In Search of the Sacred Book-  
Aníbal Gonzalez 2018-05-18  
In Search of the Sacred Book  
studies the artistic  
incorporation of religious  
concepts such as prophecy,  
eternity, and the afterlife in  
the contemporary Latin  
American novel. It departs  
from sociopolitical readings  
by noting the continued  
relevance of religion in Latin  
American life and culture,  
despite modernity's powerful  
secularizing influence.  
Analyzing Jorge Luis Borges's

secularized "narrative  
theology" in his essays and  
short stories, the book follows  
the development of the Latin  
American novel from the early  
twentieth century until today  
by examining the attempts of  
major novelists, from María  
Luisa Bombal, Alejo  
Carpentier, and Juan Rulfo, to  
Julio Cortázar, Gabriel García  
Márquez, and José Lezama  
Lima, to "sacralize" the novel  
by incorporating traits  
present in the sacred texts of  
many religions. It concludes  
with a view of the

“desacralization” of the novel by more recent authors, from Elena Poniatowska and Fernando Vallejo to Roberto Bolaño.

The Sacred Search-Gary Thomas 2013-01-01 What if you stopped looking for a “soul mate” and started looking for a “sole mate”—someone who will live out with you the great purpose of God? What if dating isn’t about finding “the one” but making a wise choice so you can better serve the One who loves you most? What if God didn’t design relationships to make you happy but to make you holy? In The Sacred Search, Gary Thomas will transform the way you look at romantic relationships. Whether you are single, dating, or engaged, Gary’s unique perspective on dating will prepare you for a satisfying, spiritually enriching marriage even before you walk down the aisle. As Gary reminds us, a good marriage is not something you find—it’s something you make.

Searching for the Sacred-Lois Clymer 2019-10-04 When they were newlyweds, Lois Clymer and her husband Jim had a

dream. After visiting the gorgeous homestead of a young church couple, Lois and Jim decided they wanted to make their very own homestead filled with animals and children. In this warm and candid narrative, Lois details how life eventually led her and Jim to build a homestead that celebrated the idea of self-sufficient living. In their homestead, they discovered a unique rhythm of life in bringing together family, farm animals, and gardening. Along the way Lois sold shares for her garden, learned to use an air hammer while building two tiny houses, became involved in politics, and gazed in wonder at amazing displays of the northern lights. Lois not only details the creation of different homesteads throughout the years, but she reveals the challenges she and Jim met along the way. This memoir contains the lessons Lois learned and the wisdom she gained as she searched for answers to life’s ultimate questions.

The Search for Hidden,  
Sacred Knowledge-Dolores  
Cannon 2014-12-21 Many of  
us lived previous lives as  
keepers of sacred knowledge  
that was taught in the ancient  
mystery schools. Much of this  
knowledge was lost through  
time due to disasters and  
destruction or death. The  
knowledge was reserved for a  
select few who devoted their  
lives to understanding and  
teaching it.

Handbook of Workplace  
Spirituality and  
Organizational Performance-  
Robert A Giacalone  
2010-11-15 An explanation of  
how and why the economic  
downturn of 2007 became the  
Great Recession of 2008 and  
2009. It explores the root  
causes of the cycle of boom  
and bust of the economy. It  
describes social equity in  
terms of its arguments and  
claims in political, economic,  
and social circumstances.  
Heidegger and the Quest for

the Sacred-F. Schalow  
2013-06-29 Although there  
are various 'religious' traces  
in Heidegger's philosophy,  
little effort has been made to  
show the systematic import  
which his thinking has for  
outlining a full range of  
religious and theological  
questions. Precisely because  
his thought is opposed to the  
construction of any 'dogma',  
his vast writings provide clues  
to what meaning(s) the  
'Sacred' and the 'Divine' may  
have in a postmodern age  
where the very possibility of  
'faith' hangs in the balance.  
By showing how Heidegger's  
own thinking can be  
interpreted as a struggle to  
come to terms with religious  
questions, this book  
undertakes a postmodern  
investigation of the Sacred  
which both draws upon and  
transcends various world-  
religions and denominations.  
A postmodern, non-sectarian  
vision of the Sacred thereby  
becomes possible which is  
open to the plurality of  
religious experiences on the  
one hand, and yet affirms on  
the other Heidegger's  
emphasis (in Beiträge zur  
Philosophie) on the 'last god'  
as the displacing of all

sectarian visions of god. This book will have special appeal to Heidegger scholars, as well as students interested in the overlap between phenomenology and philosophical theology.

Nine Lives-William Dalrymple  
2010-06-07 A Buddhist monk takes up arms to resist the Chinese invasion of Tibet - then spends the rest of his life trying to atone for the violence by hand printing the best prayer flags in India. A Jain nun tests her powers of detachment as she watches her best friend ritually starve herself to death. Nine people, nine lives; each one taking a different religious path, each one an unforgettable story.

William Dalrymple delves deep into the heart of a nation torn between the relentless onslaught of modernity and the ancient traditions that endure to this day.

LONGLISTED FOR THE BBC

The Sacred Quest-Lawrence Cunningham 1995 Taking a thematic and comparative approach, this book provides a clear, concise introduction to the study of religion. The Sacred Quest examines the main ideas that characterize

all religious thought and practice, with particular emphasis on such fundamental topics as ritual, sacred language, ethics, salvation, and the problem of evil. The Second Edition features a number of new thought experiments. Topics include the Supreme Court rulings on religious holiday displays, the relationships between religion and environmental attitudes, and more. In addition, the authors now include a brief survey of the history of religious studies in the introduction, present a streamlined discussion of ethics, and update all terms and references.

A Search for the Sacred-Dr. Lin Wilder 2015-10-16 "Poetry is the language of the heart; to be written or even to be understood, the heart must be made raw, it must bleed; the psalmist writes circumcised. It is no secret that growth and change- conversion can come only from pain not only felt but assimilated. In a culture averse even to the slightest discomfort, assimilating pain sounds like too tall an order and so it may be. But to the man or the woman searching for something unnamed,

something huge, something so far greater than they, that kneeling in adoration be the only response, I dedicate this book." In her dedication to her book of poems, Dr. Lin Wilder eloquently prepares her reader for the experience of reading the fifty poems enclosed in *A Search for the Sacred*. Wilder divides the poems into three sections; the reasons for the categories become clear early into the reading of the poems. There is a journey here. One that begins amidst deep personal loss and grief- some surprisingly intimate portrayals of a woman suddenly alone. Some of her poems are raw; uncomfortably so. Here's an example of one of her poems- a personal favorite: BELONGING

Is there a place called home  
Where memories and tradition await  
Patiently hidden in places  
made deep  
By relentless pursuit of useless truths.  
Do we come trailing clouds of glory  
Only to don the actors pose  
And spend too many years and tears  
Reclaiming wisdom lost so long ago  
Saved finally by the knowledge  
That human truth is shadow and illusion  
Yet uplifted by one

hope and prayer  
That our path toward peace and  
Understanding lies patiently  
waiting  
For our gaze to turn  
back to the Place where we  
began.

The Oxford Handbook of Positive Psychology-Shane J. Lopez 2011-10-13 This book is the definitive text in the field of positive psychology, the scientific study of what makes people happy. The handbook's international slate of renowned authors summarizes and synthesizes lifetimes of research, together illustrating what has worked for people across time and cultures. Now in paperback, this second edition provides both the current literature in the field and an outlook on its future.

In Search of Sacred Time-Jacques Le Goff 2020-05-12 How The Golden Legend shaped the medieval imagination It is impossible to understand the Middle Ages without grasping the importance of The Golden Legend, the most popular medieval collection of saints' lives. Assembled in the thirteenth century by Genoese archbishop Jacobus de Voragine, the book became the medieval equivalent of a bestseller. In Search of Sacred Time is the first comprehensive history and interpretation of this crucial book. Jacques Le Goff, who

was one of the world's most renowned medievalists, provides a lucid and compelling account that shows how The Golden Legend Christianized time itself, reconciling human and divine temporality. Authoritative, eloquent, and original, In Search of Sacred Time is a major reinterpretation of a book that is central to comprehending the medieval imagination. The Latchkey Kids and the Search for the Sacred Statue-Dante Salvatierra 2005-01 The Latchkey Kids seek the pieces of an ancient statue to release a spirit that haunts their classroom. The children have to face their fears, the torment of bullies, the trials of illnesses and worst of all, an adult world that scarcely acknowledges them. Written for children and adults ages 8+. Cover Art by Nikki Coffman. Teacher's Guide now available at author's lulu.com storefront. The Seeker, the Search, the Sacred-Guy Finley 2011-10-01 From the bestselling author of The Essential Laws of Fearless Living and The Courage to Be Free. The Seeker, the Search, the

Sacred is about the universal and timeless spiritual principles that lead us to a personal discovery of divine guidance and higher insight. This is a landmark work by self realization teacher and bestselling author Guy Finley, who offers it as compelling evidence that within every human being dwells a nameless Sacred Being that teaches us to live in the light of our own true selves. In *The Seeker, the Search, the Sacred*, Finley presents passages from all the major religious traditions and philosophies to demonstrate how they all work in concert to describe different aspects of a single compassionate, loving, and divine intelligence. Finley includes hundreds of quotes and inspiring thoughts from writers, teachers, and philosophers from around the world, making *The Seeker, the Search, the Sacred* an essential guide for positive living and creating an authentic life.

*Seeking the Sacred*-Stephanie Dowrick 2011-03-29 Imagine the world we would live in if we dared to see all of life as sacred unconditionally. At a

time when religion is increasingly seen as a cause of prejudice and division, or as irrelevant to our most pressing concerns, the eternal truths of a genuinely inclusive spiritual wisdom have never been more urgently needed or sought. In *Seeking the Sacred*, Stephanie Dowrick invites us to go beyond cultural divisions and religious cliches and to discover what makes our lives sacred, satisfying and meaningful. Weaving personal stories - including her own - with an inspired vision of life's most healing possibilities, she shows how the sacred can transform the way we understand and value life, changing forever how we interact with others and care for ourselves. This is a book for the spiritually curious as well as those already engaged with the deeper questions. Richly hopeful and encouraging, *Seeking the Sacred* unravels some of our most complex contemporary dilemmas and speaks to the heart of our deepest yearnings.

*In Search of Sacred Places*-Daniel Taylor 2011-04-01 Why do they still come? Fourteen

hundred years after a handful of Celtic monks withdrew to tiny islands in the sea, and almost a thousand years after the last of them disappeared, a steady streams of modern men and women make the difficult trek to these isolated places. Why? What did the ancient monks know that we have forgotten, or remember only dimly? What are we looking for when we journey to such sacred places? We are looking, among other things, for wisdom-for clues about how to live in a frantic, materialistic, care-worn world that is, in many ways, hostile to life. And we sense that those who lived here so long ago, though they have left very little behind, have something to teach us. In *Search of Sacred Places: Looking for Wisdom on Celtic Holy Islands* is the story of a reluctant pilgrimage, taken by a man with no great faith in sacred places. He is a man filled with modern questions and suspicions, who nonetheless returns home from these thin places with a better understanding of how to live. This book interweaves spiritual quest, travel, memoir, history, theological

reflection, cultural analysis, and personal introspection-all conveyed in an engaging, probing, and honest voice. It is a book for those on the hunt for meaning who share the hope that God has sown it throughout this world-perhaps more thickly in certain sacred places.

A Durkheimian Quest-William Watts Miller 2012-08-30

Durkheim, in his very role as a 'founding father' of a new social science, sociology, has become like a figure in an old religious painting, enshrouded in myth and encrusted in layers of thick, impenetrable varnish. This book undertakes detailed, up-to-date investigations of Durkheim's work in an effort to restore its freshness and reveal it as originally created. These investigations explore his particular ideas, within an overall narrative of his initial problematic search for solidarity, how it became a quest for the sacred and how, at the end of his life, he embarked on a project for a new great work on ethics. A theme running through this is his concern with a modern world in crisis and his hope in social and moral reform.

Accordingly, the book concludes with a set of essays on modern times and on a crisis that Durkheim thought would pass but which now seems here to stay.

The Sacred Gaze-David Morgan 2005-05-31 David Morgan investigates the key aspects of vision & imagery in a variety of religious traditions, including the functions of religious images & the tools that viewers use to interpret them.

Sacred Quest-L. Robert Keck 2000-01 Robert Keck's new science of the collective human Soul's evolutionary journey makes sense of current, world-wide paradigm shifts and faith-quakes, and it promotes our participation in spiritual emergence. Scientists, examining "Lucy's" ancient remains, learned much about how she lived, but nothing about what she valued in her heart. Keck's original Deep-value Research, going beyond science, investigates the deep causal values that shape human cultures and determine why certain thought and behaviour become dominant. Despite our longing for stability and predictability, science

suggests that the universe is not a steady-state reality. Keck's research suggests a similarity in the spiritual realm: change, evolution, and transformation are basic ingredients of the Soul's history. Keck's model divides the Soul's evolution into three stages. Epoch I, lasting from about 35,000 to 10,000 years ago, corresponds to "childhood". Epoch II, from 10,000 years ago to the present, is the soul's "adolescence." We are now experiencing the chaos of the transformation to Epoch III, our spiritual adulthood. Keck explains the unique confusion within which we live by identifying those spiritually adolescent values that are dying and those adult ones being born. "Questions for those on a quest", which conclude each chapter, encourage us to seek the meaning and purpose of our connections-to other people, to nature, and to the Spirit that creates, permeates, and sustains the universe. The Sacred Combe-Simon Barnes 2016-01-14 We've all got one. A secret, special place. Hidden. Enclosed. A little greener and more fertile

than the world outside. Here the birds are slightly more exotic, slightly more confiding, the grass greener and the fruit sweeter. To know such a place, to love such a place, is part of being human. Sometimes it's a place of myth, like the Garden of Eden. Sometimes it exists in fictional form, like Narnia or Shangri-La. Sometimes it comes in memories of a golden day in childhood, or in a glorious, doomed love affair. Sometimes it's a real place that we daren't go back to, for fear that it - or we - had changed. And just occasionally it's a real place. A place where you leave a small piece of your heart and return as often as you can so as not to lose it. It's a place of privilege. Simon Barnes found such a place when he woke in his first morning in the Luangwa Valley in Zambia to find elephants eating the roof of his hut. It was a homecoming, and he has been faithful to that passion ever since. Here he has known peace, danger, discomfort, fear and a profound sense of oneness with the Valley, with all nature and with the world. With the Valley he found

completion. This book explores the special places of the mind and the world, with special reference to the Luangwa Valley and the glorious support of the Valley's great artist, Pam Carr. It's a book about the quest for paradise, and the eternal human search to find such a paradise everywhere. The Search for the Sacred: Is Holiness a State of Space, Time or Mind?-Rabbi David Paskin 2016-08-02 Rabbi David Paskin's The Search for the Sacred is an articulate amplification of the Torah's command to be holy, to fully BE. How urgently needed this message in today's increasingly fragile world. How blessed we are to be granted access to this curated collection of wisdom from one of our great teachers! Menachem Creditor Rabbi, Congregation Netivot Shalom, Berkeley, CA Founder, Rabbis Against Gun Violence The search for the sacred has taken people of faith, and those still navigating the waters of belief, far and wide. We have built majestic cathedrals and meditated quietly as we've walked on the sea shores. We have found

quiet moments in the hustle and bustle of our busy days and religiously attended communal prayer gatherings. In "The Search for the Sacred," David explores the history of this search and how we can continue to find holiness in our lives today. Heidegger and the Quest for the Sacred-F. According to a longstanding

Sacred Knowledge-William A.

Richards 2015-12-08 Sacred

Knowledge is the first well-

documented, sophisticated

account of the effect of

psychedelics on biological

processes, human consciousness, and revelatory religious experiences. Based on nearly three decades of legal research with volunteers, William A. Richards argues that, if used responsibly and legally, psychedelics have the potential to assuage suffering and constructively affect the quality of human life.

Richards's analysis contributes to social and political debates over the responsible integration of psychedelic substances into modern society. His book serves as an invaluable resource for readers who, whether spontaneously or with the facilitation of psychedelics, have encountered meaningful, inspiring, or even disturbing states of consciousness and seek clarity about their experiences. Testing the limits of language and conceptual frameworks, Richards makes the most of experiential phenomena that stretch our understanding of reality, advancing new frontiers in the study of belief, spiritual awakening, psychiatric treatment, and social well-being. His findings

enrich humanities and scientific scholarship, expanding work in philosophy, anthropology, theology, and religious studies and bringing depth to research in mental health, psychotherapy, and psychopharmacology.

Sacred Music in Secular Society-Dr Jonathan Arnold  
2014-03-28 Sacred Music in Secular Society is a new and challenging work asking why Christian sacred music is now appealing afresh to a wide and varied audience, both religious and secular.

Blending scholarship, theological reflection and interviews with some of the greatest musicians and spiritual leaders of our day, Arnold suggests that the intrinsically theological and spiritual nature of sacred music remains an immense attraction particularly in secular society. This book will appeal to readers interested in contemporary spirituality, Christianity, music, worship, faith and society, whether believers or not, including theologians, musicians and sociologists.

Interpreting the Sacred-  
William E. Paden 2003  
William Paden's classic

exploration in religious studies, with a new introduction In the current climate, *Interpreting the Sacred* provides a fresh, thorough way to consider and compare various religious belief systems. Paden puts forth the idea that our understanding of religion influences our understanding of ourselves and our world. Updated with a new introduction, this book is for anyone who wants to consider and discuss religious beliefs. "To appreciate the fascinating, forbidding landscape of current religious theory, one needs a clear map annotated by an observant guide. *Interpreting the Sacred* qualifies on both counts."  
—Christian Century William Paden is professor and chair of the department of religion at the University of Vermont. *The Sacred and the Profane*-Mircea Eliade 1959 A noted historian of religion traces manifestations of the sacred from primitive to modern times, in terms of space, time, nature and the cosmos, and life itself. Index. Translated by Willard Trask. *The Voice, the Word, the Books*-F. E. Peters 2018-06-26

Jews, Christians, and Muslims all believe that their Scriptures preserve God's words to humanity, and that those words were spoken uniquely to them. In *The Voice, the Word, the Books*, F. E. Peters leads readers on an extraordinary journey through centuries of written tradition to uncover the human fingerprints on the Hebrew Bible, the New Testament, and the Quran, sacred texts that have enriched millions of lives. Bringing the latest Biblical and Quranic scholarship to a general audience, Peters explains how these three powerfully influential books passed from God's mouth, so to speak, to become the Scriptures that we possess today. He reveals new insights into their origins, contents, canonization, and the important roles they have played in the lives of their communities. He explores how they evolved through time from oral to written texts, who composed them and who wrote them, as well as the theological commonalities and points of disagreement among their adherents. Writing in the

comparative style for which he is renowned, Peters charts the transmission of faith from the spoken word to the printed page, from the revelations on Sinai and Mount Hira to Mamluk ateliers in Cairo and Gutenberg's press in Mainz. Peters is an acknowledged expert who has written extensively on these three great world religions, each of them an inheritor of the faith of Abraham. Published in conjunction with an exhibit at the British Library, this illustrated book includes beautiful images of the rare editions on exhibit and constitutes Peters's most ambitious and illuminating examination yet of the sacred texts that so inform civilization both East and West.

Bewildered Travel-Frederick  
J. Ruf 2012-10-05 Why do we  
travel? Ostensibly an act of  
leisure, travel finds us  
thrusting ourselves into jets  
flying miles above the earth,  
only to endure dislocations of  
time and space, foods and  
languages foreign to our body

and mind, and encounters with strangers on whom we must suddenly depend. Travel is not merely a break from routine; it is its antithesis, a voluntary trading in of the security one feels at home for unpredictability and confusion. In *Bewildered Travel* Frederick Ruf argues that this confusion, which we might think of simply as a necessary evil, is in fact the very thing we are seeking when we leave home. Ruf relates this quest for confusion to our religious behavior. Citing William James, who defined the religious as what enables us to "front life," Ruf contends that the search for bewilderment allows us to point our craft into the wind and sail headlong into the storm rather than flee from it. This view challenges the Eliadean tradition that stresses religious ritual as a shield against the world's chaos. Ruf sees our departures from the familiar as a crucial component in a spiritual life, reminding us of the central role of pilgrimage in religion. In addition to his own revealing experiences as a traveler, Ruf presents the

reader with the journeys of a large and diverse assortment of notable Americans, including Henry Miller, Paul Bowles, Mark Twain, Mary Oliver, and Walt Whitman. These accounts take us from the Middle East to the Philippines, India to Nicaragua, Mexico to Morocco--and, in one threatening instance, simply to the edge of the author's own neighborhood. "What gives value to travel is fear," wrote Camus. This book illustrates the truth of that statement.

Sacred Cow-Diana Rodgers,  
RD 2020-07-14 We're told that if we care about our health—or our planet—eliminating red meat from our diets is crucial. That beef is bad for us and cattle farming is horrible for the environment. But science says otherwise. Beef is framed as the most environmentally destructive and least healthy of meats. We're often told that the only solution is to reduce or quit red meat entirely. But despite what anti-meat groups, vegan celebrities, and some health experts say, plant-based agriculture is far from a perfect solution. In

Sacred Cow, registered dietitian Diana Rodgers and former research biochemist and New York Times bestselling author Robb Wolf explore the quandaries we face in raising and eating animals—focusing on the largest (and most maligned) of farmed animals, the cow. Taking a critical look at the assumptions and misinformation about meat, Sacred Cow points out the flaws in our current food system and in the proposed “solutions.” Inside, Rodgers and Wolf reveal contrarian but science-based findings, such as: Meat and animal fat are essential for our bodies. A sustainable food system cannot exist without animals. A vegan diet may destroy more life than sustainable cattle farming. Regenerative cattle ranching is one of our best tools at mitigating climate change. You’ll also find practical guidance on how to support sustainable farms and a 30-day challenge to help you transition to a healthful and conscientious diet. With scientific rigor, deep compassion, and wit, Rodgers and Wolf argue unequivocally that meat (done

right) should have a place on the table. It’s not the cow, it’s the how!
