabilities. Among the technical fields evaluated are information systems, Web and Internet, the information society, computer-assisted education, human-computer interaction, interface design, virtual reality, mobile computing, ubiquitous computing, pervasive computing, assistive technology, multimedia, display technology, haptic computing, audio interfaces, and societal and administrative issues.

Pocket Fowler's Modern English Usage-

The Use of the Old Testament in Hebrews-Susan E. Docherty 2009 Originally presented as the author's thesis (Ph. D.)--University of Manchester, 2007.

Use of the U.S. Census Bureau's Public Use Microdata Sample (PUMS) by State Departments of Transportation and Metropolitan Planning Organizations-Kevin F. Tierney 2012-01-01 "Census microdata are the confidential records of specific individuals and housing units from whom Decennial Census or American Community Survey responses have been obtained. The U.S. Census Bureau also draws a sample from the full set of microdata and makes these sampled records available in the Public Use Microdata Sample (PUMS) data products, so that users can develop their own tabulations. These data are being used by state departments of transportation (DOTs) and metropolitan planning organizations (MPOs) for studies, such as analyses of the commuting characteristics of population subgroups, and for supporting travel demand model and land use models."--Preface

New Results and New Trends in Computer Science-Hermann Maurer 1991-11-13 This volume contains selected papers from a symposium on new results and new trends in computer science. Topics covered range over the entire field and are of interest to computer scientists in almost every area.

Cyberpsychology and New Media-Andrew Power 2013-10-01 Cyberpsychology is the study of human interactions with the internet, mobile computing and telephony, games consoles, virtual reality, artificial intelligence, and other contemporary electronic technologies. The field has grown substantially over the past few years and this book surveys how researchers are tackling the impact of new technology on human behaviour and how people interact with this technology. Examining topics as diverse as online dating, social networking, online communications, artificial intelligence, health-information seeking behaviour, education online, online therapies and cybercrime, Cyberpsychology and New Media book provides an in-depth overview of this burgeoning field, and allows those with little previous knowledge to gain an appreciation of the diversity of the research being undertaken in the area. Arranged thematically and structured for accessibility, Cyberpsychology and New Media will be essential reading for researchers and students in Social Psychology and Cyberpsychology, and in Communication and Media Studies.

Worship Old and New-Robert E. Webber 2009-12-15 "A worship that will have staying power is a worship that is firmly grounded in the old, yet aware of and concerned for new ways to respond to the old, old story."In the first edition of Worship Old and New, Robert E. Webber introduced an approach to worship that blended historical and traditional practices with contemporary elements. Since then, the spreading fires of worship renewal have provided opportunity for fresh consideration. This significantly revised edition is the result of Webber's interaction with current worship trends. It is intended to be used both in the classroom and by those who want to improve worship in the local church.Reformatted for an easier, logical approach to worship theology, this revised edition of Worship Old and New is divided into four major sections, addressing the biblical foundation of worship, its theology, its history, and its practice. New information has been incorporated into each section to give the reader a better grasp of the biblical themes of worship, a deeper understanding of Old Testament customs, and a solid grounding in modern-day renewal movements.Especially significant is a reexamination of the actual practice of worship that goes beyond the merely academic to provide a practical perspective through the eyes of the worship leader and worshipers.Well-versed in the best of both past and present, Worship Old and New is a scholarly, up-to-date, and thought-provoking resource for those serious about exploring worship.

The English Language in America-George Philip Krapp 1925

Europe, a New Immigration Continent-Dietrich Thränhardt 1992 Preface.

Digital Libraries - Current Issues-Nabil R. Adam 1995-04-19 This volume is the first book coherently summarizing the current issues in digital libraries research, design and management. It presents, in a homogeneous way, thoroughly revised versions of 15 papers accepted for the First International Workshop on Digital Libraries, DL '94, held at Rutgers University in May 1994; in addition there are two introductory chapters provided by the volume editors, as well as a comprehensive bibliography listing 262 entries. Besides introductory aspects, the topics addressed are administration and management, information retrieval and hypertext, classification and indexing, and prototypes and applications. The volume is intended for researchers and design professionals in the field, as well as for experts from libraries administration and scientific publishing.

Open a New Window-Ethan Mordden 2015-04-07 In the 1960s, the Broadway musical was revolutionized from an entertainment characterized by sentimental standards, such as Camelot and Hello, Dolly!, to one of brilliant and bittersweet masterpieces, such as Cabaret and Fiddler on the Roof. In Open a New Window, Ethan Mordden continues his history of the Broadway musical with the decade that bridged the gap between the romantic, fanciful entertainments of the fifties, such as Call Me, Madam, to the seventies when sophisticated fare, such as A Little Night Music and Follies, was commonplace. Here in brilliant detail is the decade and the people that forever transformed the Broadway musical.

The New Edge in Knowledge-Carla O'Dell 2011-01-31 The best thinking and actions in the fast-moving arena of collaboration and knowledge management The New Edge in Knowledge captures the most practical and innovative practices to ensure organizations have the knowledge they need in the future and, more importantly, the ability to connect the dots and use knowledge to succeed today. Build or retrofit your organization for new ways of working and collaboration by using knowledge management Adapt to today's most popular ways to collaborate such as social networking Overcome organization silos, knowledge hoarding and "not invented here" resistance Take advantage of emerging technologies and mobile devices to build networks and share knowledge Identify what can be learned from Facebook, Twitter, Google and Amazon to make firms and people smarter, stronger and faster Straightforward and easy-to-follow, this is the resource you'll turn to again and again to get-and stay-in the know. Plus, the book is filled with real-world examples – the case studies and snapshots of how best practice companies are achieving success with knowledge management.

Marital Discord-'AbdulHamid Abū Sulaymān 2003 The Quran speaks of living with each other on a footing of love, kindness, mercy and mutual consultation between husband and wife. It also addresses those times when the atmosphere is strained. This paper examines the issue of marital discord with a deep sensitivity to the perspective of women. Criticizing an approach to the Quran that is misogynistic rather than emancipatory the paper moves the debate forward by introducing an alternative interpretation of the Quranic text dealing with the issue of marital discord. The explanation is fresh, firmly on the side of women's human rights and recaptures the full Islamic spirit of human dignity.

The Evolving Use and the Changing Role of Interstate Compacts-Caroline N. Broun 2006 The Evolving Use and the Changing Role of Interstate Compacts is a long-needed guide to the law and use of interstate compacts. This book explains the historical basis of compacts and the legal underpinnings of compacts. It covers such diverse topics as federal and state court jurisdiction, compact-created administrative agencies, Eleventh Amendment immunity, drafting considerations, and the use of compacts in specific areas such as crime control, child welfare, environmental regulation and economic development. The book also examines why interstate compacts are providing to be the vehicle of choice for cooperation between states and provides practitioners with the tools they need to understand create and make the best use of such agreements.

The new accounting bookkeeping without books of original entry by the use of a natural system of double entry bookkeeping-R. Borsodi 1922

The Indian Decisions (New Series)- 1914

Garner's Modern American Usage-Bryan Garner 2009-07-28 Since first appearing in 1998, Garner's Modern American Usage has established itself as the preeminent guide to the effective use of the English language. Brimming with witty, erudite essays on troublesome words and phrases, GMAU authoritatively shows how to avoid the countless pitfalls that await unwary writers and speakers whether the issues relate to grammar, punctuation, word choice, or pronunciation. An exciting new feature of this third edition is Garner's Language-Change Index, which registers where each disputed usage in modern English falls on a five-stage continuum from nonacceptability (to the language community as a whole) to acceptability, giving the book a consistent standard throughout. GMAU is the first usage guide ever to incorporate such a language-change index. The judgments are based both on Garner's own original research in linguistic corpora and on his analysis of hundreds of earlier studies. Another first in this edition is the panel of critical readers: 120-plus commentators who have helped Garner reassess and update the text, so that every page has been improved. Bryan A. Garner is a writer, grammarian, lexicographer, teacher, and lawyer. He has written professionally about English usage for more than 28 years, and his work has achieved widespread renown. David Foster Wallace proclaimed that Bryan Garner is a genius and William Safire called the book excellent. In fact, due to the strength of his work on GMAU, Garner was the grammarian asked to write the grammar-and-usage chapter for the venerable Chicago Manual of Style. His advice on language matters is second to none.

Keywords for American Cultural Studies, Second Edition-Bruce Burgett 2014-12-19 The latest vocabulary of key terms in American Studies Since its initial publication, scholars and students alike have turned to Keywords for American Cultural Studies as an invaluable resource for understanding key terms and debates in the fields of American studies and cultural studies. As scholarship has continued to evolve, this revised and expanded second edition offers indispensable meditations on new and developing concepts used in American studies, cultural studies, and beyond. It is equally useful for college students who are trying to understand what their teachers are talking about and for general readers who want to know what's new in scholarly research, and for professors who just want to keep up. Designed as a print-digital hybrid publication, Keywords collects more than 90 essays30 of which are new to this edition—from interdisciplinary scholars, each on a single term such as "America," "culture," "law," and "religion." Alongside "community," "prison," "queer," "region," and many others, these words are the nodal points in many of today's most dynamic and vexed discussions of political and social life, both inside and outside of the academy. The Keywords website, which features 33 essays, provides pedagogical tools that engage the entirety of the book, both in print and online. The publication brings together essays by scholars working in literary studies and political economy, cultural anthropology and ethnic studies, African American history and performance studies, gender studies and political theory. Some entries are explicitly argumentative; others are more descriptive. All are clear, challenging, and critically engaged. As a whole, Keywords for American Cultural Studies provides an accessible A-to-Z survey of prevailing academic buzzwords and a flexible tool for carving out new areas of inquiry.

Comparative Hungarian Cultural Studies-Steven Tötösy de Zepetnek 2011 Cover -- Title -- Copyright -- Contents -- Introduction to Comparative Hungarian Cultural Studies -- Part One: History, Theory, and Methodology for Comparative Hungarian Cultural Studies -- The Study of Hungarian Culture as Comparative Central European Cultural Studies -- Literacy, Culture, and History in the Work of Thienemann and Hajnal -- Vámbéry, Victorian Culture, and Stoker's Dracula -- Memory and Modernity in Fodor's Geographical Work on Hungary -- The Fragmented (Cultural) Body in Polcz's Asszony a fronton (A Woman on the Front) -- Part Two: Comparative Hungarian Cultural Studies of Literature and Culture -- Contemporary Hungarian Literary Criticism and the Memory of the Socialist Past -- The Absurd as a Form of Realism in Hungarian Literature -- On the German and English Versions of Márai's A gyertyák csonkig égnek (Die Glut and Embers) -- Exile, Homeland, and Milieu in the Oral Lore of Carpatho-Rusyn Jews -- Part Three: Comparative Hungarian Cultural Studies and the Other Arts -- Nation, Gender, and Race in the Ragtime Culture of Millennial Budapest -- Jewish (Over)tones in Viennese and Budapest Operetta -- Curtiz, Hungarian Cinema, and Hollywood -- Lost Dreams and Sacred Visions in the Art of Amos -- Art Nouveau and Hungarian Cultural Nationalism -- Part Four: Comparative Hungarian Cultural Studies and Gender Studies -- Hungarian Political Posters, Clinton, and the (Im)possibility of Political Drag -- The Cold War, Fashion, and Resistance in 1950s Hungary -- Sándor/Sarolta Vay, a Gender Bender in Fin-de-Siècle Hungary -- Women Managers Communicating Gender in Hungary -- Part Five: Comparative Hungarian Cultural Studies of Contemporary Hungary -- Commemoration and Contestation of the 1956 Revolution in Hungary -- About the Jewish Renaissance in Post-1989 Hungary - Aspects of Contemporary Hungarian Literature and Cinema.

Advances in Knowledge Discovery and Management-Fabrice Guillet 2010-09-07 During the last decade, the French-speaking scientific community developed a very strong research activity in the field of Knowledge Discovery and Management (KDM or EGC for "Extraction et Gestion des Connaissances" in French), which is concerned with, among others, Data Mining, Knowledge Discovery, Business Intelligence, Knowledge Engineering and SemanticWeb. The recent and novel research contributions collected in this book are extended and reworked versions of a selection of the best papers that were originally presented in French at the EGC 2009 Conference held in Strasbourg, France on January 2009. The volume is organized in four parts. Part I includes five papers concerned by various aspects of supervised learning or information retrieval. Part II presents five papers concerned with unsupervised learning issues. Part III includes two papers on data streaming and two on security while in Part IV the last four papers are concerned with ontologies and semantic.

Modern American Usage-Wilson Follett 1966 Contains rules and advice for improved effectiveness in written and oral English and a section explaining common grammatical errors
