Parables and Fables-V. Y. Mudimbe 1991 This book confronts the philosophical problems of otherness and identity through readings of the parables and fables of a colonized people, the Luba of Zaire. V.Y. Mudimbe poses two overarching questions: how can one think about and comment upon alterity without essentializing its features? Is it possible to speak and write about an African tradition or its contemporary practice without taking into account the authority of the colonial library that has invented African identities? Mudimbe brings unusual insight to such a discussion: Here I am on the margin of margins: Black, African, Catholic, yet agnostic; intellectually Marxist, disposed toward psychoanalysis, yet a specialist in Indo-European philology and philosophy. He uses his own education by Catholic missionaries in Zaire as a framework for exploring interactions between African and Western systems of thought.

The Execution Channel-Michael McCord

2013-07-13 "With colorful characters so ludicrous they could only be real, McCord's satire of profit, politics, and capital punishment should be required reading." -- Clarion Review
What will readers encounter when exploring the wicked and witty satirical universe of Michael McCord's *The Execution Channel: A Political Fable*? First, they will travel to the not-so-distant future and discover the emerging new country of Real America and the Galtian Imperatives, a faith-based economic religion which promises that extreme austerity and tax cut policies will ensure "prosperity for all" though the exact details of the magic remain elusive. Next, readers will see that John Galt, the fictional hero of Ayn Rand's *Atlas*

Shrugged, has become the founding father icon of Real America and the Real American Party, the new political force sweeping the land. Local militias do their patriotic duty and lead the privatization craze throughout Real America while employing a creative protection racket plan to fit every business budget. Finally, readers will behold the majesty of The Execution Channel - a televintet network that promotes a focus-group tested variety of live executions in football stadium settings. As foretold by the Galtian Imperatives, The Execution Channel has been hailed as a model of modern economic policy that seamlessly merges massive private sector profits and public sector bankruptcy. Set in 2018 in an increasingly non-United States of America, *The Execution Channel: A Political Fable* is fantastical in its imaginative scope of American political rhetoric and public policy run amok. McCord, an award-winning journalist and writer who lives in New Hampshire, offers fictional reportage with a provocative twist and more than a few punch lines. "The initial spark for this satirical romp came from a 2011 Republican presidential primary debate when some of the audience cheered at the notion that if people without health insurance died, there was nothing anyone could do," McCord said. "I then made the leap to a perfectly sensible investment scheme of publicly televised executions in which guilt or innocence matter less than profit margins. From there, the theme menu grew to include the cult of Ayn Rand, political ambition, incoherence as a political virtue, greed redefined, secession, free market economics with no restraint, the primacy of sperm, backyard rocket launchers, psychic readings, reality TV mortgage foreclosures and monuments to austerity. The book aspires, as Lewis Carroll's *White Queen* so eloquently put it, to believe six impossible things at once, if not

before breakfast then certainly by supper." Readers also will encounter an intriguing, colorful cast of characters that embrace a higher calling of extreme self-interest: * Gov. Lawrence C. "Demon Seed" Bowie of the Real American Republic of Texas is in a political fix because his 'War on the Poor' tax plan isn't working. * Texas militia leader Col. Rufus T. Fairbush wants to replace Bowie by the bullet or ballot while running on a platform to eliminate the idea of government. * Conservative televetnet producer Jason Bravtart seeks redemption following the scandalous cancellation of *The Real Homeless of Malibu Beach*. * Billionaire speculator James "Big Stake" Frimmer II wants another big financial score to spread his political influence. * In the SoCal Liberty Territory of California, Penelope the Psychic is forced to be a confidential informant for Mr. Jones, the most feared security operator in Real America. *The Execution Channel: A Political Fable* is a subversive satire for our times and will leave readers wondering: Just how REAL is Real America? The Culture of Yellow-Sabine Doran 2013-09-26 This is the first book to explore the cultural significance of the color yellow, showing how its psychological and aesthetic value marked and shaped many of the intellectual, political, and artistic currents of late modernity. It contends that yellow functions during this period primarily as a color of stigma and scandal. Yellow stigmatization has had a long history: it goes back to the Middle Ages when Jews and prostitutes were forced to wear yellow signs to emphasize their marginal status. Although scholars have commented on these associations in particular contexts, Sabine Doran offers the first overarching account of how yellow connects disparate cultural phenomena, such as turn-of-the-century decadence (the "yellow nineties"), the rise of mass media ("yellow journalism"), mass immigration from Asia ("the yellow peril"), and mass stigmatization (the yellow star that Jews were forced to wear in Nazi Germany). *The Culture of Yellow* combines cultural history with innovative readings of literary texts and visual artworks, providing a multilayered account of the unique role played by the color yellow in late nineteenth- and twentieth-century American and European culture.
