The English Class-Yu Ouyang 2010 At the end of the Cultural Revolution in China in the late 1970s Jing, an educated youth (zhishi qingnian) who has spent a few years as a peasant in the countryside, becomes a truck driver in a provincial shipyard. He manages to teach himself English in adverse circumstances while driving his truck, eventually passing the examination to get into the English Class at Donghu University. There, he meets with classmates from vastly different cultural backgrounds and falls in love with Deirdre, the estranged partner of Dr Wagner the English teacher. This engaging and masterful novel explores the aspiration of many to migrate to English speaking countries. Like much of Ouyang's work it subtly deconstructs the

mechanisms of colonialism against an increasingly vibrant Chinese economy. The vivid fictional life of a Chinese truck driver who aspires to the western life is beautifully and evocatively realised. The English Class is a triumph, a novel at once wise, brave and entertaining.

Inner Speech - L2-Maria C.M. de Guerrero 2006-03-30 According to Vygotsky (1986), The decreasing vocalization of egocentric speech denotes a developing abstraction from sound, the child's new faculty to "think words" instead of pronouncing them. This is the positive meaning of the sinking coefficient of egocentric speech. The downward curve indicates development toward inner speech, (p. 230) The purpose of this volume is to explore the faculty to "think words," not as the ability to mentally evoke words in the

native (or first) language (L1) but as the faculty 1 to conjure up in the mind words in a second language (L2). To think words rather than to pronounce them is possible through inner speech, a function that humans develop in the course of childhood as they internalize the speech of the social group among which they grow. This means internalizing and being able to conduct inner speech in a particular linguistic code, the L1. But humans, at a very early or more mature age, may also come into contact and interact verbally with speakers of other languages, in classrooms or natural settings. The possibility thus emerges of internalizing an L2 in such a way that inner speech in the L2 might evolve. In this book, it is argued that, given certain conditions of L2 learning, it is possible for learners to attain inner speech in the L2. This book examines the distinctive nature of L2 inner speech and the processes that engender it and characterize its development.

The Making of the English Working Class-  
Edward Palmer Thompson 1963 This classic account of artisan and working-class society in

its formative years, 1780 to 1832, adds an important dimension to our understanding of the nineteenth century. E.P. Thompson shows how the working class took part in its own making and re-creates the whole life experience of people who suffered loss of status and freedom, who underwent degradation and who yet created a culture and political consciousness of great vitality.
