200 Love Lessons from the Movies-Leslie C. Halpern 2016-08-01
Romantic movies—no matter how fluffy or fanciful—contain some kernel of truth about real-life love. These films are fictionalized accounts of the collective romantic experiences of everyone involved in the filmmaking process, so even average movies can

provide spectacular insights for every stage of romance from first dates to wedding planning. No one knows this better than Leslie C. Halpern, a respected entertainment journalist who was a stringer for The Hollywood Reporter for 13 years and has contributed to Variety, the Orlando Sentinel, Markee, and many other publications. She is also the author of Reel Romance: The Lovers' Guide to the 100 Best Date Movies, which earned her a reputation as an expert on the subject of romantic movies, and Dreams on Film, which is used on college campuses around the world. Her book Passionate About TheirWork: 151 Celebrities, Artists and Experts on Creativity was named one of MyShelf.com's Top Ten Reads for 2010. Now in her new book, 200 LOVE LESSONS FROM THE MOVIES, Leslie C. Halpern helps make our favorite movies even more enjoyable by showing us the nugget of relationship wisdom in them. Whether the movie features an unforgettable date (My Date with Drew), odd first meetings (Wimbledon), or a particularly stormy breakup (Eternal Sunshine of the Spotless Mind), Halpern steers the reader toward a valuable lesson to be learned, for example: 45. Don't Let Anger Obscure The Thoughtfulness of a Gift. 46. If You Broke It, Lost It, or Damaged It, then Replace It. 47. Make Sure You Really Want to Say Good-Bye When You Give a Good-Bye Gift. 48. Words May Deceive, but Facial Expressions Don't Lie. Reel Romance made Leslie Halpern a popular speaker at film festivals, book clubs, bookstores and campuses, and she has appeared in signings around the

country, in addition to American television, Canadian television, radio, and print. 200 LOVELESSONS FROM THE MOVIES is sure to attract an equally large and enthusiastic movie-loving audience.

Nicole Kidman-Paul Simpson 2003 A look at

Hollywood's brightest star, featuring 60 color photos. From her first faltering steps as an eight-year-old on a Sydney stage to the acclaim that greeted her Oscar-nominated performance in Moulin Rouge and her captivating turn on stage in The Blue Room, Nicole Kidman has excelled in every arena she has entered. But who is this flame-haired, sapphire-eyed beauty who has taken the entertainment world by storm?

Kidman's rise through the ranks of Australian television and film eventually led to leading roles in Hollywood. While box office success initially stayed just out of range, her A-list status was assured when she and husband Tom Cruise were cast in Stanley Kubrick's controversial film Eyes Wide Shut. But why did everything seem to fall apart just as she was reaching her goals? And what has she had to sacrifice to achieve them? In Nicole Kidman, journalists Paul Simpson and Ruth Thomas look at her intriguing path to superstardom.

The Snowman-Jo Nesbo 2011-05-10 Inspector Harry Hole tracks a Norwegian serial killer in this installment of Jo Nesbø's New York Times bestselling series. One night, after the first snowfall of the year, a boy named Jonas wakes up and discovers that his mother has disappeared. Only one trace of her remains: a pink scarf, his Christmas gift to her, now worn by the snowman that inexplicably appeared in their yard earlier that day. Inspector Harry Hole suspects a link between the missing woman and a suspicious letter he's received. The case deepens when a pattern emerges: over the past decade, eleven women have vanished—all on the day of the first snow. But this is a killer who makes his own rules . . . and he'll break his pattern just to keep the game interesting, as he draws Harry ever closer into his twisted web. With brilliantly realized characters and hair-raising suspense, international bestselling author Jo Nesbø presents his most chilling case yet—one that will test Harry Hole to the very limits of his sanity. Contemporary Masculinities in Fiction, Film and Television-Brian Baker 2015-01-29 While masculinity has been an increasingly visible field of study within several disciplines (sociology, literary studies, cultural studies, film and tv) over the last two decades, it is surprising that analysis of contemporary representations of the first part

of the century has yet to emerge. Professor Brian Baker, evolving from his previous work *Masculinities in Fiction and Film: Representing Men in Popular Genres 1945-2000*, intervenes to rectify the scholarship in the field to produce a wide-ranging, readable text that deals with films and other texts produced since the year 2000. Focusing on representations of masculinity in cinema, popular fiction and television from the period 2000-2010, he argues that dominant forms of masculinity in Britain and the United States have become increasingly informed by anxiety, trauma and loss, and this has resulted in both narratives that reflect that trauma and others which attempt to return to a more complete and heroic form of masculinity. While focusing on a range of popular genres, such as Bond films, war movies, science fiction and the Gothic, the work places close analyses of individual films and texts in their cultural and historical contexts, arguing for the importance of these popular fictions in diagnosing how contemporary Britain and the United States understand themselves and their changing role in the world through the representation of men, fully recognising the issues of race/ethnicity, class, sexuality, and age. Baker draws upon current work in mobility studies and in the study of masculinities to produce the first book-length comparative study of masculinity in popular culture of the first decade of the twenty-first century.

Bent-Martin Sherman 1998 (Applause Books).
Martin Sherman's worldwide hit play *Bent* took London by storm in 1979 when it was first performed by the Royal Court Theatre, with Ian McKellen as Max (a character written with the actor in mind). The play itself caused an uproar. "It educated the world," Sherman explains.

"People knew about how the Third Reich treated Jews and, to some extent, gypsies and political prisoners. But very little had come out about their treatment of homosexuals." Gays were arrested and interned at work camps prior to the genocide of Jews, gypsies, and handicapped, and continued to be imprisoned even after the fall of the Third Reich and liberation of the camps. The play *Bent* highlights the reason why - a largely ignored German law, Paragraph 175, making homosexuality a criminal offense, which Hitler reactivated and strengthened during his rise to power.

The Children of Men-P. D. James 2010-10-20
Told with P. D. James's trademark suspense, insightful characterization, and riveting storytelling, *The Children of Men* is a story of a world with no children and no future. The human race has become infertile, and the last generation to be born is now adult. Civilization itself is crumbling as suicide and despair become commonplace. Oxford historian Theodore Faron, apathetic toward a future without a future, spends most of his time reminiscing. Then he is approached by Julian, a bright, attractive woman who wants him to help get her an audience with his cousin, the powerful Warden of England. She and her band of unlikely revolutionaries may just awaken his desire to live . . . and they may also hold the key to survival for the human race. From the Trade Paperback edition.

Devastation Class-Glen Zipper 2020-09-08
An annihilation force of invading aliens. Human civilization on the brink of extinction. Earth's only hope—seven cadets and the legendary starship they were never meant to command. No matter the cost, they will stop at nothing to survive. No matter the odds, they will fight to save their future. The distant future. Earth's Alliance forces have emerged victorious from a brutal nine-year war with the mysterious Kastazi—a vicious, highly advanced alien race. In the dawn of a new peace, the Alliance Devastation Class starship *California* embarks on a mission of science and learning with a skeleton crew of seasoned officers, civilian students, and inexperienced military cadets in tow. For JD Marshall and Viv Nixon, gifted cadets and best

friends, the mission holds special meaning: It offers an opportunity to prove themselves and begin to escape the long shadows of their legendary war hero parents. Suddenly ambushed by a second wave of invading Kastazi forces, JD and Viv make the impossible decision to spearhead a mutiny to save the California and everyone on it. In command and quickly out of options, they are forced to activate the ship's prototype Blink Reactor—an experimental technology they expect to send them to the safe, distant reaches of space. When their escape transports them to a reality they don't recognize and reveals unimaginably terrifying secrets, they must fight their way home to save not just everyone they love but also humanity itself. Standing in their way are an insurmountable enemy, saboteurs from within, a mystery eons in the making, and the fabric of time and space itself.
