Love, Reason and Morality-Katrien Schaubroeck 2016-07-28 This book brings together new essays that explore the connection between love and reasons. The observation that considerations of love carry significant weight in the deliberative process opens up new perspectives in the classic discussion about practical reasons, and gives rise to many interesting questions about the nature of love's reasons, about their source and legitimacy, about their relation to moral and epistemic reasons, and about the extent to which love is sensitive to reasons. The contributors to this volume orient questions related to love within the broader context of the contemporary discussion on practical reasons, and move forward the conversation about the normative dimensions of love. Love, Reason and Morality will be of interest to philosophers working on issues of normativity, meta-ethics and moral psychology, and especially those interested in the source of practical reasons and the role of attachments in practical deliberation.

The Reasons of Love-Harry G. Frankfurt 2009-01-13 This beautifully written book by one of the world's leading moral philosophers argues that the key to a fulfilled life is to pursue wholeheartedly what one cares about, that love is the most authoritative form of caring, and that the purest form of love is, in a complicated way, self-love. Harry Frankfurt writes that it is through caring that we infuse the world with meaning. Caring provides us with stable ambitions and concerns; it shapes the framework of aims and interests within which we lead our lives. The most basic and essential question for a person to raise about the conduct of his or her life is not what he or she should care about but what, in fact, he or she cannot help caring about. The most important form of caring, Frankfurt writes, is love, a nonvoluntary, disinterested concern for the flourishing of what is loved. Love is so important because meaningful practical reasoning must be grounded in ends that we do not seek only to attain other ends, and because it is in loving that we become bound to final ends desired for their own sakes. Frankfurt argues that the purest form of love is self-love. This sounds perverse, but self-love—as distinct from self-indulgence—is at heart a disinterested concern for whatever it is that the person loves. The most elementary form of self-love is nothing more than the desire of a person to love. Insofar as this is true, self-love is simply a commitment to finding meaning in our lives.

Love Without Reason-Alison Fraser 2012-07-16 Little Consequences An illegitimate baby was fodder for the local gossips—especially when the identity of the baby's father was uncertain. When Cam returned and took one look at the five-month-old baby in her arms, Riona's deepest fear became a reality. Cam gave her a choice—a marriage of convenience to legitimize their son...or a custody battle that Riona knew only Cam could win!

Only experience will tell you the truth about your love. Distance makes the heart grow fonder or is it colder. Goodbye is never goodbye if it is meant to be. There is no other love for me. If it is true love, it will come back. There is no time nor place that can hold true love hostage. Love is love. Too many cliches, too much time or is it so many cliches and so little time. Give me a Reason to Love circles and collects thoughts on dysfunctional, obsessive, and even dangerous thoughts about love. Just like the poet cannot tell you if it will rain tomorrow, no one can tell you if true love ever dies or if you will see your lost lover again. Does love even ever exist outside the needs of the individual lovers? The book attempts to carve out a voice that explores reasons or reasons not to love from a poetic viewpoint.

Love Without Reason-LaRayia Gaston 2021-03-16 How to show up and make

a difference in a world that tells you not to care When the world's problems seem overwhelming, as they so often do, it's easy to fall into feelings of helplessness. It becomes too painful to care, so we turn to the latest "how to not give a f\*ck" self-help book. Yet caring about our world and each other is a natural instinct all humans have. What is it doing to our minds, bodies, and souls to ignore this part of our humanity? In Love without Reason: The Lost Art of Giving a F\*ck, LaRayia Gaston helps us connect with our hearts, reawaken our innate desire to make a difference, and then actually make that difference in a way that is both enjoyable and impactful. In other words, she teaches us how to show up and care about each other and our world. Central to Gaston's teachings is the idea that giving doesn't have to be difficult, and you don't have to go out of your way to do it. "Need is all around us," she writes. "You'll never know the ripples one small act of kindness can create." Gaston calls these acts micro-gestures, moments when you stop, look around, and ask yourself how you can contribute in your own way. Throughout the book, Gaston pulls apart the stories we tell ourselves about helping—it's too difficult, we'll just be in the way, it won't change anything—and provides strategies to help us get started. In the end, you'll discover that showing you care isn't about sacrifice—it's about joy. Rumi on Change by Love and Reason-Fariborz Arbasi 2013-08-01 Rumi's teachings have two essential bases, namely, love and reason. In this book these faculties are explored, and used in conjunction with other, more modern psychological techniques, in order to be strengthened and enhanced. With love we can overcome any obstacles, reach any goals and make any great dreams come true. According to Rumi, the faculty of love has special and effective abilities. Love is an alchemy which brings out our positive talents. Loving is an art and a skill which is capable of being taught. Rumi considers reason in the same way as love, to be the faculty by which we progress on the path to perfection. The specific quality of reason is "foresight". This foresight causes happiness. Reason, not only, is capable of detecting the path and removing the obstacles with foresight, but also is a director of our thoughts and emotions, which manages and makes them organised. It is a guide, whose duty is to control the quality and application of thoughts, emotions and regulate acts, accordingly

Love, Reason, and Will-Anthony Rudd 2015-10-22 Love, Reason, and Will: Kierkegaard After Frankfurt introduces and investigates themes common to Harry G. Frankfurt and Søren Kierkegaard, focusing particularly on their understanding of love. Several distinguished contributors argue that Kierkegaard's insights about love, volition, and identity can help us to evaluate aspects of Frankfurt's well-known arguments about love and caring; similarly, Frankfurt's analyses of the higher-order will, valuing, and self-love help clarify themes in Kierkegaard's Works of Love and other books. By bringing these two key thinkers into conversation with each other, we may glean a new understanding of the structure of love, reasons for love or deriving from loving, and more broadly, the central ethical questions of "how to live" and to develop an authentic identity and meaningful life. Love, Reason, and Will will appeal to readers interested in the philosophy of action and emotions, continental thought (especially in the

existential tradition), the study of character in psychology, and theological work on neighbor-love and virtues.
