À plume, à poil, à paillettes-Véronique Massenot (romancière.) 2014

The Physiology of Taste-Jean Anthelme Brillat-Savarin 2019-10-16 "Tell me what you eat and I will tell you what you are," declares French author Jean Anthelme Brillat-Savarin in one of the aphorisms that introduces this 1825 masterpiece on the subject of cooking as an art and eating as a pleasure. Humorous, satirical, and convivial, this extended paean to the joys of food and drink has earned an enduring place in the world's literature. Brillat-Savarin found his true passion in gastronomy, asserting that "the discovery of a new dish does more for the happiness of mankind than the discovery of a new star." In his sparkling anecdotal style, he offers witty meditations on the senses, the science of gastronomy, the erotic virtue of truffles, hunting wild turkeys in America, Parisian restaurants, the history of cooking, corpulence, diets, the best ways of making coffee and chocolate, and a hundred other engaging topics. He also shares some of his best recipes, including tunny omelette, pheasant, and Swiss fondue. No cook, chef, gourmet, or lover of fine food should miss this landmark in the gastronomic literature, a timeless work that has charmed and informed two centuries of epicures.

Mesopotamia-Jean Bottéro 1995-06-15 Our ancestors, the Mesopotamians, invented writing and with it a new way of looking at the world. In this collection of essays, the French scholar Jean Bottero attempts to go back to the moment which marks the very beginning of history. To give the reader some sense of how Mesopotamian civilization has been mediated and interpreted in its transmission through time, Bottero begins with an account of Assyriology, the discipline devoted to the ancient culture. This transmission, compounded with countless discoveries, would not have been possible without the surprising decipherment of the cuneiform writing system. Bottero also focuses on divination in the ancient world, contending that certain modes of worship in Mesopotamia, in their application of causality and proof, prefigure the "scientific mind."

Queen of Fashion-Caroline Weber 2007-10-02 In this dazzling new vision of the ever-fascinating queen, a dynamic young historian reveals how Marie Antoinette's bold attempts to reshape royal fashion changed the future of France Marie Antoinette has always stood as an icon of supreme style, but surprisingly none of her biographers have paid sustained attention to her clothes. In Queen of Fashion, Caroline Weber shows how Marie Antoinette developed her reputation for fashionable excess, and explains through lively, illuminating new research the political controversies that her clothing provoked. Weber surveys Marie Antoinette's "Revolution in Dress," covering each phase of the queen's tumultuous life, beginning with the young girl, struggling to survive Versailles's rigid traditions of royal glamour (twelve-foot-wide hoopskirts, whalebone corsets that crushed her organs). As queen, Marie Antoinette used stunning, often extreme costumes to project an image of power and wage war against her enemies. Gradually, however, she began to lose her hold on the French when she started to adopt "unqueenly" outfits (the provocative chemise) that, surprisingly, would be adopted by the revolutionaries who executed her. Weber's queen is sublime, human, and surprising: a sometimes courageous monarch unwilling to allow others to determine her destiny. The paradox of her tragic story, according to Weber, is that fashion—the vehicle she used to secure her triumphs—was also the means of her undoing. Weber's book is not only a stylish and original addition to Marie Antoinette scholarship, but also a moving, revelatory reinterpretation of one of history's most controversial figures.

The Longest Year-Daniel Grenier 2017-03-25 There’s something extraordinary about Thomas Langlois. Thomas is a young boy growing up in Chattanooga, Tennessee, with a French-Canadian father, Albert, and an American mother, Laura. But beyond the fact that he lives between two cultures and languages, there’s something else about Thomas that sets him apart: he was born on February 29. Before Albert goes on a strange quest to find out more about their mysterious relative, Aimé Bolduc, he explains to Thomas that he will only age one year out of every four and he will outlive all of his loved ones. Thomas’s loneliness grows and the years pass until a terrible accident involving a young girl sets in motion a series of events that link the young girl and Thomas to Aimé Bolduc — a Civil War–era soldier and perhaps their contemporary. Spanning three centuries and set against the backdrop of the Appalachians, from Quebec to Tennessee, The Longest Year is a magical and poignant story about family history, fateful dates, fragile destinies, and lives brutally ended and mysteriously extended.

The Beribboned Bomb-Robert James Belton 1995 Surrealism was ostensibly directed at the emancipation of the human spirit, but it represented only male aspirations and fantasies until a number of women artists began to redefine its agenda in the later 1930s.The Beribboned Bomb: The Image of Woman in Male Surrealist Art addresses the former, using a "thick description" of the historically specific circumstances which required the male Surrealists to manufacture a sexual reputation of narcissism and misogyny. These circumstances were determined by "hegemonic masculinity," an ideological construct which had little to do with individual masculinities. In male Surrealism, the "beribboned bomb" signified something both attractive and volatile, a specific instance of the Surrealist principle of convulsive beauty. In hegemonic masculinity, similar devices served as metaphors of the sexuality all men were supposed to possess. The intersection of these two axes produced an imagery of unrepentant violence.

Why Everyone (Else) Is a Hypocrite-Robert Kurzban 2012-05-27 We're all hypocrites. Why? Hypocrisy is the natural state of the human mind. Robert Kurzban shows us that the key to understanding our behavioral inconsistencies lies in understanding the mind's design. The human mind consists of many specialized units designed by the process of evolution by natural selection. While these modules sometimes work together seamlessly, they don't always, resulting in impossibly contradictory beliefs, vacillations between patience and impulsiveness, violations of our supposed moral principles, and overinflated views of ourselves. This modular, evolutionary psychological view of the mind undermines deeply held intuitions about ourselves, as well as a range of scientific theories that require a "self" with consistent beliefs and preferences. Modularity suggests that there is no "I." Instead, each of us is a contentious "we"--a collection of discrete but interacting systems whose constant conflicts shape our interactions with one another and our experience of the world. In clear language, full of wit and rich in examples, Kurzban explains the roots and implications of our inconsistent minds, and why it is perfectly natural to believe that everyone else is a hypocrite.

The Fifteen Joys of Marriage-Brent A. Pitts 1985 The Fifteen Joys of Marriage is a new translation of the .XV. Joies de Mariage, the ironic, enigmatic, and ostensibly misogynistic tract written ca. 1400. Like many Old French fabliaux, the Fifteen Joys takes for its subject the reversals, the woes, and the deceptions of the married state. By contrast with the fableors, however, the anonymous author of the Fifteen Joys arranges his domestic scenes in series, thus parodying a well known devotional work while incanting his litany of despair. The present work revives in medieval context a classic long out of print in English translation. For the text the translator adopts the burgeoning, colloquial manner of the original French, providing commentary in his Notes. The Introduction discusses the structure and principal themes of the Joys while surveying recent studies of the text. The Bibliography marks a starting point for further study.

A Sentimental Novel-Alain Robbe-Grillet 2014-04-01 In France, Alain Robbe-Grillet's final novel was sold in shrink-wrap, labeled with a sticker warning readers that this perverse fairy tale might offend certain sensibilities. It tells the story of Gigi, also known as Djinn, who is being schooled by her father to be a perfect slave and mistress. Running the gamut of unacceptable subject matter from incest to torture, this book abounds with vignettes that explore taboos and their representation in fiction, from the Brothers Grimm to the Marquis de Sade. It is titillating and disgusting, the work of a dirty old man or brilliant agent provocateur -- or both.
