A People's History of the United States-Howard Zinn 1996 In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies, as well as the general reader.

A History of the American People-Paul Johnson 2009-06-30 "The creation of the United States of America is the greatest of all human adventures," begins Paul Johnson. "No other national story holds such tremendous lessons, for the American people themselves and for the rest of mankind." In his prize-winning classic, Johnson presents an in-depth portrait of American history from the first colonial settlements to the Clinton administration. This is the story of the men and women who shaped and led the nation and the ordinary people who collectively created its unique character. Littered with letters, diaries, and recorded conversations, it details the origins of their struggles for independence and nationhood, their heroic efforts and sacrifices to deal with the 'organic sin' of slavery and the preservation of the Union to its explosive economic growth and emergence as a world power. Johnson discusses contemporary topics such as the politics of racism, education, the power of the press, political correctness, the growth of litigation, and the influence of women throughout history. He sees Americans as a problem-solving people and the story of their country as "essentially one of difficulties being overcome by intelligence and skill, by faith and strength of purpose, by courage and persistence... Looking back on its past, and forward to its future, the auguries are that it will not disappoint humanity." Sometimes controversial and always provocative, A HISTORY OF THE AMERICAN PEOPLE is one author's challenging and unique interpretation of American history. Johnson's views of individuals, events, themes, and issues are original, critical, and in the end admiring, for he is, above all, a strong believer in the history and the destiny of the American people.

A People's History of American Empire-Howard Zinn 2008-04 Adapted from the critically acclaimed chronicle of U.S. history, a study of American expansionism around the world is told from a grassroots perspective and provides an analysis of important events from Wounded Knee to Iraq, in a volume created in the format of a graphic novel. Simultaneous. 100,000 first printing.

A People's History of American Higher Education-Philo A. Hutcheson 2019-06-19 This essential history of American higher education brings a fresh perspective to the field, challenging the accepted ways of thinking historically about colleges and universities. Organized thematically, this book builds from the ground up, shedding light on the full, diverse range of institutions—including small liberal arts schools, junior and community colleges, black and white women's colleges, black colleges, and state colleges—that have been instrumental in creating the higher education system we know today. A People's History of American Higher Education focuses on those participants who may not have been members of elite groups, yet who helped push elite institutions and the country as a whole. This pathbreaking textbook addresses key issues which have often been condemned to exceptions and footnotes—if not ignored completely—in historical considerations of U.S. higher education; particularly race, ethnicity, gender, and class. Hutcheson introduces readers to both social and intellectual history, providing invaluable perspectives and methodologies for graduate students and faculty members alike. A People's History of American Higher Education surveys the varied characteristics of the diverse populations constituting or striving for the middle class through educational attainment, providing a narrative that unites often divergent historical fields. The author engages readers in a powerful, revised understanding of what institutions and participants beyond the oft-cited elite groups have done for American higher education.

A People's History of the United States-Howard Zinn 2012-11-01 The Abridged Teaching Edition of A People's History of the United States has made Howard Zinn's original text available specifically for classroom use. With exercises and teaching materials to accompany each chapter, this edition spans American Beginnings,

Reconstruction, the Civil War and through to the present, with new chapters on the Clinton Presidency, the 2000 elections, and the "War on Terrorism."

An Indigenous Peoples' History of the United States-Roxanne Dunbar-Ortiz 2014-09-16 2015 Recipient of the American Book Award The first history of the United States told from the perspective of indigenous peoples Today in the United States, there are more than five hundred federally recognized Indigenous nations comprising nearly three million people, descendants of the fifteen million Native people who once inhabited this land. The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. In An Indigenous Peoples' History of the United States, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: "The country can be rid of them only by exterminating them." Spanning more than four hundred years, this classic bottom-up peoples' history radically reframes US history and explodes the silences that have haunted our national narrative.

A Young People's History of the United States-Howard Zinn 2011-01-04 A Young People's History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to The People Speak, the film adapted from A People's History of the United States and Voices of a People's History of the United States. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of A Young People's History of the United States presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true greatness is shaped by our dissident voices, not our military generals.

A People's History of the U.S. Military-Michael A. Bellesiles 2012-09-11 In A People's History of the U.S. Military, historian Michael A. Bellesiles draws from three centuries of soldiers' personal encounters with combat—through fascinating excerpts from letters, diaries, and memoirs, as well as audio recordings, film, and blogs—to capture the essence of the American military experience firsthand, from the American Revolution to the wars in Iraq and Afghanistan. Military service can shatter and give meaning to lives; it is rarely a neutral encounter, and has contributed to a rich outpouring of personal testimony from the men and women who have literally placed their lives on the line. The often dramatic and always richly textured first-person accounts collected in this book cover a wide range of perspectives, from ardent patriots to disillusioned cynics; barely literate farm boys to urbane college graduates; scions of founding families to recent immigrants, enthusiasts, and dissenters; women disguising themselves as men in order to serve their country to African Americans fighting for their freedom through military service. A work of great relevance and immediacy—as the nation grapples with the return of thousands of men and women from active military duty—A People's History of the U.S. Military will become a major new touchstone for our understanding of American military service.

A People's History of Poverty in America-Stephen Pimpare 2011-06-07 In this compulsively readable social history, political scientist Stephen Pimpare vividly describes poverty from the perspective of poor and welfare-reliant Americans from the big city to the rural countryside. He focuses on how the poor have created community, secured shelter, and found food and illuminates their battles for dignity and respect. Through prodigious archival

research and lucid analysis, Pimpare details the ways in which charity and aid for the poor have been inseparable, more often than not, from the scorn and disapproval of those who would help them. In the rich and often surprising historical testimonies he has collected from the poor in America, Pimpare overturns any simple conclusions about how the poor see themselves or what it feels like to be poor—and he shows clearly that the poor are all too often aware that charity comes with a price. It is that price that Pimpare eloquently questions in this book, reminding us through powerful anecdotes, some heart-wrenching and some surprisingly humorous, that poverty is not simply a moral failure.

A People's History of the American Revolution-Ray Raphael 2011-05-24 "The best single-volume history of the Revolution I have read." —Howard Zinn Upon its initial publication, Ray Raphael's magisterial A People's History of the American Revolution was hailed by NPR's Fresh Air as "relentlessly aggressive and unsentimental." With impeccable skill, Raphael presented a wide array of fascinating scholarship within a single volume, employing a bottom-up approach that has served as a revelation. A People's History of the American Revolution draws upon diaries, personal letters, and other Revolutionary-era treasures, weaving a thrilling "you are there" narrative—"a tapestry that uses individual experiences to illustrate the larger stories". Raphael shifts the focus away from George Washington and Thomas Jefferson to the slaves they owned, the Indians they displaced, and the men and boys who did the fighting (Los Angeles Times Book Review). This "remarkable perspective on a familiar part of American history" helps us appreciate more fully the incredible diversity of the American Revolution (Kirkus Reviews). "Through letters, diaries, and other accounts, Raphael shows these individuals—white women and men of the farming and laboring classes, free and enslaved African Americans, Native Americans, loyalists, and religious pacifists—acting for or against the Revolution and enduring a war that compounded the difficulties of everyday life." —Library Journal "A tour de force . . . Ray Raphael has probably altered the way in which future historians will see events." —The Sunday Times

An Indigenous Peoples' History of the United States for Young People-Roxanne Dunbar-Ortiz 2019-07-23 2020 American Indian Youth Literature Young Adult Honor Book 2020 Notable Social Studies Trade Books for Young People, selected by National Council for the Social Studies (NCSS) and the Children's Book Council 2019 Best-Of Lists: Best YA Nonfiction of 2019 (Kirkus Reviews) · Best Nonfiction of 2019 (School Library Journal) · Best Books for Teens (New York Public Library) · Best Informational Books for Older Readers (Chicago Public Library) Spanning more than 400 years, this classic bottom-up history examines the legacy of Indigenous peoples' resistance, resilience, and steadfast fight against imperialism. Going beyond the story of America as a country "discovered" by a few brave men in the "New World," Indigenous human rights advocate Roxanne Dunbar-Ortiz reveals the roles that settler colonialism and policies of American Indian genocide played in forming our national identity. The original academic text is fully adapted by renowned curriculum experts Debbie Reese and Jean Mendoza, for middle-grade and young adult readers to include discussion topics, archival images, original maps, recommendations for further reading, and other materials to encourage students, teachers, and general readers to think critically about their own place in history.

The Other Civil War-Howard Zinn 2011-03-15 The Other Civil War offers historian and activist Howard Zinn's view of the social and civil background of the American Civil War—a view that is rarely provided in standard historical texts. Drawn from his New York Times bestseller A People's History of the United States, this set of essays recounts the history of American labor, free and not free, in the years leading up to and during the Civil War. He offers an alternative yet necessary account of that terrible nation-defining epoch.

Voices of a People's History of the United States-Howard Zinn 2004 Letter, poems, speeches, and essays are collected in this book that tells the story of the United States from the perspective of people left out of history books, such as women, workers, Native Americans, and Latinos.

A People's History for the Classroom-Bill Bigelow 2008-01-01 Presents a collection of lessons and activities for teaching American history for students in middle school and high school.

A People's History of the Civil War-David Williams 2011-05-10 "Does for the Civil War period what Howard Zinn's A People's History of the United States did for the study of American history in general." —Library Journal Historian David Williams has written the first account of the American Civil War as viewed through the eyes of ordinary people—foot soldiers, slaves, women, prisoners of war, draft resisters, Native Americans, and others. Richly illustrated with little-known anecdotes and firsthand testimony, this path-breaking narrative moves beyond presidents and generals to tell a new and powerful story about America's most destructive conflict. A People's History of the Civil War is a "readable social history" that "sheds fascinating light" on this crucial period. In so doing, it recovers the long-overlooked perspectives and forgotten voices of one of the defining chapters of American history (Publishers Weekly). "Meticulously researched and persuasively argued." —The Atlanta Journal-Constitution

What's My Name, Fool?-Dave Zirin 2011-02-14 In Whats My Name, Fool? sports writer Dave Zirin shows how sports express the worst - and at times the most creative, exciting, and political - features of our society. Zirin's sharp and insightful commentary on the personalities, politics, and history of American sports is unlike any sports writing being done today. Zirin explores how NBA brawls highlight tensions beyond the arena, how the bold stances taken by sports unions can chart a path for the entire labor movement, and the unexplored political stirrings of a new generation of athletes who are no longer content to just "play one game at a time." Whats My Name, Fool? draws on original interviews with former heavyweight champ George Foreman, Olympic athlete John Carlos, NBA player and anti-death penalty activist Etan Thomas, antiwar womens college hoopster Toni Smith, Olympic Project for Human Rights leader Lee Evans and many others. It also unearths a history of athletes ranging from Jackie Robinson to Muhammad Ali to Billie Jean King, who charted a new course through their athletic ability and their outspoken views.

Vietnam-Howard Zinn 2012-11-01 Zinn's compelling case against the Vietnam War, now with a new introduction. Of the many books that challenged the Vietnam War, Howard Zinn's stands out as one of the best--and most influential. It helped spark national debate on the war. It includes a powerful speech written by Zinn that President Johnson should have given to lay out the case for ending the war.

Part of Our Lives-Wayne A. Wiegand 2015-10-12 "Part of Our Lives challenges the conventional idea that public libraries are valuable mostly because they are essential to democracy. Instead, this book uses the voices of generations of public library users to argue that Americans have loved their libraries for the useful information they make accessible; the public spaces they provide; and the commonplace reading materials they supply that help users make sense of the world around them."--

A People's History of Sports in the United States-Dave Zirin 2008-09-09 In this long-awaited book from the rising superstar of sportswriting, whose blog "The Edge of Sports" is read each week by thousands of people across the country, Dave Zirin offers a riotously entertaining chronicle of larger-than-life sporting characters and dramatic contests and what amounts to an alternative history of the United States as seen through the games its people played. Through Zirin's eyes, sports are never mere games, but a reflection of—and spur toward—the political conflicts that shape American society. Half a century before Jackie Robinson was born, the black ballplayer Moses Fleetwood Walker brandished a revolver to keep racist fans at bay, then took his regular place in the lineup. In the midst of the Depression, when almost no black athletes were allowed on the U.S. Olympic team, athletes held a Counter Olympics where a third of the participants were African American. A People's History of Sports in the United States is replete with surprises for seasoned sports fans, while anyone interested in history will be amazed by the connections Zirin draws between politics and pop flies. As Jeff Chang, author of Can't Stop Won't Stop, puts it, "After you read him, you'll never see sports the same way again."

Debunking Howard Zinn-Mary Grabar 2019-08-20 Howard Zinn's A People's History of the United States has sold more than 2.5 million copies. It is pushed by Hollywood celebrities, defended by university professors who know better, and assigned in high school and college classrooms to teach students that American history is nothing more than a litany of oppression, slavery, and exploitation. Zinn's history is popular, but it is also massively wrong. Scholar Mary Grabar exposes just how wrong in her stunning new book Debunking Howard Zinn, which demolishes Zinn's Marxist talking points that now dominate American education. In Debunking Howard Zinn, you'll learn, contra Zinn: How Columbus was not a genocidal maniac, and was, in fact, a defender of Indians Why the American Indians were not feminist-communist sexual revolutionaries ahead of their time How the United States was founded to protect liberty, not white males' ill-gotten wealth Why Americans of the "Greatest Generation" were not the equivalent of Nazi war criminals How the Viet Cong were not well-meaning community leaders advocating for local self-rule Why the Black Panthers were not civil rights leaders Grabar also reveals Zinn's bag of dishonest rhetorical tricks: his slavish reliance on partisan history, explicit rejection of historical balance, and selective quotation of sources to make them say the exact opposite of what their authors intended. If

you care about America's past—and our future—you need this book.

An African American and Latinx History of the United States-Paul Ortiz 2018 "Spanning more than two hundred years, An African American and Latinx History of the United States is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations such as "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers--Chicana/os, Afrocubanos, and immigrants from every continent on earth--united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought against Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. And in stark contrast to the resurgence of "America first" rhetoric, Black and Latinx intellectuals and organizers today have urged the United States to build bridges of solidarity with the nations of the America. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americas, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights."--Dust jacket.

The Immigrants-Howard Fast 2010-03-01 The first book in bestselling author Howard Fast's beloved family saga "A most wonderful book...there hasn't been a novel in years that can do a job on readers' emotions that the last fifty pages of The Immigrants does." -Los Angeles Times In this sweeping journey of love and fortune, master storyteller Howard Fast recounts the rise and fall of a family of roughneck immigrants determined to make their way in America at the turn of the century. Quick to ascend from the tragic depths of the 1906 San Francisco earthquake, Dan Lavette becomes the head of a powerful shipping empire and establishes himself among the city's cultural elite. But when he finds himself caught in a loveless marriage to the daughter of San Francisco's richest family, a scandalous love affair threatens to destroy the empire Dan has built for himself. The first of a compelling family saga, The Immigrants is a fast-paced, emotional novel that captures the wide range of relationships among immigrant families during the tumultuous events that defined the early twentieth century in America. "A non-stop page-turner...moving, vivid...a splendid achievement!" -Erica Jong "Howard Fast is fiercely American. He is one of ours, one of our very best!" -Los Angeles Times "Warmth...Power...Tenderness...Excitement...Readers will find themselves anxiously awaiting the sequel." -Columbus Dispatch

A People's History of Detroit-Mark Jay 2020-04-17 Recent bouts of gentrification and investment in Detroit have led some to call it the greatest turnaround story in American history. Meanwhile, activists point to the city's cuts to public services, water shutoffs, mass foreclosures, and violent police raids. In A People's History of Detroit, Mark Jay and Philip Conklin use a class framework to tell a sweeping story of Detroit from 1913 to the present, embedding Motown's history in a global economic context. Attending to the struggle between corporate elites and radical working-class organizations, Jay and Conklin outline the complex sociopolitical dynamics underlying major events in Detroit's past, from the rise of Fordism and the formation of labor unions, to deindustrialization and the city's recent bankruptcy. They demonstrate that Detroit's history is not a tale of two cities—one of wealth and development and another racked by poverty and racial violence; rather it is the story of a single Detroit that operates according to capitalism's mandates.

A Patriot's History of the United States-Larry Schweikart 2004-12-29 For the past three decades, many history professors have allowed their biases to distort the way America's past is taught. These intellectuals have searched for instances of racism, sexism, and bigotry in our history while downplaying the greatness of America's patriots and the achievements of "dead white men." As a result, more emphasis is placed on Harriet Tubman than on George Washington; more about the internment of Japanese Americans during World War II than about D-Day or Iwo Jima; more on the dangers we faced from Joseph McCarthy than those we faced from Josef Stalin. A Patriot's History of the United States corrects those doctrinaire biases. In this groundbreaking book, America's discovery, founding, and development are reexamined with an appreciation for the elements of public virtue, personal liberty, and private property that make this nation uniquely successful. This book offers a long-overdue acknowledgment of America's true and proud history.

A People's History of the Vietnam War-Jonathan Neale 2001 Presents an overview of the Vietnam War from the perspective of those on both sides of the battlefield, as well as those in the United States.

A People's History of Environmentalism in the United States-Chad Montrie 2011-10-06 A fresh look at the history of environmentalism in the United States, challenging current thinking and presenting an innovative perspective. Land of Hope-Wilfred M. McClay 2021-01-26 For too long we've lacked a compact, inexpensive, authoritative, and compulsively readable book that offers American readers a clear, informative, and inspiring narrative account of their country. Such a fresh retelling of the American story is especially needed today, to shape and deepen young Americans' sense of the land they inhabit, help them to understand its roots and share in its memories, all the while equipping them for the privileges and responsibilities of citizenship in American society The existing texts simply fail to tell that story with energy and conviction. Too often they reflect a fragmented outlook that fails to convey to American readers the grand trajectory of their own history. This state of affairs cannot continue for long without producing serious consequences. A great nation needs and deserves a great and coherent narrative, as an expression of its own self-understanding and its aspirations; and it needs to be able to convey that narrative to its young effectively. Of course, it goes without saying that such a narrative cannot be a fairy tale of the past. It will not be convincing if it is not truthful. But as Land of Hope brilliantly shows, there is no contradiction between a truthful account of the American past and an inspiring one. Readers of Land of Hope will find both in its pages.

The Twentieth Century, a People's History-Howard Zinn 1984

Truth Has a Power of Its Own-Howard Zinn 2019-09-03 Never before published, an extraordinarily inspiring and radical conversation between Howard Zinn and PBS/NPR journalist Ray Suarez, wherein American history is turned upside down—published to coincide with the tenth anniversary of Zinn's death Truth Has a Power of Its Own is an engrossing collection of never-before-published conversations with Howard Zinn, conducted by the distinguished broadcast journalist Ray Suarez in 2007, that covers the course of American history from Columbus to the War on Terror from the perspective of ordinary people—including slaves, workers, immigrants, women, and Native Americans. Viewed through the lens of Zinn's own life as a soldier, historian, and activist and using his paradigm-shifting People's History of the United States as a point of departure, these conversations explore the American Revolution, the Civil War, the labor battles of the nineteenth and twentieth centuries, U.S. imperialism from the Indian Wars to the War on Terrorism, World Wars I and II, the Cold War, and the fight for equality and immigrant rights, all from an unapologetically radical standpoint. Longtime admirers and a new generation of readers alike will be fascinated to learn about Zinn's thought processes, rationale, motivations, and approach to his now-iconic historical work. Suarez's probing questions and Zinn's humane (and often humorous) voice—along with his keen moral vision—shine through every one of these lively and thought-provoking conversations, showing that Zinn's work is as relevant as ever.

Why Learn History (When It's Already on Your Phone)-Sam Wineburg 2018-09-17 Let's start with two truths about our era that are so inescapable as to have become clichés: We are surrounded by more readily available information than ever before. And a huge percentage of it is inaccurate. Some of the bad info is well-meaning but ignorant. Some of it is deliberately deceptive. All of it is pernicious. With the internet always at our fingertips, what's a teacher of history to do? Sam Wineburg has answers, beginning with this: We definitely can't stick to the same old read-the-chapter-answer-the-questions-at-the-back snoozefest we've subjected students to for decades. If we want to educate citizens who can sift through the mass of information around them and separate fact from fake, we have to explicitly work to give them the necessary critical thinking tools. Historical thinking, Wineburg shows us in Why Learn History (When It's Already on Your Phone), has nothing to do with test prep-style ability to memorize facts. Instead, it's an orientation to the world that we can cultivate, one that encourages reasoned skepticism, discourages haste, and counters our tendency to confirm our biases. Wineburg draws on surprising discoveries from an array of research and experiments—including surveys of students, recent attempts to update history curricula, and analyses of how historians, students, and even fact checkers approach online sources—to paint a picture of a dangerously mine-filled landscape, but one that, with care, attention, and awareness, we can all learn to navigate. It's easy to look around at the public consequences of historical ignorance and despair. Wineburg is here to tell us it doesn't have to be that way. The future of the past may rest on our screens. But its fate rests in our hands.

A People's Future of the United States-Charlie Jane Anders 2019-02-05 A glittering landscape of twenty-five speculative stories that challenge oppression and envision new futures for America—from N. K. Jemisin, Charles Yu, Jamie Ford, G. Willow Wilson, Charlie Jane Anders, Hugh Howey, and more. In these tumultuous times, in our deeply divided country, many people are angry, frightened, and hurting. Knowing that imagining a brighter tomorrow has always been an act of resistance, editors Victor LaValle and John Joseph Adams invited an extraordinarily talented group of writers to share stories that explore new forms of freedom, love, and justice. They asked for narratives that would challenge oppressive American myths, release us from the chokehold of our history, and give us new futures to believe in. They also asked that the stories be badass. The result is this spectacular collection of twenty-five tales that blend the dark and the light, the dystopian and the utopian. These

tales are vivid with struggle and hardship—whether it's the othered and the terrorized, or dragonriders and covert commandos—but these characters don't flee, they fight. Thrilling, inspiring, and a sheer joy to read, *A People's Future of the United States* is a gift for anyone who believes in our power to dream a just world.

Studs Terkel's Working-Harvey Pekar 2009 Transforms sixteen short oral histories originally published in "Working" into graphic novel vignettes, including stories from a stock broker, a labor organizer, a proofreader, a gravedigger, a mail carrier, and a jazz musician.

You Can't Be Neutral on a Moving Train-Howard Zinn 2018-09-18 If you're both overcome and angered by the atrocities of our time, this will inspire a "new generation of activists and ordinary people who search for hope in the darkness" (Keeanga-Yamahtta Taylor). Is change possible? Where will it come from? Can we actually make a difference? How do we remain hopeful? Howard Zinn—activist, historian, and author of *A People's History of the United States*—was a participant in and chronicler of some of the landmark struggles for racial and economic justice in US history. In his memoir, *You Can't Be Neutral on a Moving Train*, Zinn reflects on more than thirty years of fighting for social change, from his teenage years as a laborer in Brooklyn to teaching at Spelman College, where he emerged in the civil rights movement as a powerful voice for justice. A former bombardier in World War II, he later became an outspoken antiwar activist, spirited protestor, and champion of civil disobedience. Throughout his life, Zinn was unwavering in his belief that "small acts, when multiplied by millions of people, can transform the world." With a foreword from activist and scholar Keeanga-Yamahtta Taylor, this revised edition will inspire a new generation of readers to believe that change is possible.

A People's History of the Supreme Court-Peter Irons 2006-07-25 A comprehensive history of the people and cases that have changed history, this is the definitive account of the nation's highest court. Recent changes in the Supreme Court have placed the venerable institution at the forefront of current affairs, making this comprehensive and engaging work as timely as ever. In the tradition of Howard Zinn's classic *A People's History of the United States*, Peter Irons chronicles the decisions that have influenced virtually every aspect of our society, from the debates over judicial power to controversial rulings in the past regarding slavery, racial segregation, and abortion, as well as more current cases about school prayer, the Bush/Gore election results, and "enemy combatants." To understand key issues facing the supreme court and the current battle for the court's ideological makeup, there is no better guide than Peter Irons. This revised and updated edition includes a foreword by Howard Zinn. "A sophisticated narrative history of the Supreme Court . . . [Irons] breathes abundant life into old documents and reminds readers that today's fiercest arguments about rights are the continuation of the endless American conversation." -*Publisher's Weekly* (starred review)

A People's Art History of the United States-Nicolas Lampert 2013-11-05 Most people outside of the art world view art as something that is foreign to their experiences and everyday lives. *A People's Art History of the United States* places art history squarely in the rough-and-tumble of politics, social struggles, and the fight for justice from the colonial era through the present day. Author and radical artist Nicolas Lampert combines historical sweep with detailed examinations of individual artists and works in a politically charged narrative that spans the conquest of the Americas, the American Revolution, slavery and abolition, western expansion, the suffragette movement and feminism, civil rights movements, environmental movements, LGBT movements, antiglobalization movements, contemporary antiwar movements, and beyond. *A People's Art History of the United States* introduces us to key works of American radical art alongside dramatic retellings of the histories that inspired them. Stylishly illustrated with over two hundred images, this book is nothing less than an alternative education for anyone interested in the powerful role that art plays in our society.

These Truths: A History of the United States-Jill Lepore 2018-09-18 *New York Times* Bestseller In the most ambitious one-volume American history in decades, award-winning historian and *New Yorker* writer Jill Lepore

offers a magisterial account of the origins and rise of a divided nation, an urgently needed reckoning with the beauty and tragedy of American history. Written in elegiac prose, Lepore's groundbreaking investigation places truth itself—a devotion to facts, proof, and evidence—at the center of the nation's history. The American experiment rests on three ideas—"these truths," Jefferson called them—political equality, natural rights, and the sovereignty of the people. And it rests, too, on a fearless dedication to inquiry, Lepore argues, because self-government depends on it. But has the nation, and democracy itself, delivered on that promise? *These Truths* tells this uniquely American story, beginning in 1492, asking whether the course of events over more than five centuries has proven the nation's truths, or belied them. To answer that question, Lepore traces the intertwined histories of American politics, law, journalism, and technology, from the colonial town meeting to the nineteenth-century party machine, from talk radio to twenty-first-century Internet polls, from Magna Carta to the Patriot Act, from the printing press to Facebook News. Along the way, Lepore's sovereign chronicle is filled with arresting sketches of both well-known and lesser-known Americans, from a parade of presidents and a rogues' gallery of political mischief makers to the intrepid leaders of protest movements, including Frederick Douglass, the famed abolitionist orator; William Jennings Bryan, the three-time presidential candidate and ultimately tragic populist; Pauli Murray, the visionary civil rights strategist; and Phyllis Schlafly, the uncredited architect of modern conservatism. Americans are descended from slaves and slave owners, from conquerors and the conquered, from immigrants and from people who have fought to end immigration. "A nation born in contradiction will fight forever over the meaning of its history," Lepore writes, but engaging in that struggle by studying the past is part of the work of citizenship. "The past is an inheritance, a gift and a burden," *These Truths* observes. "It can't be shirked. There's nothing for it but to get to know it."

Lies My Teacher Told Me-James W. Loewen 2018-07-17 "Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself." —Howard Zinn A new edition of the national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be "objective." What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls "an extremely convincing plea for truth in education." In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

A People's History of World War II-Marc Favreau 2011-09-20 The most destructive war in human history, World War II continues to generate an astonishingly rich trove of historical material, writings, and first-person recollections, which are essential to any appreciation of this most pivotal of historical events. *A People's History of World War II* brings the full range of human experience during World War II to life through some of the most vivid accounts and images available anywhere.
