For career-driven assistant district attorney Nina Frost, the question inspires pangs of guilt familiar to all parents torn by the demands of home and office. But whereas most

parents lie awake at night vividly conjuring the worst scenarios that could befall their children in their absence, Nina lives the reality of such crises -- and it's her job to do something about them. Nina Frost prosecutes child molesters -- and in the course of her everyday work, she has endured the frustration of seeing too many criminals slip through the system and walk free. A man as methodical and careful as his wife is instinctive and mercurial, Caleb Frost is a stonemason who glories in his ability to construct with his own hands the physical barriers that will keep out the unwanted -- and protect all that is precious within. But even the strongest walls cannot guard Nina and Caleb from the shattering discovery that their own beloved son has been sexually abused. Five-year-old Nathaniel is the only one who knows the identity of his assailant -- but in the initial fallout of his trauma, he's been left mute, unable to speak a single word. Knowing the futility of trusting the courts to exact justice for Nathaniel, and ripped apart by a maddening

sense of helplessness, Nina finds herself in a grip of rage she can't deny -- no matter the consequence, whatever the sacrifice. What does it take to be a good mother? How far can a person go...and still live with herself? What happens if one's absolute truths and convictions are turned upside down? Forging new ground in her unique territory of morally complex suspense fiction, bestselling author Jodi Picoult delivers her most soulful and intimate novel to date -- and portrays what happens to a family when a wheel comes off, when the domestic unit begins to careen and veer, when the vestments of ordinary life are forfeited to unspeakable horrors. From its provocative opening to the astonishing and revelatory finale, *Perfect Match* enters the raw and private realm of a parent's heart, and ultimately questions our assumptions about family, security, and love.

Fever Pitch-Nick Hornby 2005-05-05 *WINNER OF THE WILLIAM HILL SPORTS BOOK OF THE YEAR* Fever Pitch is Nick Hornby's million-copy-selling, award-winning football classic 'A spanking

7-0 away win of a football book. . . inventive, honest, funny, heroic, charming'

Independent For many people watching football is mere entertainment, to some it's more like a ritual; but to others, its highs and lows provide a narrative to life itself. But, for Nick Hornby, his devotion to the game has provided one of few constants in a life where the meaningful things - like growing up, leaving home and forming relationships, both parental and romantic - have rarely been as simple or as uncomplicated as his love for Arsenal. 'Hornby has put his finger on truths that have

been unspoken for generations' Irish Times Brimming with wit and honesty, Fever Pitch, catches perfectly what it really means to be a football fan - and in doing so, what it means to be a man. It sits side by side with the very finest football classics of the last twenty five years, from The Damned United by David Peace to A Life Too Short by Ronald Reng, but it is ultimately a book that defies

categorization and can be enjoyed by all. 'Funny, wise and true' Roddy Doyle Corpora and Cross-linguistic Research-Stig Johansson 1998

In recent years there has been increasing interest in the development and use of bilingual and multilingual corpora. As Karin Aijmer writes in this book, 'The contrastive or comparative perspective ... makes it possible to dig deeper and to ask new questions about the relationship between languages with the aim of sharpening our conceptions of cross-linguistic correspondences and adding to our knowledge of the languages compared.' The papers in this volume are a

showcase of the great variety of purposes to which bilingual and multilingual corpora can be put. They do not only lend themselves to descriptive and applied approaches, but are also suitable for theory-oriented studies. The range of linguistic phenomena covered by the various approaches is very wide; the papers focus on fields of research like syntax, discourse, semantics, information structure, lexis, and translation studies. The range of languages studied comprises English, Norwegian, Swedish, German, Dutch, and Portuguese. In addition to purely linguistic papers, there are contributions on computer programs developed for the compilation and use of bilingual and multilingual corpora.
