The Bible on Leadership-Lorin Woolfe 2002-06-18 Millions have been inspired by the Bible's spiritual lessons. Now, Lorin Woolfe provides a unique way to view the Bible . . . for leadership lessons that can be applied to our modern business world. Consider David's courage and innovation in slaying Goliath with just a stone and a sling; Moses' outstanding "succession planning" in picking Joshua; Joseph and the political skills that brought him to the seat of power; and of course, Jesus' compassion, communication skills, and vision that launched Christianity (a long-term success by any measure). These are leaders among leaders. Their achievements -- and their inspired methods of achievement -- offer a wholly different perspective on business leadership. For the dozens of Biblical stories presented, the book provides:

- * A concise retelling of each

story * One (or more) leadership lessons suggested by each story * Examples of contemporary business leaders who exhibit some of the inspired traits of these ancient leaders, including: Fred Smith of FedEx, Howard Shultz of Starbucks, Tom Chappell of Tom's of Maine (a "toothpaste with a mission"), Roy Vagelos of Merck, and many more. The chapters cover these universal topics: Courage * Purpose * Communication * Honesty and Integrity * Power and Influence * Performance Management * Team Building * Humility * Compassion * Justice * Encouragement and Consequences * Wisdom * Creating the Future Each topic concludes with a list of key points to keep in mind as readers continue on their own leadership journeys.

Harvest of Hope-Lorraine Garkovich 2015-01-13 The image of the family farm as storehouse of the traditional values that built this nation -- self-reliance, resourcefulness, civic pride, family strength, concern for neighbors and community, honesty, and friendliness -- persists, as many recent surveys show.

But the reality of this rich tradition is rapidly changing, eroding the security once represented by these nostalgic images of rural America. Although the United States is still by far the world's leading overall producer of agricultural products, the number of American families making their livelihood through farming is much diminished, and if our demographers are correct, the number of family-operated farms is destined to fall still further in the coming decades as consolidation, cycles of boom and bust, and corporate invasions redefine who will farm the land. Harvest of Hope is a story of farm family life through the words of those who live it. The saga of the generations who have lived and worked on Basin Spring farm in western Kentucky is the thread that binds together the stories of eighty other farm families. They talk about their family businesses, their way of life, and the forces reshaping their lives. The challenges of making a living in farming either strengthen families or break them. Technology, government programs, and

community changes that are supposed to be the hope for their future often come with unexpected drawbacks. The stories in this book -- tales of growing up in farming, working in a multifamily business, juggling jobs on and off the farm, and struggling to maintain financial security and comfortable working relationships -- reveal what American farming families know about hope and survival in a changing world. The authors offer a multifaceted view of the present situation, as well as suggestions for ways of enhancing the positive elements that have enriched and inspired Americans in the past. It is an analysis that highlights the myths and realities of a business and way of life that has a powerful hold on the American imagination. The reader comes away from this work with a clear idea of the tribulations farming families endure and the delicate balance between the spiritual and other rewards of farm life. My Mama's Drama-La Jill Hunt 2018-11-01 The love/hate relationship between Diane and Kendra

Williams takes mother-daughter drama to entirely different level. Diane is a single mother who prides herself on being a master manipulator. She has no problem using anything or anyone to get what she wants. Whether it's treating her sister, Celia, as her personal ATM or seducing unlikely, unsuspecting men, she will do whatever it takes to get ahead. Her daughter, Kendra, is a hardworking student who does a better job parenting her younger twin sisters than their mom does. She is determined to be nothing like her mother, and instead, strives to follow in her Aunt Celia's footsteps to get the car, house, and career of her dreams. After meeting Bilal, a handsome, streetwise entrepreneur, she may just land the man of her dreams as well. When tragedy strikes one of the twins, instead of being there for her family, Diane sees it as one more opportunity to exploit for her own personal gain. And when a secret that both Diane and Kendra have been keeping comes out, the entire family is ripped apart. Will Kendra be able to hold on to everything

that means the world to her, or will her mama's drama snatch it all away?

She couldn't let herself get serious about him, though, because their relationship was never going to last!

Bikie-Charlie Woods
2012-06-22 Bikie lays bare the true heart of cycling. Every grass-roots enthusiast, keen racing man and elite professional has one thing in common: he loves his bike and riding it. The author pinpoints the source of his love, tracing its development in the individual, how it draws people into a community and then a tradition - creating a whole worldwide culture to celebrate that deep affection for what is a technological marvel and transcendent experience. Great champions, too, are inseparable from their bikes. They merge into them, becoming a composite image, figures of myth. As well as exerting an emotional hold, cycling, in its famous races, also mounts a living proof of exemplary virtues: courage, perseverance and self-sacrifice - gives us, in fact, a glimpse of the higher reaches of the human spirit. There is a sense of this mythical realm in every pedal turn, for once astride a handbuilt lightweight we are put in touch with the greatest riders of all time. Bikie is the story of one man's passionate involvement, but in its

forthright sincerity it goes to the roots of what we all share. Copyediting and Proofreading For Dummies-Suzanne Gilad

Josephson 1997 In 1958 construction began on Akademgorodok, a scientific utopian community modeled after Francis Bacon's vision of a "New Atlantis." The city, carved out of a Siberian forest

2,500 miles east of Moscow, was formed by Soviet scientists with Khrushchev's full support. They believed that their rational science, liberated from ideological and economic constraints, would help their country surpass the West in all fields. In a lively history of this city, a symbol of de-Stalinization, Paul Josephson offers the most complete analysis available of the reasons behind the successes and failures of Soviet science--from advances in nuclear physics to politically induced setbacks in research on recombinant DNA. Josephson presents case studies of high energy physics, genetics, computer science, environmentalism, and social sciences. He reveals that persistent ideological interference by the Communist Party, financial uncertainties, and pressures to do big science endemic in the USSR contributed to the failure of Akademgorodok to live up to its promise. Still, a kind of openness reigned that presaged the glasnost of Gorbachev's administration decades later. The openness was rooted in the geographical and

psychological distance from Moscow and in the informal culture of exchange intended to foster the creative impulse. Akademgorodok is still an important research center, having exposed physics, biology, sociology, economics, and computer science to new investigations, distinct in pace and scope from those performed elsewhere in the Soviet scientific establishment.

You Must Be Very Intelligent- Karin Bodewits 2017-07-03
You Must be Very Intelligent is the author's account of studying for a PhD in a modern, successful university. Part-memoir and part-exposé, this book is highly entertaining and unusually revealing about the dubious morality and desperate behaviour which underpins competition in twenty-first century academia. This witty, warts-and-all account of Bodewits' years as a PhD student in the august University of Edinburgh is full of success and failure, passion and pathos, insight, farce and warm-hearted disillusionment. She describes a world of collaboration and backstabbing; nefarious

financing and wasted genius; cosmopolitan dreamers and discoveries that might just change the world... Is this a smart people's world or a drip can of weird species? Modern academia is certainly darker and stranger than one might suspect... This book will put a wry, knowing smile on the faces of former researchers. And it is a cautionary parable for innocents who still believe that lofty academia is erected upon moral high ground...

A Question of Honour-Kate Walker 2014 A runaway princess... It should have been easy. Karim al Khalifa, crown prince of Mazarkhad, had one task—retrieve rebellious princess Clementina Saveneski from her hideout in England and return her home to be wed...to another man.
