Scat-Carl Hiaasen 2009-01-27
From Newbery Honoree Carl Hiaasen comes this New York Times bestseller set in Florida's Everglades in which an eccentric eco-avenger, a stuffed rat named Chelsea, a wannabe Texas oilman, a singing substitute teacher, and a ticked-off panther can't stop two kids on a mission to find their missing teacher!

Bunny Starch, the most feared biology teacher ever, is missing. She disappeared after a school field trip to Black Vine Swamp. And, to be honest, the kids in her class are relieved. But when the principal tries to tell the students that Mrs. Starch has been called away on a "family emergency," Nick and Marta just don't buy it. No, they figure the class delinquent, Smoke, has something to do with her disappearance. And he does! But not in the way they think. There's a lot more going on in Black Vine Swamp

than any one player in this twisted tale can see. It's all about to hit the fan, and when it does, the bad guys better scat. "Ingenious . . . Scat won't disappoint Hiaasenphiles of any age."

—The New York Times

"Woohoo! It's time for another trip to Florida—screwy, gorgeous Florida, with its swamps and scammers and strange creatures (two- and four-legged). Our guide, of course, is Carl Hiaasen."

Ripping England!-Roger Rawlings 2017-12-04

Examines an all too often neglected period of postwar British cinema and popular culture. Ripping England! investigates a fertile moment for British satire—the period between 1947 and 1953, which produced the films Passport to Pimlico, Kind Hearts and Coronets, and The Lavender Hill Mob, as well as

the seminal radio program The Goon Show. Against the postwar background of fading empire, universal rationing, and the implementation of a welfare state, these satires laid the foundation for a new British cultural identity later fleshed out by the Angry Young Men, the Movement poets, the Social Realists, and those involved in the satire boom of the 1960s, which lives on even to this day. The peculiarity of these satires and the British identity they shaped is better understood when seen in relief against postwar cinematic cultures of Italy, France, and the United States. Roger Rawlings places postwar British film in the context of contemporaneous European national film movements and contrasts it with Hollywood's comedies and satires of the same period. British satires of the late forties and early fifties held up a mirror to a nation that was in the throes of change, moving from a colonial empire to an inward-turning island culture. Ripping England! looks at the all too often neglected miracle of postwar British cinema and popular culture.
