Electronic Resource Management in Libraries: Research and Practice-Yu, Holly 2008-02-28 A pronounced move from print subscriptions to electronic resources in all types of

libraries has fundamentally impacted the library and its users. With the influx of resources such as e-journals; e-books; index, abstract, and/or full-text databases; aggregated databases; and others, the shift to electronic resources is rapidly changing library operational and organizational procedures. Electronic Resource Management in Libraries: Research and Practice provides comprehensive coverage of the issues, methods, theories, and challenges connected with the provision of electronic resources in libraries, with emphasis on strategic planning, operational guidelines, and practices. This book primarily focuses on management practices of the life-cycle of commercially acquired electronic resources from selection and ordering to cataloging, Web presentation, user support, usage evaluation, and more. Newsletter - Association for Asian Studies, Committee on East Asian Libraries- Association for Asian Studies. Committee on East Asian Libraries 1976 Newsletter of the Black

Caucus of the American Library Association- 2005 Oxbridge Directory of Newsletters- 2002 International Guide to Library, Archival, and Information Science Associations-Josephine R. Fang 1980 International associations; National associations. Libraries 1985 Libraries Act on Their LibQUAL+ Findings-Fred M. Heath 2014-04-23 Learn how other libraries are using LibQUAL+™ data to improve their services and programs This book focuses on the value of the 2002 LibQUAL+™ survey data to help librarians provide better services for users. This unique work highlights the continued efforts of participating libraries that used this Web-based marketing instrument to assess and evaluate their

service quality, resource allocations, staffing, technology, and policies. Library professionals dealing with—or interested in—library service quality assessment will benefit from the practical examples and graphical representations found in this vital book. With *Libraries Act on Their LibQUAL+™ Findings*, you will gain a better understanding of how to use your LibQUAL+™ data to identify opportunities to improve your services and programs, initiate further data exploration, and identify those areas of your library which need change. In times of budget reductions, the information in this book will show you how to better demonstrate to your patrons, community, and government agencies the value of the investment in library staff and resources. Enhanced with charts, graphs, tables, and figures, this text will help your library smoothly evolve with your patrons' expectations and needs. *Libraries Act on Their LibQUAL+™ Findings: From Data to Action* covers several important topics, including: the LibQUAL+™ survey

instrument—what it is and how it works library service quality and user perceptions of library service quality peer comparisons and benchmarking qualitative and quantitative data analysis—how to read your findings strategic planning—how to use your findings This resource is of national importance, presenting varying perspectives from different library contexts, such as library consortia, library types, and individual library case studies. The book also provides ideas for using LibQUAL+™ to develop better library services for diverse users—faculty as opposed to students or the general public rather than specialists. From identifying and reaching patrons for conducting the LibQUAL+™ survey to identifying gaps between desired, perceived, and minimum expectations of services, this book will guide you in continuously meeting the needs of your community.
