Alternative Journalism-Chris Atton 2008-11-20 "A provocative, inspiring and challenging intervention in both journalism and media studies.... Alternative Journalism is that rare book that services students as much as scholars. It widens the trajectory of media studies and creates different modes of reading, writing and thinking... It offers an alternative history beyond the tales of great men, great newspapers, great editors and great technologies. It adds value and content to overused and ambiguous words such as "community" and "citizenship" and captures the spark of new information environments." - THE, (Times Higher Education) Alternative Journalism investigates and analyses the diverse forms and genres of journalism that have arisen as challenges to mainstream news coverage. From the radical content of emancipatory media to the dizzying range of citizen journalist blogs and fanzine subcultures, this book charts the historical and cultural practices of this diverse and globalized phenomenon. This exploration goes to the heart of journalism itself, prompting a critical inquiry into the epistemology of news, the professional norms of objectivity, the elite basis of journalism and the hierarchical commerce of news production. In investigating the challenges to media power presented by alternative journalism, Atton addresses not just the issues of politics and empowerment but also the journalism of popular culture and the everyday. The result is essential reading for students of journalism - both mainstream and alternative.

The Politics of Political Science-Paulo Ravecca 2019-02-11 In this thought-provoking book, Paulo Ravecca presents a series of interlocking studies on the politics of political science in the Americas. Focusing mainly on the cases of Chile and Uruguay, Ravecca employs different strands of critical theory to challenge the mainstream narrative about the development of the discipline in the region, emphasizing its ideological aspects and demonstrating how the discipline itself has been shaped by power relations. Ravecca metaphorically charts the (non-linear) transit from “cold” to “warm” to “hot” intellectual temperatures to illustrate his—alternative—narrative. Beginning with a detailed quantitative study of three regional academic journals, moving to the analysis of the role of subjectivity (and

political trauma) in academia and its discourse in relation to the dictatorships in Chile and Uruguay, and arriving finally at an intimate meditation on the experience of being a queer scholar in the Latin American academy of the 21st century, Ravecca guides his readers through differing explorations, languages, and methods. The Politics of Political Science: Re-Writing Latin American Experiences offers an essential reflection on both the relationship between knowledges and politics and the political and ethical role of the scholar today, demonstrating how the study of the politics of knowledge deepens our understanding of the politics of our times. The Archive and the Repertoire-Diana Taylor 2003-08-22 In The Archive and the Repertoire preeminent performance studies scholar Diana Taylor provides a new understanding of the vital role of performance in the Americas. From plays to official events to grassroots protests, performance, she argues, must be taken seriously as a means of storing and transmitting knowledge. Taylor reveals how the repertoire of embodied memory—conveyed in gestures, the spoken word, movement, dance, song, and other performances—offers alternative perspectives to those derived from the written archive and is particularly useful to a reconsideration of historical processes of transnational contact. The Archive and the Repertoire invites a remapping of the Americas based on traditions of embodied practice. Examining various genres of performance including demonstrations by the children of the disappeared in Argentina, the Peruvian theatre group Yuyachkani, and televised astrological readings by Univision personality Walter Mercado, Taylor explores how the archive and the repertoire work together to make political claims, transmit traumatic memory, and forge a new sense of cultural identity. Through her consideration of performances such as Coco Fusco and Guillermo Gómez-Peña’s show Two Undiscovered Amerindians Visit . . . , Taylor illuminates how scenarios of discovery and conquest haunt the Americas, trapping even those who attempt to dismantle them. Meditating on events like those of September 11, 2001 and media representations of them, she examines both the crucial role of performance in contemporary culture and her own role as witness to and participant in hemispheric dramas. The Archive and the Repertoire is a compelling demonstration of the many ways that the study of performance enables a deeper understanding of the past and present, of ourselves and others.

Guadalupe: pulso y corazón de un pueblo-Fidel González 2005-04-18 El Acontecimiento Guadalupano está íntimamente unido al proceso histórico de la formación de la conciencia católica en el continente americano. Casi 500 años después de aquel 1531, fecha del «encuentro de la Virgen de Guadalupe y Juan Diego», el Acontecimiento Guadalupano continúa siendo un hecho eficaz hoy, en cada uno de sus elementos y de sus personajes, incluso con la fuerza y debilidades de los antiguos personajes. Los documentos antiguos, empezando por el Nican Mopoha, han llamado al indio Juan Diego «el mensajero de Santa María»; él, a pesar de haber estado en la penumbra de los documentos históricos, continúa cumpliendo con su misión. Por ello el papa Juan Pablo II lo canonizó el 31 de julio de 2002, proponiéndolo como «evangelista y profeta» de aquel Acontecimiento, el Guadalupano, que está en el origen del proceso histórico evangelizador del Nuevo Mundo. She was a kindergarten teacher! But here she was, standing in front of the judge, her eyes wide with fear and confusion. Into this chaos strode the largest, most handsome man she'd ever seen in her life! Ash Thorpe stepped into the courtroom and took charge, not just of her defense but of Mia's heart. He might be able to save her in court, but would he lose her from his life? Enjoy His Captive Lover - book one in The Thorpe Brothers Series!

Mr. G's Battle Cry! La Causa De La Raza Wants You-Javier Gomez 2018-07-17 A wave of revolution swept across the United States in the sixties and the seventies. And across California, Cesar Chavez sparked the Chicano civil rights movement in the barrio, giving prominence to new leaders, new voices, and new demands for freedom from injustice and oppression. For young Javier Gomez, this battle cry would be the beginning of a fight to stand up to injustice in his home of East LA. In Mr. Gs Battle Cry!, author and civil rights activist Javier Gomez chronicles his march into the streets of East LA and beyond as he and his Chicano and Chicana brothers and sisters take up the cause of the civil rights movement and create hope for a better futureagainst great odds. Gomez also explores the history of his people, showing how their culture and their spirit was renewed during this historic era of equality and justice. Javier Gomez was inspired by the Chicano civil rights movement, and today his battle cry endures. Mr. Gs Battle Cry! gives voice to the enlightened individuals who fought, side by side, at protests, and in the streets, against the institutions of injustice that sought to keep the people silent. And today, this cultural revolution has left a living legacy of change, progress, and hope.

Ciranda de sons: práticas criativas em educação musical-Marisa Trench de Oliveira Fonterrada 2015-01-01 "Desde a década de 1960, as práticas criativas em Educação Musical têm sido alvo de interesse e estudo de muitos educadores musicais/ compositores em todo o mundo. Esteve também bastante presente no Brasil, com as propostas de Hans-Joachim Koellreutter e Conrado Silva, entre muitos outros. Assinale-se, também, a presença no país do canadense Murray Schafer a partir de 1990, que exerceu grande influência nos estudos dessa temática, desde que começou a visitar o Instituto de Artes da Unesp e a ter seus livros publicados no Brasil. Recentemente, em 2011 e 2012, prosseguindo em sua tradição de pesquisar esse tema, o GEPEM – Grupo de Estudo e Pesquisa em Educação Musical –, sediado no IA/Unesp, recebeu a visita da pesquisadora e docente Chefa Alonso, musicista espanhola especializada em técnicas de Improvisação Livre, em que se destaca o trabalho sistemático de criação e improvisação com instrumentos, voz e corpo. A preocupação com as práticas criativas em Educação Musical é o germe de toda pesquisa desenvolvida pelo GEPEM no decorrer dos anos e a vinda de Chefa Alonso contribuiu fortemente com as investigações do grupo. Sua experiência enriqueceu o trabalho e reforçou a percepção da importância de se aprofundar no estudo dessa temática e em sua aplicação em diferentes contextos, nas escolas, projetos sociais e em cursos profissionalizantes e superiores de Música. No presente trabalho, Marisa Trench de Oliveira Fonterrada oferece ao leitor o resultado de sua pesquisa na área de Educação Musical, partindo da análise da experiência de Chefa Alonso e enveredando por uma profunda reflexão a respeito do tema, graças à colaboração de educadores musicais de todo o país, consultados por internet, e de pesquisadores brasileiros e espanhóis entrevistados. Em Ciranda de sons, apresenta-se um levantamento inédito de como o assunto tem sido tratado no Brasil, tanto no que se refere à produção acadêmica quanto no que diz respeito à atuação de professores de música brasileiros de diferentes formações e que atuam em múltiplos espaços, assim contribuindo para o desenvolvimento da área da Educação Musical." Converting Words-William F. Hanks 2010 "A true benchmark. This work will set a new standard for the conceptualization--let alone the study--of missionization and religious conversion, colonial language policy, and language-oriented social history. Hanks provides a framework for thinking about language history that integrates language ideology, linguistic form (from phonology to speech genres), social organization, and the phenomenology of experience that goes so far beyond traditional historical, linguistic, or philological perspectives as to constitute a new paradigm for the field. Converting Words will be a classic work that will stimulate others to emulate Hanks's powerful scholarly example. The field will never be the same after this book appears."--Richard Bauman, author of A World of Others' Words: Cross-

Cultural Perspectives on Intertextuality "Hanks's work is utterly original and unprecedented... I don't think historians of the Mesoamerican colonial regimes should write anything until they read this book; it's that important."--Jane H. Hill, author of A Grammar of Cupeño

Experience and Teleology in Ancient Historiography-Jonas Grethlein 2013-10-17 The past is narrated in retrospect. Historians can either capitalize on the benefit of hindsight and give their narratives a strongly teleological design or they may try to render the past as it was experienced by historical agents and contemporaries. This book explores the fundamental tension between experience and teleology in major works of Greek and Roman historiography, biography and autobiography. The combination of theoretical reflections with close readings yields a new, often surprising assessment of the history of ancient historiography as well as a deeper understanding of such authors as Thucydides, Tacitus and Augustine. While much recent work has focused on how ancient historians use emplotment to generate historical meaning, Experience and Teleology in Ancient Historiography offers a new approach to narrative form as a mode of coming to grips with time.

Racing Through the Dark-David Millar 2012-06-26 WORLD-CLASS CYCLIST, Tour de France stage winner, and time trial specialist David Millar offers a vivid portrait of his life in professional cycling—including his soul-searing detour into performance-enhancing drugs, his dramatic arrest and two-year ban, and his ultimate decision to

return to the sport he loves to race clean—in this arrestingly candid memoir, which he wrote himself. As a young Scottish expat living in Hong Kong with his father after his parents’ divorce, Millar showed early promise with mountain biking and BMX. Two wise local cyclists took him under their wings, encouraging him to concentrate on road racing. Millar proved a ready convert. Racing Through the Dark offers the winning account of his climb through the ranks—first as an amateur and then as a pro, riding for the French team Cofidis. Among his early triumphs were several stage wins in the Tour de France. From the moment Millar turned pro, he began to see hints of the unethical measures that many— maybe most—of the other pros were taking in order to race at the very tops of their games . . . and beyond. At first, he felt that he was immune to temptation, that he could win clean. But the ugly pervasiveness of performance-enhancing drugs and the seemingly universal attitude that condoned it began to corrode his willpower. Racing Through the Dark details his eventual capitulation, his subsequent arrest and two-year ban from cycling, and his remarkable comeback as a clean cyclist who is now doing his utmost to keep performance-enhancing drugs out of the sport he so loves. Filled with thrilling descriptions of the world’s most spectacular courses, Racing Through the Dark captures the pure joy of cycling and includes some of the most vivid accounts of racing ever written by a true insider.
