A Row at the Ruggles'-C. N. Moller 1911

A Row at the Ruggles,'-Harold Hale 1911

From Carnac to Callanish-Aubrey Burl 1993 Lines of standing stones have until now been the neglected wonders of prehistoric Europe. From the multitude of great pillars at Carnac to the elegance of the avenue that leads to the stone circle of Callanish in the Hebrides, visitors have stared in awe but departed in ignorance. There has been nothing to inform them. From Carnac to Callanish, the first book on the subject, describes the types, which range from pairs of isolated stones in the far south-west of Ireland to networks of long lines in Scotland, Dartmoor and Brittany, in a sequence of architectural chapters that stress the increasing social and commercial connections between regions hundreds of miles apart. Information about excavations, megalithic art, astronomical analyses, legends, all these are used to provide explanations of why the rows were erected, when, and what was their purpose. The book contains a history of research from late mediaeval times to the present day; offers a chronology for the development of the lines from Neolithic times around 3500 BC, to the middle of the Bronze Age a hundred generations later; and reveals how early processional avenues leading to stone circles developed into multiple lines that were added to systematically over many generations before the tradition culminated in simple cult centres for families, easy to put up, yet containing delicate sightlines to the sun or moon. Scholarship and vivid evocation are combined to present a narrative that is as accessible to the enthusiast as the expert, and the text is augmented by distribution maps, statistical tables, plans and diagrams, as well as numerous photographs which illustrate the magnificence of these splendid but enigmatic rows.

Carl Ruggles-Marilyn J. Ziffrin 1994 In this biography of the late American composer-artist, Marilyn Ziffrin draws on interviews with those who knew him, on letters and other papers from Ruggles's collection, and on her extensive interviews and developing friendship with him in his final years. She creates a picture of a man who was proud, stubborn, insecure, irascible, prejudiced - and deeply human and lovable.

Grooves-Kevin Brockmeier 2006-02-28 After seventh-grader Dwayne Ruggles discovers that the grooves in his Thigpen-brand blue jeans are encoded with a cry for help, he sets out to save the factory workers from greedy entrepreneur Howard Thigpen.

Hudson-Lewis Halprin 2008-11-24 Hudson began in 1699 as a cluster of small industries in the northern part of the town of Marlborough, situated by the swift-flowing Assabet River. Through the years, the industries prospered and the largely immigrant workers began to bring their families to America from overseas. New homes were soon built for these families as stores, churches, and schools sprang up around town. As this factory neighborhood progressed and became self-reliant, residents petitioned the state government to become their own independent town. Because of their efforts, the town of Hudson was incorporated in 1866.
