A New Wrinkle-Eric Z. Shapira 2011-07-07 Aging is a mystery for most—something that just happens, a complex labyrinth. In A New Wrinkle, author and clinical gerontologist Eric Z. Shapira provides a wide range of information to help people adapt to aging and make it their friend. Designed as a model on how to be prepared for the aging process, A New Wrinkle uses real-life examples, anecdotes, and tips to help you learn about yourself, how you think, and how you feel in light of getting older. It covers a wide range of topics affected by aging, including memory, chronic disease, physical changes, sex, dying, and death. It also includes advice and insight for managing families in crises, handling transitions, choosing caregivers, and creating win-win situations for families and their caregivers. Aging is a process that starts with birth. A New Wrinkle helps you to make choices for a life that is worth living from start to finish. You can make the most out of aging and learn ways to live a productive life instilled with dignity and good health.

The Performance and Potential of Consumer-driven Health Care-United States 2004

Bringing Value to Healthcare-Rita E. Numerof 2016-04-05 The healthcare sector is on the cusp of sweeping disruption. The hallmarks of the old system—pricing that's disconnected from outcomes and incentives for treating sickness rather than maintaining health—are no longer sustainable. And yet, after decades of financial success, it's difficult for most established industry players to grapple with meaningful changes to their business models. In their latest book, Bringing Value to Healthcare: Practical Steps for Getting to a Market-Based Model, Rita Numerof and Michael Abrams lay out the roadmap to a healthcare system that is accountable for delivering optimal patient outcomes at a sustainable cost. Based on in-depth research and decades of experience consulting with leading hospitals, insurers, and device and drug manufacturers, Numerof and Abrams provide a market-based approach to addressing the ills of the current healthcare system. In addition to highlighting industry challenges and opportunities, the authors also outline the changes required of consumers, employers, and policy makers to move to a patient-centered model characterized by value, accountability, and transparency. This is the handbook for payer, provider, pharmaceutical, and medical device executives who are seeking to preserve today's profitability while positioning their organizations for success in the very different markets of tomorrow. The book's guidance is illuminated by case studies and each chapter concludes with a self-assessment tool and key questions. Getting to a new future isn't easy. But if it can't be envisioned, it can't be realized. Bringing Value to Healthcare is that critical first step.

Medical technology -- the culprit behind health care costs- 1979

New Wrinkle on Aging- 1998

Taking the Pulse of the U.S. Health Care System-Catherine A. Hosmer 2007 This book's purpose was to find out how people across the United States felt about their health care. In that effort, the author interviewed hundreds of people-male or female, retired or working, ill or well, health professional or not-and was shocked by the disdain with which most of those questioned view our health care system. Their opinions are a large part of this book.

What has happened to a once-great health system often proclaimed by many as best in the world? The author consulted dozens of experts present both when the system as created as well as those working in the field today. The trail of blame, in their opinions, leads to politicians, doctors, lawyers, pharmaceutical giants, HMOs, hospitals, and other health providers who they declare have lined their pockets at the public's expense. This book tries to answer the questions, "HOW DID IT HAPPEN?" and "IF OUR HEALTH CARE SYSTEM IS BROKEN, HOW CAN WE FIX IT?"

Public and Private Social Policy-Daniel Béland 2008-11-15 Exploring the increasing involvement of the private sector in social policy, this study examines the complex relationship between the public and private sectors from an international perspective, focusing on health and pension policies.
