Instead, he finds a murdered man while on a drug raid and loses his heart comforting the man's adopted son. It wasn't like he'd never thought about men -- it's just loving one doesn't fit into his plans. Forest Ackerman certainly doesn't need to be lusting after a straight cop,

Whoever killed his father seems intent on Forest joining him in the afterlife. Affective Health and Masculinities in South Africa
Hans Reihling 2020-04-24
Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than

African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

Karen Trella Mather 1993-01-01 There are all sorts of cats just as there are all sorts of people. There are finicky cats that turn their heads away from anyone or anything that does not suit them. The Acharnians-Aristophanes 1887 1966-Jon Savage 2015-11-17 The pop world accelerated and broke through the sound barrier in 1966. In America, in London, in Amsterdam, in Paris, revolutionary ideas slow-cooking since the late '50s reached boiling point. In the worlds of pop, pop art, fashion and radical politics -- often fueled by perception-enhancing substances and literature -- the 'Sixties', as we have come to know them, hit their Modernist peak. A unique chemistry of ideas, substances, freedom of expression and dialogue across pop cultural continents created a landscape of immense and eventually shattering creativity. After

1966 nothing in the pop world would ever be the same. The 7 inch single outsold the long-player for the final time. It was the year in which the ever lasting and transient pop moment would burst forth in its most articulate, instinctive and radical way. Jon Savage's 1966 is a monument to the year that shaped the pop future of the balance of the century. Exploring canonical artists like The Beatles, The Byrds, Velvet Underground, The Who and The Kinks, 1966 also goes much deeper into the social and cultural heart of the decade through unique archival primary sources. Securing the Future-Sheldon Danziger 2000-06-29 More than ever, the economic health of a country depends upon the skills, knowledge, and capacities of its people. How does a person acquire these human assets and how can we promote their development? Securing the Future assembles an

interdisciplinary team of scholars to investigate the full range of factors—pediatric, psychological, social, and economic—that bear on a child's development into a well-adjusted, economically productive member of society.

A central purpose of the volume is to identify sound interventions that will boost human assets, particularly among the disadvantaged.

The book provides a comprehensive evaluation of current initiatives and offers a wealth of new suggestions for effective public and private investments in child development. While children from affluent, highly educated families have good quality child care and an expensive education provided for them, children from poor families make do with informal child care and a public school system that does not always meet their needs. How might we best redress this growing imbalance? The contributors to this volume recommend policies that treat academic attainment together with psychological development and social adjustment. Mentoring programs, for example, promote better

school performance by first fostering a young person's motivation to learn. Investments made early in life, such as preschool education, are shown to have the greatest impact on later learning for the least cost. In their focus upon children, however, the authors do not neglect the important links between generations. Poverty and inequality harm the development of parents and children alike. Interventions that empower parents to fight for better services and better schools are also of great benefit to their children. Securing the Future shows how investments in child development are both a means to an end and an end in themselves. They benefit the child directly and they also help that child contribute to the well-being of society. This book points us toward more effective strategies for promoting the economic success and the social cohesion of future generations. A Volume in the Ford Foundation Series on Asset Building

organizing notes will expand your concept of guitar harmony. You will be able to organize and use tensions more easily and with greater expression, whether you are soloing, playing in a rhythm section, or in a solo guitar context. Practical etudes over popular chord changes will help you to understand and apply these new theoretical concepts. The accompanying recording includes examples and play-along tracks, featuring innovative guitarists Mick Goodrick and Tim Miller, along with an all-star rhythm section featuring Terri Lyne Carrington on drums and John Lockwood on bass. You will learn to: develop and apply new chord voicings, using a rich palette of notes; isolate and organize the most essential notes of any chord-scale (Generic Modality Compression); view chord scales as five families of 3-note chords: triads, sus4, clusters, 7th no 3, and 7th no 5), to be used systematically and simultaneously; leverage this chord-scale organization to lead you to inventive harmonies; incorporate tensions more intuitively into your comping and lead lines;

and use new arpeggio patterns in linear improvisation.

Exiern-Eric Kimball

2009-03-04 Exiern is a fantasy comic with transgender twists. The hero Typhan-Knee (aka Tiffnay) is a barbarian warrior who is transformed into a woman by an errant wizard's spell. On her travels, Typhan-Knee is accompanied by both the Princess Peonie (who was rescued from the lair of the dark wizard Faden) and the wizard Faden himself. Faden joins the pair on their travels as their prisoner having been stripped of his magic, but too immortal to kill outright. The trio takes a light hearted romp through the fantasy conventions and explores what it means to be to be male or female, or even human, to find if we are defined by our bodies, or simply reside within them. (Warning this book contains mild nudity and harsh language.)

The Bold Heart- 2014-02-08

Ewan was a battle-weary warrior with haunted dreams. He no longer believed in love. As Scotland's greatest warrior and heir to the earldom of Mull, few dared to cross swords with Ewan MacLean. But the price he paid for his fearsome reputation was a heavy one. To survive, he buried his emotions and became only the warrior, riding from battle to battle with his men to protect Scotland from threats within and without her borders and letting himself feel nothing else. But when his right-hand man, Alec Montgomery, is caught dallying with a powerful Lord's daughter, a trap is set. And both Ewan and Alec find themselves in an English prison, their necks headed for the noose. On the Isle of Skye, the raven-haired Merry MacLeod spends her days caring for the clan

elderly and hurtling across the moors on the back of her black stallion. A high-spirited, adventurous lass, she is no longer troubled by childhood memories of the day the braw lad, Ewan MacLean, rescued her from her husband, the cruel MacDonald. But when she hears the very same Ewan is now confined in an English prison, she disguises herself as a lad and sets out to repay her debt. After a bold, mysterious youth rescues Ewan and his men from the English, the group swiftly makes their way back to Scotland. But no sooner embarked on their journey home, a young Prince James sounds the call to arms, rises against his father, King James III of Scotland, and plunges Scotland into a dangerous civil war. But as they journey to join the prince, both Ewan and Alec discover their rescuer's secret and both men find themselves falling unexpectedly in love with a raven-haired beauty. If they demand the soldier to move on, is his mate willing to go with him? ** A Siren Erotic Romance

Beneath a Waning Moon-
Elizabeth Hunter 2015-10-20
Two delightfully dark tales of Gothic romance. In A VERY PROPER MONSTER, Josephine Shaw spends long nights filling the pages of her Gothic stories with the fantastic and the macabre, unaware that the suitor her father has arranged is one of

the dark creatures she's always dreamed. For Tom Dargin, courting an ailing spinster was only one duty in a long life of service to his sire. But after he meets the curious Miss Shaw, will Tom become the seducer or the seduced? Can a love fated to end in tragedy survive a looming grave? In GASLIGHT HADES, Nathaniel Gordon walks two worlds-that of the living and the dead. Barely human, he's earned the reputation of a Bonekeeper, the scourge of grave robbers. He believes his old life over, until one dreary burial he meets the woman he once loved and almost married. Lenore Kenward stands at her father's grave, begging the protection of the mysterious guardian, not knowing he is her lost love. Resolved to keep his distance, Nathaniel is forced to abandon his plan and accompany Lenore on a journey into the mouth of Hell where sea meets sky, and the abominations that exist beyond its barrier wait to destroy them.
