They’re convinced her bad luck with men is directly related to her life-long lack of interest in all things romantic. When Emily’s latest relationship crashes and burns, she decides to go along with her friends’ plans for a romance research project. Sure, the idea that she’ll have better luck if she learns about the great romances of literature and film seems a little silly, but Emily figures it can’t hurt. In no time at all, Emily finds herself buried under a mountain of romance novels, chick flicks, and sappy love songs, hopeful that her hard work will pay off with true love. When she meets Greg, Ashley and Ryan are convinced she’s found prince charming—after all, he’s rich, handsome, and totally into Emily. What more could she want? And why does it seem that her friend Elliot isn’t exactly happy for her? Faced with misunderstandings, miscommunications, and a seemingly endless string of missteps, she is nevertheless determined to give true love a try. In doing so, Emily will eventually find that true romance, the kind that lasts, has little to do with stereotypes or clichés, and everything to do with finding out what’s in her own heart. A love story... with a happy ending-Flávio Gikovate 2013-08-06 Technological advances and changes in society have led to the growth of individuality and the impoverishment of conventional love - which nonetheless prevails in the collective imagination as an ideal. This slow transformation, according to Flávio Gikovate, is excellent news. He believes that adults today have two options, both of which are much better than the possessive conventional relationships of old: to live alone, establishing more superficial emotional and physical connections or to develop relationships based on what he calls +love, which respects individuality and can create ties capable of lasting a lifetime. In this work, Gikovate explains how to take the second path - definitely more difficult, but far more rewarding.

The Story Grid-Shawn Coyne 2015-05-02 WHAT IS THE STORY GRID? The Story Grid is a tool developed by editor Shawn Coyne to analyze stories and provide helpful editorial comments. It's like a CT Scan that takes a photo of the global story and tells the editor or writer what is working, what is not, and what must be done to make what works better and fix what's not. The Story Grid breaks down the component parts of stories to identify the problems. And finding the problems in a story is almost as difficult as the writing of the story itself (maybe even more difficult). The Story Grid is a tool with many applications: 1. It will tell a writer if a Story ?works? or ?doesn't work. 2. It pinpoints story problems but does not emotionally abuse the writer, revealing exactly where a Story (not the person creating the Story'the Story) has failed. 3. It will tell the writer the specific work necessary to fix that Story's problems. 4. It is a tool to re-envision and resuscitate a seemingly irredeemable pile of paper stuck in an attic drawer. 5. It is a tool that can inspire an original creation.

Love Stories of Later Life-Amanda Smith Barusch 2008-03-13 Even with baby boomers retiring and greater media and research attention being lavished on older people, most gerontologists have studiously avoided examining romance among the elderly. Love Stories of Later Life is an appealing and eye-opening remedy to this neglect, as leading gerontologist Amanda Smith Barusch presents original research into what love and romance mean in seniors' lives. The result is a glimpse into a world many people didn't know existed - that of romantic love in later life. Unlike superficial guidebooks that purport to help seniors find a new mate, Love Stories of Later Life integrates theory and the latest research on love and the aging process. Drawing on a wealth of personal narratives collected during a landmark five-year study, the book presents the lived experiences of older adults from all walks of life. It addresses the impact of common age-related changes, both emotional and physical, on romantic relationships, and argues that love continues to sculpt our personalities and our lives, even in life's later decades. Each chapter includes practical tools for the serious student of love, including exercises designed to increase self-awareness and relationship-building as well as annotated lists of suggested reading that are at once comprehensive and accessible. Barusch's fresh perspective, engaging voice, and in-depth qualitative research make Love Stories of Later Life an important contribution to the study of individual lives and the aging process. This book will guide gerontologists, social workers, and counselors as they in turn help their older clients navigate love's challenges. Visit the author's website: Amanda Barusch

That's Funny You Don't Look Like A Teacher!-Sandra J Weber 2002-11-01 What do you see when you think of teacher? Where does what you see come from? This is a book about the images of teachers and teaching which permeate the everyday lives of children and adults, shaping in important but unrecognised ways their notions of whom teachers are and what they do. The authors show how, using a creative interdisciplinary approach, it is possible to analyse drawings of teachers, television programmes, films, cartoons, comics and even Barbie dolls. Illustrated with colour reproductions and excerpts from interviews and journals, this book should appeal to teachers, academics and anyone who is interested in the popular culture of childhood, gender issues, professional identity and teacher education.
