The Mad King-Edgar Rice Burroughs 2005-12-01
"I have passed through a series of rather remarkable adventures since I came to Lutha," said Barney apparently quite irrelevantly, after the two had remained silent for a moment. "Shortly after my car fell upon you I was mistaken for the fugitive King Leopold by the young lady whose horse fell into the ravine with my car. She is a most loyal supporter of the king, being none other than the Princess Emma von der Tann. From her I learned to espouse the cause of Leopold." ~~~
Edgar Rice Burroughs created one of the most iconic figures in American pop culture, Tarzan of the Apes, and it is impossible to overstate his influence on entire genres of popular literature in the decades after his enormously winning pulp novels stormed the public's imagination. The Mad King, first published in book form in 1926 and difficult to find in print, is the rollicking yarn of American Barney Custer, who is mistaken for a deranged sovereign in the faraway land of Lutha. Perhaps Burroughs's most outrageously grandiloquent work, this tale of daring swordfights, damsels in distress, and diabolical villains is a favorite among true Burroughs devotees. American novelist EDGAR RICE BURROUGHS (1875-1950) wrote dozens of adventure, crime, and science-fiction novels that are still beloved today, including Tarzan of the Apes (1912), At the Earth's Core (1914), A Princess of Mars (1917), and Pirates of Venus (1934). He is reputed to have been reading a comic book when he died.

The Warlord Of Mars - Large Print Edition-Edgar Rice Burroughs 2020-11-18
In the shadows of the forest that flanks the crimson plain by the side of the Lost Sea of Korus in the Valley Dor, beneath the hurtling moons of Mars, speeding their meteoric way close above the bosom of the dying planet, I crept stealthily along the trail of a shadowy form that hugged the darker places with a persistency that proclaimed the sinister nature of its errand. For six long Martian months I had haunted the vicinity of the hateful Temple of the Sun, within whose slow-revolving shaft, far beneath the surface of Mars, my princess lay entombed-but whether alive or dead I knew not. Had Phaidor's slim blade found that beloved heart? Time only would reveal the truth. Six hundred and eighty-seven Martian days must come and go before the cell's door would again come opposite the tunnel's end where last I had seen my ever-beautiful Dejah Thoris. Half of them had passed, or would on the morrow, yet vivid in my memory, obliterating every event that had come before or after, there remained the last scene before the gust of smoke blinded my eyes and the narrow slit that had given me sight of the interior of her cell closed between me and the Princess of Helium for a long Martian year.
