Secular Magic and the Moving Image-Max Sexton
2017-12-14 The power of the moving image to conjure marvelous worlds has usually been to understand it in terms of 'move magic'. On film, a fascination for enchantment and wonder has transmuted older beliefs in the supernatural into secular attractions. But this study is not about the history of special effects or a history of magic. Rather, it attempts to determine the influence and status of secular magic on television within complex modes of delivery before discovering interstices with film. Historically, the overriding concern on television has been for secular magic that informs and empowers rather than a fairytale effect that deceives and mystifies. Yet, shifting notions of the real and the uncertainty associated with the contemporary world has

led to television developing many different modes that have become capable of constant hybridization. The dynamic interplay between certainty and indeterminacy is the key to understanding secular magic on television and film and exploring the interstices between them. Sexton ranges from the real-time magic of street performers, such as David Blaine, Criss Angel, and Dynamo, to Penn and Teller's comedy magic, to the hypnotic acts of Derren Brown, before finally visiting the 2006 films *The Illusionist* and *The Prestige*. Each example charts how the lack of clear distinctions between reality and illusion in modes of representation and presentation disrupt older theoretical oppositions. *Secular Magic and the Moving Image* not only re-evaluates questions about modes and styles but raises further questions about entertainment and how the relations between the program maker and the audience resemble those between the conjuror and spectator. By re-thinking these overlapping practices

and tensions and the marking of the indeterminacy of reality on media screens, it becomes possible to revise our understanding of inter-medial relations.

brings together the work of scholars from across Europe and North America to provide extensive insights into recent developments in the study of medieval magic between c.1100 and c.1500. This book covers a wide range of topics, including the magical texts which circulated in medieval Europe, the attitudes of intellectuals and churchmen to magic, the ways in which magic intersected with other aspects of medieval culture, and the early witch trials of the fifteenth century. In doing so, it offers the reader a detailed look at the impact that magic had within medieval society, such as its relationship to gender roles, natural philosophy, and courtly culture. This is furthered by the book's interdisciplinary approach, containing chapters dedicated to archaeology, literature, music, and visual culture, as well as texts and manuscripts. The Routledge History of Medieval Magic also outlines how research on this subject could develop in the future, highlighting under-explored subjects, unpublished sources, and new approaches to the topic. It is the ideal

book for both established scholars and students of medieval magic. Performing Magic on the Western Stage-L. Hass 2008-12-08 Performing Magic on the Western Stage examines magic as a performing art and as a meaningful social practice, linking magic to cultural arenas such as religion, finance, gender, and nationality and profiling magicians from Robert-Houdin to Pen& Teller. The second title in the NYT bestselling fantasy adventure series - perfect for girls who prefer their fairy tales with a twist. *Castle in the Air*-Diana Wynne Jones 2012-09-25 Abdullah was a young and not very prosperous carpet dealer. His father, who had been disappointed in him, had left

him only enough money to open a modest booth in the Bazaar. When he was not selling carpets, Abdullah spent his time daydreaming. In his dreams he was not the son of his father, but the long-lost son of a prince. There was also a princess who had been betrothed to him at birth. He was content with his life and his daydreams until, one day, a stranger sold him a magic carpet. In this stunning sequel to *Howl's Moving Castle*, Diana Wynne Jones has again created a large-scale, fast-paced fantasy in which people and things are never quite what they seem. There are good and bad djinns, a genie in a bottle, wizards, witches, cats and dogs (but are they cats and dogs?), and a mysterious floating castle filled with kidnapped princesses, as well as two puzzling prophecies. The story speeds along with tantalizing twists and turns until the prophecies are fulfilled, true identities are revealed, and all is resolved in a totally satisfying, breathtaking, surprise-filled ending.

Language and Ideology in Children's Fiction-John Stephens 1992 When children read fiction they are exposed to the beliefs which inform and structure their society. The books encourage child readers to internalise particular ways of seeing the world and help shape their development as individuals. Although this process forms a key part of their education, it remains largely invisible. As well as a story, fictions impart a significance to readers - often without revealing its presence or ground - and therefore have considerable potential to socialize their audience. John Stephens analyses this process and shows how fictions can work to constrain or liberate audience responses. He explores picture books as well as historical, realistic and fantastic fictions to show how both a character within the narrative and the implied reader are positioned within ideology. The author considers areas of ideology not previously examined and

The king and his daughter are desperate to find the lost, fabled Elfgift—so desperate that they've even called in an intimidating sorceress named Sophie to help. And where Sophie is, can the Wizard Howl and fire demon Calcifer be far behind? Of course, with that magical family involved, there's bound to be chaos—and unexpected revelations.
