Roger Eliot Fry (14 December 1866 - 9 September 1934) was an English artist and art critic, and a member of the Bloomsbury Group. Establishing his reputation as a scholar of the Old Masters, he became an advocate of more recent developments in French painting, to which he gave the name Post-Impressionism. Adeline Virginia Woolf (25 January 1882 - 28 March 1941) was an English writer, and one of the foremost modernists of the twentieth century. During the interwar period, Woolf was a significant figure in London literary society and a central figure in the influential Bloomsbury Group of intellectuals. Her most famous works include the novels *Mrs Dalloway* (1925), *To the Lighthouse* (1927) and *Orlando* (1928), and the book-length essay *A Room of One's Own* (1929), with its famous dictum, "A woman must have money and a room of her own if she is to write fiction."

**The Wisdom of Psychopaths-Kevin Dutton** 2012-10-16 Psychopath. The word conjurs up images of serial killers, rapists, suicide bombers, gangsters. But think again: you could probably benefit from being a little more psychopathic yourself. Psychologist Kevin Dutton has made a speciality of psychopathy, and is on first-name terms with many notorious killers. But unlike those incarcerated psychopaths, and all those depicted in movies and crime fiction, most are not violent, he explains. In fact, says Prof Dutton, they have a lot of good things going for them. Psychopaths are fearless, confident, charismatic and focused--qualities tailor-made for success in today's society. *The Wisdom of Psychopaths* is an intellectual rollercoaster ride that combines lightning-hot science with unprecedented access to secret monasteries, Special Forces training camps, and high-security hospitals. In it, you will meet serial killers, war heroes, financiers, movie stars and attorneys--and discover that beneath the hype and popular characterization, psychopaths have something to teach us. Like the knobs on a mixing deck, psychopathy is graded. And finding the right combination of psychopathic traits, sampled and mixed at carefully calibrated volumes, can put us ahead of the game.

**Wife Drought, The-Annabel Crabb** 2015-02-01 'I need a wife' It's a common joke among women juggling work and family. But it's not actually a joke. Having a spouse who takes care of things at home is a Godsend on the domestic front. It's a potent economic asset on the work front. And it's an advantage enjoyed - even in our modern society - by vastly more men than women. Working women are in an advanced, sustained, and chronically under-reported state of wife drought, and there is no sign of rain. But why is the work-and-family debate always about women? Why don't men get the same flexibility that women do? In our fixation on the barriers that face women on the way into the workplace, do we forget about the barriers that - for men - still block the exits? *The Wife Drought* is about women, men, family and work. Written in Annabel Crabb's inimitable style, it's full of candid and funny stories from the author's work in and around politics and the media, historical nuggets about the role of 'The Wife' in Australia, and intriguing research about the attitudes that pulse beneath the surface of egalitarian Australia. Crabb's call is for a ceasefire in the gender wars. Rather than a shout of rage, *The Wife Drought* is the thoughtful, engaging catalyst for a conversation that's long overdue.

**Rooms of Our Own-Susan Gubar** 2006 With a little help from Virginia Woolf, Susan Gubar contemplates startling transformations produced by the women's movement in recent decades. What advances have women made and what still needs to be done? Taking Woolf's classic *A Room of One's Own* as her guide, Gubar engages these questions by recounting one year in the life of an English professor. A meditation on the teaching of literature and on the state of the humanities today, her chapters also provide a crash course on the challenges and changes in feminist intellectual history over the past several decades: the influence of post-structuralism and of critical race, postcolonial, and cultural studies scholarship; the stakes of queer theory and the institutionalization of women's studies; and the effects of globalism and bioengineering on conversations about gender, sex, and sexuality. Yet *Rooms of Our Own* eschews a scholarly approach. Instead, through narrative criticism it enlists a thoroughly contemporary cast of characters who tell us as much about the comedies and tragedies of campus life today as they do about the sometimes contentious but invariably liberating feminisms of our future.
