A Reading of Life, Other Poems and The Sentimentalists-George Meredith 2016 Bibber besotted, with scowl of a cur, having heart of a deer, thou! Never to join to thy warriors armed for the press of the conflict, Never for ambush forth with the princeliest sons of Achaia Dared thy soul, for to thee that thing would have looked as a death-stroke. Sooth, more easy it seems, down the lengthened array of Achaians, Snatch at the prize of the one whose voice has been lifted against thee. Ravening king of the folk, for that thou hast thy rule over abjects; Else, son of Atreus, now were this outrage on me thy last one. Nay, but I tell thee, and I do swear a big oath on it likewise: Yea, by the sceptre here, and it surely bears branches and leaf-buds Never again, since first it was lopped from its trunk on the mountains, No more sprouting; for round it all clean has the sharp metal clipped off Leaves and the bark; ay, verify now do the sons of Achaia, Guardian hands of the counsels of Zeus, pronouncing the judgement, Hold it aloft; so now unto thee shall the oath have its portent; Loud will the cry for Achilles burst from the sons of Achaia Throughout the army, and thou chafe powerless, though in an anguish, How to give succour when vast crops down under man-slaying Hector Tumble expiring; and thou deep in thee shalt tear at thy heart-strings, Rage-wrung, thou, that in nought thou didst honour the flower of Achaians.

My Reading Life-Pat Conroy 2010-11-02 Bestselling author Pat Conroy acknowledges the books that have shaped him and celebrates the profound effect reading has had on his life. Pat Conroy, the beloved American storyteller, is a voracious reader. Starting as a childhood passion that bloomed into a life-long companion, reading has been Conroy’s portal to the world, both to the farthest corners of the globe and to the deepest chambers of the human soul. His interests range widely, from Milton to Tolkien, Philip Roth to Thucydides, encompassing poetry, history, philosophy, and any mesmerizing tale of his native South. He has for years kept notebooks in which he records words and expressions, over time creating a vast reservoir of playful turns of phrase, dazzling flashes of description, and snippets of delightful sound, all just for his love of language. But for Conroy reading is not simply a pleasure to be enjoyed in off-hours or a source of inspiration for his own writing. It would hardly be an exaggeration to claim that reading has saved his life, and if not his life then surely his sanity. In My Reading Life, Conroy revisits a life of reading through an array of wonderful and often surprising anecdotes: sharing the pleasures of the local library’s vast cache with his mother when he was a boy, recounting his decades-long relationship with the English teacher who pointed him onto the path of letters, and describing a profoundly influential period he spent in Paris, as well as reflecting on other pivotal people, places, and experiences. His story is a moving and personal one, girded by wisdom and an undeniable honesty. Anyone who not only enjoys the pleasures of reading but also believes in the power of books to shape a life will find here the greatest defense of that credo. BONUS: This ebook edition includes an excerpt from Pat Conroy’s The Death of Santini.

Reading for Life-Philip Davis 2020-02-12 Reading for Life is an anthology of poems and of extracts from prose fiction, related to a series of case-histories of individuals carefully reading, discussing their reading lives, and thinking about the relation of literature to their existence. It enables readers to gain increased imaginative access to the works in question through seeing how they have intensely affected equivalent readers—a novelist, a poet, a doctor, a teacher, an anthropologist, but also non-specialists, ordinary people within shared reading groups in many different settings, finding help from literary texts in times of often painful personal need. It is the story of the work done by Philip Davis’ research unit, the Centre for Research into Reading, Literature and Society (CRILS), at the University of Liverpool, in a ten-year partnership with the outreach charity The Reader, taking serious literature to often neglected communities and struggling individuals through the shared reading—alive and aloud—of literature from all ages. Reading for Life is a detailed account of what reading literature can do for a wide variety of individuals in relation to a wide variety of texts: it will be of interest to serious readers in the wider world as much as to scholars working within literary studies, and to all those involved in thinking about the therapeutic interactions of literature and life in psychology, medicine, and mental health support settings.

Life Has No Meaning Until You Create It-Rinus Le Roux 2016-12-14 We are all presented with a ‘meaningless’ blank canvas at birth. The marks this canvas gathers over time are there to complete a picture – your picture. None of these marks are so permanent that you cannot erase them or paint over them. All of them, in some way, give meaning and significance to life. Some marks may appear to be running the picture while others are so precious that we think they are the picture. But, in the final analysis, any masterpiece includes both light and shade; the one is not more important than the other. The story of YOUR life is captured in YOUR picture. Take responsibility for your canvas and seek ways to paint a picture that will serve yourself and those around you. If it is a meaningful life you want, this is the book that will grow your understanding of meaning, deepen your relationship with yourself and others, and inspire you to create a life worth living.

Genome-Matt Ridley 2013-03-26 The genome’s been mapped. But what does it mean? Arguably the most significant scientific discovery of the new century, the mapping of the twenty-three pairs of chromosomes that make up the human genome raises almost as many questions as it answers. Questions that will profoundly impact the way we think about disease, about longevity, and about free will. Questions that will affect the rest of your life. Genome offers extraordinary insight into the ramifications of this incredible breakthrough. By picking one newly discovered gene from each pair of chromosomes and telling its story, Matt Ridley recounts the history of our species and its ancestors from the dawn of life to the brink of future medicine. From Huntington’s disease to cancer, from the applications of gene therapy to the horrors of eugenics, Matt Ridley probes the scientific, philosophical, and moral issues arising as a result of the mapping of the genome. It will help you understand what this scientific milestone means for you, for your children, and for humankind.

Reading Life with Gwich’in-Jan Peter Lauren Loovers 2019-12-23 This book is based upon more than two years of ethnographic fieldwork and personal experiences with the Teet’it Gwich’in community in northern Canada. The author provides insight into Gwich’in understandings of life as well as into historical and political processes that have taken place in the North. He outlines the development of an educational approach towards conducting ethnography and writing anthropological literature, starting with the premise ‘you have to live it’. The book focuses on ways of knowing and collaboration through learning and being taught by interlocutors. Building on the work of Tim Ingold, Loovers investigates the notion of reading life – land, water and weather as well as texts – and analyses the reading of texts as acts of conversations or correspondences.

When Life Gives You Lululemons-Lauren Weisberger 2019-05-07 “The Devil Wears Prada’s Emily Charlton gets the spin-off she deserves” (Cosmopolitan) in the months-long New York Times bestseller from Lauren Weisberger in which three women team up to bring a bad man down in the tony suburb of Greenwich, Connecticut. Welcome to Greenwich, Connecticut, where the lawns and the women are perfectly manicured, the Tito’s and sodas are extra strong, and everyone has something to say about the infamous new neighbor. Let’s be clear: Emily Charlton does not do the suburbs. After leaving Miranda Priestly, she’s been working in Hollywood as an image consultant to the stars, but recently, Emily’s lost a few clients. She’s hopeless with social media. The new guard is nipping at her heels. She needs a big opportunity, and she needs it now. When Karolina Hartwell, a gorgeous former supermodel, is arrested, her fall from grace is merciless. Her senator-husband leaves her, her Beltway friends disappear, and the tabloids pounce. In Karolina, Emily finds her comeback opportunity. But she quickly learns Greenwich is a world apart and that this comeback needs a team approach. So it is that Emily, the scorned Karolina, and their mutual friend Miriam, a powerful attorney turned stay-at-home mom, band together to navigate the social land mines of suburban Greenwich and win back the hearts of the American public. Along the way, an unexpected ally emerges in one Miranda Priestly. With her signature wit, Lauren Weisberger offers an alluring look into a sexy, over-the-top world—and proves it’s style and substance together that gets the job done. “A delicious sequel to The Devil Wears Prada... exploring what it’s like to be a woman buffeted by conflicting messages about career, relationships, and motherhood” (The Washington Post), When Life Gives You Lululemons is “amazing novel about...truth, lies and how everyone is a little bit insecure” (Associated Press). “Fast-paced, funny, and gossipy, this is the must-have accessory for your beach bag” (PopSugar).

On Reading Well-Karen Swallow Prior 2018-09-04 □ Publishers Weekly starred review A Best Book of 2018 in Religion, Publishers Weekly Reading great literature well has the power to cultivate virtue. Great literature increases knowledge of and desire for the good life by showing readers what virtue looks like and where vice leads. It is not just what one reads but how one reads that cultivates virtue. Reading good literature well requires one to practice numerous virtues, such as patience, diligence, and prudence. And learning to judge wisely a character in a book, in turn, forms the reader’s own character. Acclaimed author Karen Swallow Prior takes readers on a guided tour through works of great literature both ancient and modern, exploring twelve virtues that philosophers and theologians throughout history have identified as most essential for good character and the good life. In reintroducing ancient virtues that are as relevant and essential today as ever, Prior draws on the best classical and Christian thinkers, including Aristotle, Aquinas, and Augustine. Covering authors from Henry Fielding to Cormac McCarthy, Jane Austen to George Saunders, and Flannery O’Connor to F. Scott Fitzgerald, Prior explores some of the most compelling universal themes found in the pages of classic books, helping readers learn to love life, literature, and God through their encounters with great writing. In examining works by these authors and more, Prior shows why virtues such as prudence, temperance, humility, and patience are still necessary for human flourishing and civil society. The book includes end-of-chapter reflection questions geared toward book club discussions, features original artwork throughout, and includes a foreword from Leland Ryken.

Reading Across the Life Span-Steven R. Yussen 2012-12-06 One of the liveliest areas of research in the social sciences is reading. Scholarly activity is currently proceeding along a number of different disciplinary lines, addressing a multitude of questions and issues about reading. A short list of disciplines involved in the study of reading would include linguistics, psychology, education, history, and gerontology. Among the important questions being ad dressed are some long-standing concerns: How are reading skills acquired? What are the basic components of reading skill? How do skilled readers differ from less skilled ones? What are the best ways to approach instruction for different groups of readers-young beginning readers, poor readers with learning problems, and teenage and adult illiterates? How can reading skill best be measured-what standardized instruments and observational techniques are most useful? The large volume of textbooks and scholarly books that issue forth each year is clear evidence of the dynamic nature of the field. The purpose of this volume is to survey some of the best work going on in the field today and reflect what we know about reading as it unfolds across the life span. Reading is clearly an activity that spans each of our lives. Yet most accounts of it focus on some narrow period of development and fail to consider the range of questions that serious scholarship needs to address for us to have a richer understanding of reading. The book is divided into four parts.

But this book isn’t just for preachers – Achtemeier’s unrelenting focus on the promises of God appearing in the Old Testament and fulfilled in the New Testament make these faith-filled essays an enriching resource for study groups and personal devotional reading.

Life Is Simply A Game-Steven Redhead 2016-02-24 Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life’s circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable

outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don’t wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your power to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it’s basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

Samuel Johnson and the Life of Reading-Robert DeMaria 1997 If readers of the twentieth century feel overwhelmed by the proliferation of writing and information, they can find in Samuel Johnson a sympathetic companion. Johnson’s career coincided with the rapid expansion of publishing in England—not only in English, but in Latin and Greek; not only in books, but in reviews, journals, broadsides, pamphlets, and books about books. In 1753 Johnson imagined a time when “writers will, perhaps, be multiplied, till no readers will be found.” Three years later, he wrote that England had become “a nation of authors” in which “every man must be content to read his book to himself.” In Samuel Johnson and the Life of Reading, Robert DeMaria considers the surprising influence of one of the greatest readers in English literature. Johnson’s relationship to books not only reveals much about his life and times, DeMaria contends, but also provides a dramatic counterpoint to modern reading habits. As a superior practitioner of the craft, Johnson provides a compelling model for how to read—indeed, he provides different models for different kinds of reading. DeMaria shows how Johnson recognized early that not all reading was alike—some requiring intense concentration, some suited for cursory glances, some requiring silence, some best appreciated amid the chatter of a coffeehouse. Considering the remarkable range of Johnson’s reading, DeMaria discovers in one extraordinary career a synoptic view of the subject of reading.

Reading for Their Life-Alfred W. Tatum 2009 “Because African American adolescent males and face their own challenges, they must identify texts that mark their times and their lives. If we create opportunities for this to happen, they will not only begin to trust the texts, they will begin to trust us, too. Then maybe, we’ll hear one of them say, Education is on our side,’ or, ‘I used to keep it gutter, but now I am all good.’ This is my hope.” -Alfred Tatum No reading strategy, no literacy program, no remediation will close the achievement gap for adolescent African American males. These efforts will continue to fail our students, says Alfred Tatum, until reading instruction is anchored in meaningful texts that build academic and personal resiliency inside and outside school. In Reading for Their Life Tatum takes a bold step beyond Teaching Reading to Black Adolescent Males. He shows how teachers can encourage adolescent African American males to connect with reading by defining who they are through textual lineages-texts with significance, carefully chosen for instruction because they are useful to young black males and because they matter. With works ranging from Up from Slavery and Sounder to the contemporary Handbook for Boys, Tatum helps you: understand what adolescent African American male readers need select enabling texts that have worked in Tatum’s own teaching build textual lineages by putting meaningful texts at the core of a challenging curriculum engage readers in the curriculum through essential questions, writing, and self-assessment. Click here to see Alfred talking about this book. “African American males are not engaged in a great conspiracy to fail themselves,” writes Tatum. “They continue to underperform in school as they wait for educators to get it right.” Join Alfred Tatum, use Reading for Their Life, and strive for “a way to squeeze enabling texts for every ounce of possibility they contain for advancing the literacy development of African American adolescent males.” Get more information on the state of education for African American males, read Yes We Can: The 2010 Schott 50 State Report on Black Males in Public Education.

Ethics, Literature, and Theory-Stephen K. George 2005 Do the rich descriptions and narrative shapings of literature provide a valuable resource for readers, writers, philosophers, and everyday people to imagine and confront the ultimate questions of life and death? Do the human activities of storytelling and complex moral decision-making have a deep connection? What are the moral responsibilities of the artist, critic, and reader? What can religious perspectives—from Catholic to Protestant to Mormon—contribute to literary criticism? Thirty well known contributors reflect on these questions, including itary theorists Marshall Gregory, James Phelan, and Wayne Booth; philosophers Martha Nussbaum, Richard Hart, and Nina Rosenstand; and authors John Updike, Charles Johnson, Flannery O’Connor, and Bernard Malamud. Divided into four sections, with introductory matter and questions for discussion, this accessible anthology represents the most crucial work today exploring the interdisciplinary connections between literature, religion and philosophy.

How to Live a Holy Life-C. E. Macomber 2005-01-12 Purchase one of 1st World Library’s Classic Books and help support our free internet library of downloadable eBooks. Visit us online at www.1stWorldLibrary.ORG - - A person may almost be known by the books he reads. If he habitually reads bad books, we can pretty safely conclude that he is a bad man; on the other hand, if he habitually reads religious books, we can reasonably presume that he is a religious man. Why is this? It is because the nature of a person’s books is usually the nature of his thoughts; and as a man thinks, so he is. Consequently, our reading devotional literature is a great aid to our being devotional. Too few, I fear, realize how important to our spiritual advancement is the cultivation of a taste for devotional reading. As a rule, those who have a taste for spiritual books and gratify that taste prosper in the Lord, while those who have no relish for such books labor at a great disadvantage. Some one has said that “he who begins a devout life without a taste for spiritual reading may consider the ordinary difficulties multiplied in his case by ten.” The most spiritual men of all ages have had a strong love for reading spiritual books. If, however, my reader happens not to have such a taste or such a love, he should not be discouraged, for it can be created and increased through perseverance in reading devotional literature.

Reading Your Life’s Story-Keith R. Anderson 2016-11-03 Spiritual mentoring is a particular kind of friendship in which, according to Keith R. Anderson, “two or more people walk together in heightened awareness of the presence of yet Another”—the Holy Spirit. “Spiritual mentoring is not a complicated process that requires technical training and complex protocol,” Anderson continues. “It is essential, authentic, and maybe even natural human speech that is focused, disciplined and nurtured by training for one of the hardest natural things we do: listening reflectively to another. It is sacred companionship as life is lived and story told. Available to almost all, it requires deliberate recruitment, preparation and practice.” These pages unfold a vision for mentoring that invites us to read our own lives as narrative and to learn how to enter the narrative of another life. The book covers the scope of the mentoring relationship through various seasons, offering helpful and inspiring metaphors for mentoring. All are invited to enter the mentoring story.

The Storied Life of A. J. Fikry-Gabrielle Zevin 2014-02-10 Special Free Preview! In the spirit of The Guernsey Literary and Potato Peel Pie Society and The Unlikely Pilgrimage of Harold Fry, Gabrielle Zevin’s enchanting novel is a love letter to the world of books—and booksellers—that changes our lives by giving us the stories that open our hearts and enlighten our minds. On the faded Island Books sign hanging over the porch of the Victorian cottage is the motto “No Man is an Island; Every Book is a World.” A. J. Fikry, the irascible owner, is about to discover just what that truly means. A. J. Fikry’s life is not at all what he expected it to be. His wife has died, his bookstore is experiencing the worst sales in its history, and now his prized possession, a rare collection of Poe poems, has been stolen. Slowly but surely, he is isolating himself from all the people of Alice Island– from Lambias, the well-intentioned police officer who’s always felt kindly toward Fikry; from Ismay, his sister-in-law who is hell-bent on saving him from his dreary self; from Amelia, the lovely and idealistic (if eccentric) Knightley Press sales rep who keeps on taking the ferry over to Alice Island, refusing to be deterred by A.J.’s bad attitude. Even the books in his store have stopped holding pleasure for him. These days, A.J. can only see them as a sign of a world that is changing too rapidly. And then a mysterious package appears at the bookstore. It’s a small package, but large in weight. It’s that unexpected arrival that gives A. J. Fikry the opportunity to make his life over, the ability to see everything anew. It doesn’t take long for the locals to notice the change overcoming A.J.; or for that determined sales rep, Amelia, to see her curmudgeonly client in a new light; or for the wisdom of all those books to become again the lifeblood of A.J.’s world; or for everything to twist again into a version of his life that he didn’t see coming. As surprising as it is moving, The Storied Life of A. J. Fikry is an unforgettable tale of transformation and second chances, an irresistible affirmation of why we read, and why we love.

The Space Beyond-Realistic Cook 2014-05-19 New Adult Paranormal Romance ** Mature Content ** Recommended for ages 16+ due to sexual situations and language This book includes realistic scenes of domestic violence that are not gratuitously graphic, but may be disturbing to sensitive readers. Hearts break. Souls shatter. Love lies in The Space Beyond. As members of the Phoenix, Jeric and Leni are thrust into their new lives, expected to lead Earth’s Guardians. But Leni struggles with trusting her own soul, and Jeric is more concerned about keeping Leni safe than meeting their’ demands. When Darkness swarms Lake Haven, they embark on their first mission with little preparation and no idea which soul the Dark thuns. Born and raised in Lake Haven, Bex hopes to escape her small-town life, ideally in the arms of her soul mate. She knows he exists, and her heart aches with the need to find him. When her long-lost mama calls to announce she’s knocking’ on death’s door, Bex reluctantly makes the trip to see the uncaring bitch (bless her heart), only to be knocked off her feet by the sexy and charming Dr. Mason Hayes. Is he really The One? Leni’s soul felt an instant connection to Bex, but if Bex found her soul mate, she isn’t their mission. So who is, and why does Leni instinctively feel drawn to her? Can Leni even trust her intuition? And will Jeric step up and lead when the time comes or continue to hold them back? If they don’t learn to trust themselves and each other quickly, Darkness will claim them all...along with the rest of Earth’s souls.

Another Life-Michael Korda 2011-12-21 In his remarkable memoir, at once frank, audacious, canny, and revealing, Michael Korda, the author of Charmed Lives and Queenie, does for the world of books what Moss Hart did for the theater in Act One, and succeeds triumphantly in making publishing seem as exciting (and as full of great characters) as the stage. Another Life is not just an adventure—the engaging and often hilarious story of a young man making his career—but the insider’s story of how a cottage industry metamorphosed into a big business, with sometimes alarming results for all concerned. Korda writes with grace, humor, and a shrewd eye, not only about himself and his rise from a lowly (but not humble) assistant editor reading the “slush pile” of manuscripts to a famous editor in chief of a major publishing house, but also about the celebrities and writers with whom he worked over four decades. Here are portraits—rare, intimate, always keenly observed—of such larger-than-life figures as Ronald Reagan, affable and good-natured; but the most reluctant of authors, struggling with his “ghosted” presidential autobiography; Richard Nixon, seen here as a genial, if bizarrely detached, host; superagent Irving Lazar, pursuing his endless deals and dreams of “class”; retired Mafia boss Joseph Bonanno, the last of the old-time dons, laboring over his own version of his life in his desert retreat; Joan Crawford, giving Korda her rules for successful living; and countless other greats, near greats, and would-be greats. Here too are famous writers, sometimes eccentric, sometimes infuriating, sometimes lost souls, captured memorably by someone who was close to them for years: Graham Greene, in pursuit of his FBI file and a Nobel Prize; Tennessee Williams, wrestling unsuccessfully with his demons; Jacqueline Susann, facing and conquering the dreaded “second-novel syndrome” after the stunning success of Valley of the Dolls; Harold Robbins (who had to be guarded under lock and key and made to finish his novels), struggling to keep the IRS at bay from the deck of his yacht; Carlos Castaneda, at his most scorchingly charming, described—at last—in detail, as he really was, by one of the few people who knew him well; not to mention Richard Adams, Will and Ariel Durant, Susan Howatch, S. J. Perelman, Fannie Hurst, Larry McMurtry, and many, many more. Parts of this book that have appeared in The New Yorker over the years have brought Korda great acclaim—the chapter about Jacqueline Susann has been made into a major motion picture. Here at last, entertaining and provocative and always hugely readable, is the whole story—a book as engaging and full of life as Korda’s highly acclaimed memoir of his family, Charmed Lives, about which Irwin Shaw wrote: “I don’t know when I have enjoyed a book more.”
