Premonitions of the Titanic Disaster-Terry Keefe 2021-03-28 Passengers cancelling their tickets for Titanic's maiden voyage out of apprehension; a famous social reformer who died on Titanic, warned in 1911 that he would be in danger from water in April 1912; inhabitants of the remote islands of Fiji aware of the sinking before reports of the collision reached the Pacific; a dying girl who, on 14 April 1912, 'sees' a big ship sinking in the water and mysteriously knows the name of the violinist in Titanic's orchestra. These are just a few of the numerous claims to psychic foreknowledge of the ship's sinking. Within days of the widely-publicised disaster of 1912, stories began circulating of extraordinary omens and individuals who supposedly had supernatural premonitions of the disaster. Furthermore, four fictional works - one dating as far back as twenty-six years - came to be seen as anticipating the disaster. Between 1960 and 2006, five major commentators published extended analyses of the alleged premonitions, none of which is now easily accessible to an English readership. This book examines them all in detail. The whole treatment of the matter opens up fascinating questions concerning the paranormal, but also raises and leaves unresolved crucial issues specific to premonitions and how they can be legitimately examined. Readers are left to make their own judgement on Titanic premonitions.

The Loss of the SS. Titanic-Lawrence Beesley 2012-08-09 Lawrence Beesley was one of the luckiest men on the Titanic. Although the word had been given, "women and children first," he was nevertheless ordered into a lifeboat to make up the numbers. At the end of that fateful night he stepped, dry and physically unharmed, onto the deck of the rescuing ship Carpathia. We are also fortunate in that, as a science teacher, Beesley was an intensely curious man. During the journey he had been paying careful attention to every aspect of shipboard life, from how seagulls were able to keep pace with the liner, to why the vibrations from the great engines were most noticeable when taking a bath. He put these observational skills to good use in his description of the sinking, and of how the passengers, the crew, and later the public reacted, providing us one of the most complete and thoughtful eyewitness accounts of the disaster.

Titanic and Other Ships-Commander Charles Herbert Lightoller 2013-03-13 Lightoller remarkably swam away from the sinking Titanic and avoided being sucked under. This is just one of the incredible escapes described in this book.

Sounds Like Titanic: A Memoir-Jessica Chiccehitto Hindman 2019-02-12 A young woman leaves Appalachia for life as a classical musician—or so she thinks. When aspiring violinist Jessica Chiccehitto Hindman lands a job with a professional ensemble in New York City, she imagines she has achieved her lifelong dream. But the ensemble proves to be a sham. When the group "performs," the microphones are never on. Instead, the music blares from a CD. The mastermind behind this scheme is a peculiar and mysterious figure known as The Composer, who is gaslighting his audiences with music that sounds suspiciously like the Titanic movie soundtrack. On tour with his chaotic ensemble, Hindman spirals into crises of identity and disillusionment as she "plays" for audiences genuinely moved by the performance, unable to differentiate real from fake. Sounds Like Titanic is a surreal, often hilarious coming-of-age story. Hindman writes with precise, candid prose and sharp insight into ambition and gender, especially when it comes to the difficulties young women face in a world that views them as silly, shallow, and stupid. As the story swells to a crescendo, it gives voice to the anxieties and illusions of a generation of women, and reveals the failed promises of a nation that takes comfort in false realities.

Titanic-Filson Young 2012-08-07 This was one of the first books to appear

after the sinking of the Titanic, published just 37 days after the disaster, and despite the haste it is one of the most stylish and well-written of the early works. Its author, Filson Young, was a respected journalist who had already used his columns in the London Saturday Review and the Pall Mall Gazette to call for better safety at sea, and for all ships to have properly-manned radios. Having sailed the Atlantic himself, and knowing several of the passengers on board the doomed liner, his book combines an imaginative telling of the first few days on board, with a vivid account of the sinking based on early survivor interviews. In 1932 the BBC asked Filson to dramatise the book for radio, but a public outcry forced them to reconsider: even after twenty years, his recreation of the sinking was still too powerful for many of their audience.

Variety's Who's who in Show Business-Mike Kaplan 1989

Titanic-Filson Young 2014-02-20 "Time is no more for the fifteen hundred souls who perished with them; but Honour and Glory, by strange ways and unlooked-for events, have come into their own. It was not Time, nor the creatures and things of Time, that received their final crown there; but things that have nothing to do with Time, qualities that, in their power of rising beyond all human limitations, we must needs call divine." "To say that all the men who died on the Titanic were heroes would be as absurd as to say that all who were saved were cowards. There were heroes among both groups and cowards among both groups, as there must be among any large number of men." "In such moments all artificial bonds are useless. It is what men are in themselves that determines their conduct; and discipline and conduct like this are proofs, not of the superiority of one race over another, but that in the core of human nature itself there is an abiding sweetness and soundness that fear cannot embitter nor death corrupt." The story of the sinking of the Titanic based on first hand accounts collected in the days and weeks following the disaster. The story of the Titanic is now well known, but in the months following the disaster wild speculation was rife. On Thursday 22 May 1912, a mere 37 days after the sinking, respected London publisher Grant Richards, delivered Filson Young's book to booksellers around the capital. It was the first attempt to plot the demise of the unsinkable ship from a well-respected writer who had already argued in the light of the Oceana sinking, for proper use of the wireless on board ships. Both Filson and Grant knew victims of the sinking and both worked hard to gather first-hand testimony to use in the book. Much of his telling of the story still stands today and his speculations about the feeling of daily life aboard the doomed ship are used in books and films on the subject.

The Titanic Murders-Max Allan Collins 2012-12-11 When a passenger is found dead inside a locked cabin aboard the opulent Titanic, it's a crime worthy of "the Thinking Machine," the popular fictional investigator who solves mysteries using formidable logic. So who better to crack this real-life case than author Jacques Futrelle, the man behind America's favorite detective? On board for a romantic getaway with his wife, Futrelle agrees to conduct a stealth inquiry. The list of suspects on the Titanic's first-class deck is long and includes the brightest lights from high society, each with no shortage of dark secrets. As the mammoth ship speeds across the Atlantic toward its doom, Futrelle races to uncover which passenger has a secret worth killing for--before the murderer strikes again. Set in the days leading up to the luxury liner's tragic sinking, this historical thriller is a dazzling blend of fact and fiction that will enthrall readers with page-turning revelations and Titanic lore.

Shadow of the Titanic-Andrew Wilson 2012-03-06 IN the early morning hours of April 15, 1912, the icy waters of the North Atlantic reverberated with the desperate screams of more than 1,500 men, women, and children—passengers of the once majestic liner Titanic. Then, as the ship sank to the ocean floor and the passengers slowly died from hypothermia, an even more awful silence settled over the sea. The sights and sounds of that night would haunt each of the vessel's 705 survivors for the rest of their days. Although we think we know the story of Titanic—the famously luxurious and supposedly unsinkable ship that struck an iceberg on its maiden voyage from Britain to America—very little has been written about what happened to the survivors after the tragedy. How did they cope in the aftermath of this horrific event? How did they come to remember that night, a disaster that has been likened to the destruction of a small town? Drawing on a wealth of previously unpublished letters, memoirs, and diaries as well as interviews with survivors' family members, award-winning journalist and author Andrew Wilson reveals how some used their experience to propel themselves on to fame, while others were so racked with guilt they spent the rest of their lives under the Titanic's shadow. Some reputations were destroyed, and some survivors were so psychologically damaged that they took their own lives in the years that followed. Andrew Wilson brings to life the colorful voices of many of those who lived to tell the tale, from famous survivors like Madeleine Astor (who became a bride, a widow, an heiress, and a mother all within a year), Lady Duff Gordon, and White Star Line chairman J. Bruce Ismay, to lesser known second- and third-class passengers such as the Navratil brothers—who were traveling under assumed names because they were being abducted by their father. Today, one hundred years after that fateful voyage, Shadow of the Titanic adds an important new dimension to our understanding of this enduringly fascinating story.

The Titanic Effect-Todd Saxton 2019-03-05 "I have read dozens of books on starting companies, but this is the first that accurately captures why startups fail and provides a tool for entrepreneurs and investors to measure and manage these sources of failure." Michael Hatfield, Co-Founder,

Cerent, Calix, Cienna, and Carium. What makes a startup successful? This book, from award-winning business school professors and a tech serial entrepreneur, tells what makes startups successful. Instead of telling startups what to do, like most startup books, they share what startups should avoid. Along the way, they share small business startup success stories gleaned from the How Built This Podcast and their firsthand experiences. These stories of startup success are contrasted with stories of startup failure from startup graveyards and most notably, the Titanic. Like many of today's startups, the Titanic hoped to disrupt the transportation industry of its time. It fell short, to a disastrous outcome, from the same sources that prevent startup success today. Get a startup game plan! This startup book uses the Titanic and a sailing metaphor to provide a startup roadmap template. It shows what makes startups successfully navigate through challenges in startup investing, founding, and hiring with a game plan to get through the Human Ocean. It offers a startup guide to customer success in working through the Marketing Ocean. It even highlights what startups need to invest in to get through the Technical and Strategy Oceans. Its Iceberg Index gives entrepreneurs, startups, and small businesses a way to track their progress on the startup roadmap template. It also helps investors assess what startups to invest in. Many entrepreneurs assume that the Titanic was sunk by a single iceberg. The Titanic Effect shows, that like many startups, it's not a single misstep but a series of mistakes that keep a startup from being successful. This combination of missteps is called the Titanic Effect. Who can benefit from this startup roadmap? Entrepreneurs in the early stages of building a startup. They will learn what makes a startup

successful. They will develop a to-do list of decisions to make and actions to take. Small business owners will also identify key next steps to building their startup game plan. Investors can identify what to avoid in startup investments and what startups to invest in. Students will learn how to evaluate the success potential of a startup and will read small business and startup success stories. These three co-authors have witnessed firsthand what leads to startup success. They have made it their mission to help entrepreneurs, startup founders and startup investors succeed. Drs. Todd and M. Kim Saxton bring more than two decades of academic and professional experience in business strategy, entrepreneurship, marketing, and angel investing. Serial tech entrepreneur, Michael Cloran, adds his two decades' of experiences in launching his own startups as well as building software products for other startups. In addition, the co-authors serve on various boards of entrepreneurial ventures and startup advisory associations. They have shared their expertise from the stage to dozens of audiences, including students, entrepreneurship and professional development associations, academic societies, and global companies like Roche Diagnostics and Pfizer Pharmaceuticals.

Voyage on the Great Titanic- Ellen Emerson White 2010-11-01 In her diary in 1912, 13-year-old Margaret Ann describes how she leaves her lonely life in a London orphanage to become a companion to a wealthy American woman, sails on the Titanic and experiences its sinking.
