Promoting the Educational Success of Children and Youth Learning English-National Academies of Sciences, Engineering, and Medicine 2017-08-25 Educating dual language learners (DLLs) and English learners (ELs) effectively is a national challenge with consequences both for individuals and for American society. Despite their linguistic, cognitive, and social potential, many ELs"who account for more than 9 percent of enrollment in grades K-12 in U.S. schools"are struggling to

meet the requirements for academic success, and their prospects for success in postsecondary education and in the workforce are jeopardized as a result. Promoting the Educational Success of Children and Youth Learning English: Promising Futures examines how evidence based on research relevant to the development of DLLs/ELs from birth to age 21 can inform education and health policies and related practices that can result in better educational outcomes. This report makes recommendations for policy, practice, and research and data collection focused on addressing the challenges in caring for and educating DLLs/ELs from birth to grade 12.

ENC Focus-
New Cambridge Advanced English Student's Book-Leo Jones 1998-09-10
New Cambridge Advanced English is the revised and updated edition of the popular Cambridge Advanced English.

The course has been completely redesigned in full colour and its stimulating reading and listening extracts have been supplemented with new authentic reading texts and interviews. Theme units, providing practice in spoken and written fluency, alternate with language units which develop accuracy in grammar, vocabulary, functions and pronunciation. In addition, New Cambridge Advanced English now contains exam-style exercises designed specifically to prepare candidates for the Cambridge CAE exam. The approach to the exam is low-key, however, with guidance and notes on exam-style exercises given in the Teacher's Book only. When used in conjunction with CAE Practice Tests, New Cambridge Advanced English makes the ideal preparation for the exam, and is especially suitable for mixed classes of exam candidates and non-candidates.

Science in Translation-Maeve Olohan 2014-04-08 Despite the crucial role played by translation in the history of scientific ideas and the transmission of knowledge, historians of science have

seldom been interested in the translation activity which enabled the spread of those ideas and exerted influence on structures and systems of knowledge. Translation scholars, too, have traditionally shown little interest in theorizing scientific translation. Recent conceptualizations of science as public culture, institution, narrative and rhetorical practice open the way for research on the translation of science to take conceptual and methodological inspiration from studies of discourse, rhetoric, the sociology of science, the history of science, the philosophy of science and other related fields. This special issue of *The Translator* foregrounds the work of researchers, within or on the periphery of translation studies, who have begun to interrogate the representation of scientific knowledge through translation. Drawing on a wide range of disciplines and models, contributors engage with different perspectives and approaches to help promote the visibility of scientific translation and shed light on its complex

relationship with power and the construction of knowledge. Contributors: Brecht Algoet, Karen Bennett, Lidia Camara, Eva Espasa, Lieve Jooken, Monika Krein-Kühle, Min-Hsiu Liao, Ruselle Meade, Guy Rooryck, Dolores Sánchez, Hala Sharkas, Mark Shuttleworth, Richard Somerset, Liselotte Vandenbussche, Sonia Vandepitte

TIME Paul McCartney-Editors of TIME Magazine 2012-09-18
When Paul McCartney played Yankee Stadium in July 2011 for two sold-out concerts, the 69 year old "looked as if he was having a boyish romp," said the New York Times, marvelling at his 35-song performance. Age hasn't slowed down this former Beatle, nor dampened his ambition. As the most successful musician in pop-music history turns 70 this June, the editors of TIME will publish a celebration of Paul McCartney's unparalleled career. Written by James Kaplan, author of the acclaimed Sinatra biography Frank: the Voice, TIME's richly illustrated book will give readers a backstage tour of the many chapters of McCartney's life: as the precocious son of a Liverpool trumpet player, the "cute Beatle" of the Fab Four years, the prolific song writing partner of John Lennon, the psychedelic seeker, the devoted husband of Linda Eastman, the reborn frontman

of the band Wings, the shrewd businessman with a net worth of hundreds of millions, and the social activist with concerns ranging from animal rights to land mines. For McCartney, the adventures never cease. As he told TIME in 2005, when asked if he would still indulge audiences with oldies like "Hey Jude": "They'll get that too, but you have to move forward as well as go back. As they say, the show must go on!".

A Professorial Life-John C.

Briggs 2009-10-26 John C. Jack Briggs was named professor emeritus upon his retirement from the University of South Florida. He is now affiliated with the Department of Fisheries and Wildlife at Oregon State University. He and his wife Eila, a retired economics professor, spend their summers in Oregon and winters in Indio, California. Jack's research interest is primarily in evolutionary biology. His studies in early years were devoted to fish life history and systematics. Work on systematics led to an interest in the evolutionary implications of biogeographic patterns. Work on contemporary patterns of distribution and biodiversity led to the study of paleobiology and the historical development of such patterns. To date, he has produced 150 publications, including six books or monographs. In 2005, he received the Alfred Russel Wallace Award from the International Biogeography Society for his lifetime contributions to biogeography. In addition to his scientific works, he has

published a science-fiction book written for his grandchildren *A Mesozoic Adventure*, Xlibris, Philadelphia, 2007. The present work *A Professorial Life* is both a professional autobiography and a concurrent account of family life.

The Student's Companion to the Theologians-Ian S. Markham 2013-01-22 This companion brings together a team of contemporary theologians and writers to provide substantial introductions to the key people who shaped the Christian story and tradition. A substantial reference work, bringing together over 75 entries on the most important and influential theologians in the history of Christianity. Structured accessibly around five periods: early centuries, middle ages, reformation period, the Enlightenment, and the twentieth-century to the present. A to Z entries range from substantial essays to shorter overviews, each of which locates the theologian in their immediate context, summarizes the themes of their work, and explains their significance. Covers a broad

span of theologians, from Augustine to Thomas Aquinas, through to C. S. Lewis, James Cone, and Rosemary Radford Reuther Provides profiles of key Catholic, protestant, evangelical, and progressive theologians Includes a useful

timeline to orientate the reader, reading lists, and a glossary of key terms
