A Sensitive Liberal's Guide to Life-The Uptight Seattleite 2010-03-02 In the tradition of The Official Preppy Handbook, The Uptight Seattleite is the Stephen Colbert of left-wing satire The author of the wildly popular Seattle Weekly advice column teaches Americans everywhere how to embrace their inner leftist. Artfully balancing the cosmic with the cosmopolitan, the Uptight Seattleite (aka Adrian) delights his loyal readers each week with snide insight on everything from fashion ("Can I pull off a Rasta beret?") to ear-bud etiquette. In A Sensitive Liberal's Guide to Life, he brings his savvy smugness to his widest audience yet, on topics such as the hierarchy of transportation righteousness (what to do with the clunky old Subaru after purchasing a Prius) and ethical behavior at the grocery store, including how to handle the horror forgetting to bring your reusable burlap sack. Other day-to-day advice covers what to read on the bus (Vonnegut versus The Kite Runner versus The Economist) and feasting at the buffet of diversity, with tips for shooting a condescending smile at those who don't know how to use chopsticks. The Uptight Seattleite also helps readers navigate the big issues, such as responsible parenting (which calls for a mini-landfill kit, perfect for the backyard and ready to be stuffed with environmentally unfriendly diapers). For every insecure liberal- and those who love to make fun of them-the Uptight Seattleite offers us laughs from the pinnacle of political correctness.

Reader's Guide to the Social Sciences-Jonathan Michie 2014-02-03 This 2-volume work includes approximately 1,200 entries in A-Z order, critically reviewing the literature on specific topics from abortion to world systems theory. In addition, nine major entries cover each of the major disciplines (political economy; management and business; human geography; politics; sociology; law; psychology; organizational behavior) and the history and development of the social sciences in a broader sense.

Tea Party Guide to Being a Real American-Roland Boyle 2011-11-01 "America is good. Everything else is bad." So begins the first chapter of the greatest book ever on the second-greatest Tea Party ever: your Tea Party. Or, if you're a godless wussy liberal dirty poopy socialist, their Tea Party. Either way-with us or against us-The Tea Party Guide to Being a Real American is for you. America is in hot water, and this book is going to teabag the whole damn country. This book has the answers. Answers to questions like Why did Jesus write the Constitution? and What's the most patriotic sexual position? Well, it doesn't quite answer that second one, but th.

The Blackwell Guide to the Philosophy of Education-Nigel Blake 2008-04-15 In this important survey, an international group of leading philosophers chart the development of philosophy of education in the twentieth century and point to significant questions for its future. Presents a definitive introduction to the core areas of philosophy of education. Contains 20 newly-commissioned articles, all of which are

written by internationally distinguished scholars. Each chapter reviews a problem, examines the current state of the discipline with respect to the topic, and discusses possible futures of the field. Provides a solid foundation for further study.

The Speaker, the Liberal Review- 1902

The Secularist, a Liberal Weekly Review- 1876

Nuclear Choices-Richard Wolfson 1993

background needed to make informed choices about nuclear technologies, introducing concepts that can be used for evaluating the claims of both proponents and opponents

Challenge of a Liberal Faith-George N. Marshall 1988

China: A Guide to Economic and Political Developments-Ian Jeffries 2007-01-24 There is currently widespread interest in the Chinese economy, due to its huge and rapid growth, and the consequent impact on world business and the world economy. At the same time, there are concerns about China's political system, China's human rights record and the degree to which reform - the development of 'socialism with Chinese characteristics' - represent real liberalization. Providing an overview of earlier events in order to set the context in which economic and political development have taken place, the book traces economic and political growth in China from the early 1990s to the present. Covering Hong Kong, Macao, Tibet and Taiwan, the book discusses China's relations, including international trade with its neighbours and with the international community more widely. Other key topics covered include the growth of the market, the reform of state owned enterprises, human rights and SARS.

Blue in a Red State-Justin Krebs 2016-03-01

Imagine if you felt out of step with every other member of the parent association at your kid's school, your quilting circle, or even your workout group. What if casual conversations revolved around Fox News and the decline of American values? How would you feel if you were afraid to put a political bumper sticker on your car or had to think twice about what liberal posts you liked on Facebook? These are just some of the experiences shared by liberals across twenty states and five time zones who tell their stories with honesty, warmth, and humor. Most of us have to "talk across the aisle" once or twice a year—when we're seated next to our conservative out-of-town uncle at Thanksgiving, say. But millions of self-identified liberals live in cities and towns—particularly away from the East and West Coasts—where they are regularly outnumbered and outvoted by conservatives. In

this uplifting and completely original book, Justin Krebs, the founder of the national Living Liberally network, speaks with and tells the stories of atheists, vegetarians, environmentalists, pacifists, and old-fashioned liberals—a term he is intent on rehabilitating—from Texas to Idaho, South Carolina to Alaska. Krebs weaves these stories together to create a provocative and rollicking taxonomy of strategies for living in a diverse society, with lessons for every participant in our great democratic experiment.

A Guide to the Perplexed-Gilad Atzmon 2002 This year is 2052, and the state of Israel has been defunct for forty years, the majority of its citizens having become refugees overseas. In order to provide Israel with a decent burial, an Institute for the Documentation of Zion is established, and among its archives is the autobiography of one Gunther Wunker. A Guide to the Perplexed is the story of Gunther's life. Born in Israel, Gunther becomes fiercely anti-Zionist through the experience of national service. He loves European, especially German, women and soon leaves Israel to find fame, fortune and fornication in Germany: the cultured country of his ancestors whose collective guilt-trip is a goldmine for the licentious professor. Before long Gunther is a famous professor of philosophy and founder of 'Peepology' - an intellectual discipline derived from the exile's position as voyeur. A Guide to the Perplexed is a darkly funny reflection on the dangers of racial purity and the position of the outsider in Western Europe. A dialogue with the Talmudic scholar Maimonides who wrote the first Guide to the Perplexed, Gilad Atzmon's book marries the playfulness of Nabokov with the sexiness of Philip Roth. It is an angry reflection on the effects of ethnic cleansing on both our bodies and our minds.

A Historical Guide to NGOs in Britain-M. Hilton 2012-07-20 Aiming to furnish the reader with the historical data to engage with the debates surrounding the Cameron government's 'Big Society' and civil society, this book gives the reader a greater and more informed historical consciousness of how the NGO sector has grown and influenced.

Research Guide to U.S. and International Interest Groups-Clive S. Thomas 2004 An excellent introductory resource, this compilation covers the major research, literature, and possible future directions of the study of interest groups. Pocket Guide to Synonyms and Antonyms-Langenscheidt (Firm) 1998 This pocket dictionary of synonyms and antonyms contains

over 4,000 entries and shows: descriptions and definitions; the links among associated words; and the differences between associated words. The Complete Idiot's Guide to U.S. Government and Politics-Franco Scardino 2009-06-02 The governed must know their government. Understanding how our government functions and the political forces that influence it is vital for all Americans. As a comprehensive overview and history of the subject, this book is designed to help anyone interested in learning about our government and the origins of its complex inner workings, our political system, and key elements that have affected our growth as a nation, all while serving as the best supplementary reading a student can get. - Author is an experienced Advanced Placement teacher - Students looking to take AP exams are a ready audience, along with citizenship applicants and CNN junkies - Large renewable market - Suitable as supplemental reading for coursework

The Blackwell Guide to Aesthetics-Peter Kivy 2009-02-09 The Blackwell Guide to Aesthetics is the most authoritative survey of the central issues in contemporary aesthetics available. The volume features eighteen newly commissioned papers on the evaluation of art, the interpretation of art, and many other forms of art such as literature, movies, and music. Provides a guide to the central traditional and cutting edge issues in aesthetics today. Written by a distinguished cast of contributors, including Peter Kivy, George Dickie, Noël Carroll, Paul Guyer, Ted Cohen, Marcia Eaton, Joseph Margolis, Berys Gaut, Nicholas Wolterstorff, Susan Feagin, Peter Lamarque, Stein Olsen, Francis Sparshott, Alan Goldman, Jenefer Robinson, Mary Mothersill, Donald Crawford, Philip Alperson, Laurent Stern and Amie Thomasson. Functions as the ideal text for undergraduate and graduate courses in aesthetics, art theory, and philosophy of art.

Engineering and the Liberal Arts-Samuel C. Florman 1968

Guide to Current American Government, Spring 1982-Congressional Quarterly, inc 1981

A Citizen's Guide to Beating Donald Trump-David Plouffe 2020-03-03 A voter's playbook on making a difference in the 2020 election and beyond from the most recognized and most successful political strategist in the country If you've asked yourself the question, what more can I do to make sure Donald Trump does not continue to occupy the Oval Office on January 20, 2021?-- then this book is for you. A playbook for the common citizen, A Citizen's Guide to Beating Donald Trump addresses the many things

individuals can do in 2020 every day, without having to leave their jobs, move to Iowa, or spend every waking moment on the election. In A Citizen's Guide to Beating Donald Trump, Plouffe's message is simple: the only way change happens, especially on scale, is one human being talking to another. It won't happen magically, it won't happen because of debates and conventions, it won't happen because of ads. It will happen because citizens take action. And Plouffe is here to help, with specific strategies and tailored talking points to make sure your time and energy aren't wasted. He lays out why different activities the average citizen can take can make a difference to getting to 270 electoral votes, how people can go about doing them and examples of where it's worked in the past. There are at least 65 million Americans who are likely committed to voting against Trump. It is entirely in our control to grow that number and make sure the support materializes in actual votes. Plouffe arms us with advice on how to defend against misinformation online, how to create and spread content, how to register and get out the vote early, how to make a difference in the battlegrounds and how to stay involved after the big election. Filled with stories from the last sixteen years, both successes and failures, as well as political strategies that have evolved in the wake of the breakthrough campaign that Plouffe masterminded, A Citizen's Guide to Beating Donald Trump is a pragmatic, specific, and very motivational guide for the path forward.

Liberalism and Its Challengers-Alonzo L. Hamby 1985 Now brought up to date to cover the Reagan and Bush administrations, the second edition of this classic text plots the rise, fall and continuing evolution of the liberal tradition in America since the Depression. Focusing on ten key individuals, from Franklin Roosevelt to Martin Luther King, Jr. to Ronald Reagan, "The Roosevelt of the Right," Hamby employs lively biographical essays to illuminate the ideological bases of American liberalism and conservatism. An essential tool towards understanding for students of American history and politics.

The Fiske Guide to colleges-Edward B. Fiske 1989 A guide to 300 colleges with ratings on academic programs, social life, and creature comforts.

The Liberal Mind-Kenneth R. Minogue 2000 The Liberal Mind attempts to uncover the philosophy of liberalism and lay bare its implications. What is Man? How does he think and feel? What is the place of Reason in human affairs? How should men live? What is politics, and what is it for?

Kenneth Minogue offers a brilliant and provocative exploration of liberalism in the Western world today: its roots and its influences, its present state, and its prospects in the new century. While few - especially in America - embrace the description of liberal, Minogue argues, most Americans and most Europeans behave as liberals. At least they are the heirs of what Minogue describes as "the triumph of an enlarged, flexible, and pragmatic version of liberalism." The past two centuries have been characterized, in the West at least, by "the fury of old ideological battles... such as: A planned economy, or free enterprise? Individual thrift, or social services? Free trade, or protection?" These battles have largely been completed -- and, many would say, have been won by the champions of, respectively, free enterprise, individual thrift, and free trade.

The Columbia Guide to South African Literature in English Since 1945-Gareth Cornwell 2010-04-13 From the outset, South Africa's history has been marked by division and conflict along racial and ethnic lines. From 1948 until 1994, this division was formalized in the National Party's policy of apartheid. Because apartheid intruded on every aspect of private and public life, South African literature was preoccupied with the politics of race and social engineering. Since the release from prison of Nelson Mandela in 1990, South Africa has been a new nation-in-the-making, inspired by a nonracial idealism yet beset by poverty and violence. South African writers have responded in various ways to Njabulo Ndebele's call to "rediscover the ordinary." The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored. An invaluable guide for general readers as well as scholars of African literary history, this comprehensive text celebrates the multiple traditions and exciting future of the South African voice. Although the South African Constitution of 1994 recognizes no fewer than eleven official languages, English has remained the country's literary lingua franca. This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present. An introduction identifies the most interesting and noteworthy writing from the period. Alphabetical entries provide accurate and objective information on genres and writers. An appendix lists essential authors published before 1945.

The Coddling of the American Mind-Greg Lukianoff 2018-09-04 Something is going wrong

on many college campuses in the last few years. Rates of anxiety, depression, and suicide are rising. Speakers are shouted down. Students and professors say they are walking on eggshells and afraid to speak honestly. How did this happen? First Amendment expert Greg Lukianoff and social psychologist Jonathan Haidt show how the new problems on campus have their origins in three terrible ideas that have become increasingly woven into American childhood and education: what doesn't kill you makes you weaker; always trust your feelings; and life is a battle between good people and evil people. These three Great Untruths are incompatible with basic psychological principles, as well as ancient wisdom from many cultures. They interfere with healthy development. Anyone who embraces these untruths—and the resulting culture of safetyism—is less likely to become an autonomous adult able to navigate the bumpy road of life. Lukianoff and Haidt investigate the many social trends that have intersected to produce these untruths. They situate the conflicts on campus in the context of America's rapidly rising political polarization, including a rise in hate crimes and off-campus provocation. They explore changes in childhood including the rise of fearful parenting, the decline of unsupervised play, and the new world of social media that has engulfed teenagers in the last decade. This is a book for anyone who is confused by what is happening on college campuses today, or has children, or is concerned about the growing inability of Americans to live, work, and cooperate across party lines.

The Politico's Guide to Electoral Reform in Britain-Patrick Dunleavy 1998 An objective analysis of the Jenkins Report on the reform of the voting system, this work analyses where the debate has got to and predicts what action the Government will take.

The Columbia Guide to Central African Literature in English Since 1945-Adrian Roscoe 2007-10-12 Columbia's guides to postwar African literature paint a unique portrait of the continent's rich and diverse literary traditions. This volume examines the rapid rise and growth of modern literature in the three postcolonial nations of Zimbabwe, Malawi, and Zambia. It tracks the multiple political and economic pressures that have shaped Central African writing since the end of World War II and reveals its authors' heroic efforts to keep their literary traditions alive in the face of extreme poverty and AIDS. Adrian Roscoe begins with a list of key political events. Since writers were composing within both

colonial and postcolonial contexts, he pays particular attention to the nature of British colonialism, especially theories regarding its provenance and motivation. Roscoe discusses such historical figures as David Livingstone, Cecil Rhodes, and Sir Harry Johnston, as well as modern power players, including Robert Mugabe, Kenneth Kaunda, and Kamuzu Banda. He also addresses efforts to create a literary-historical record from an African perspective, an account that challenges white historiographies in which the colonized was neither agent nor informer. A comprehensive alphabetical guide profiles both established and emerging authors and further illustrates issues raised in the introduction. Roscoe then concludes with a detailed bibliography recommending additional reading and sources. At the close of World War II the people of Central Africa found themselves mired in imperial fatigue and broken promises of freedom. This fueled a desire for liberation and a major surge in literary production, and in this illuminating guide Roscoe details the campaigns for social justice and political integrity, for education and economic empowerment, and for gender equity, participatory democracy, rural development, and environmental care that characterized this exciting period of development.

The Tyranny of Clichés-Jonah Goldberg
2013-04-30 The Pulitzer Prize-nominated author of *Liberal Fascism* argues that today's liberal leaders, academics and journalists pursue distinctly ideological agendas in spite of claims that they oppose ideology, revealing the hidden radical sentiments behind some of today's seemingly objective political pursuits. Reprint.
Bioethics in a Liberal Society-Max Charlesworth
1993-09-24 This book is an original discussion of contemporary issues in bioethics.

The Trinity Guide to the Christian Church-William J. La Due
2006-09-19 La Due applies the scheme he applied to Jesus, the Trinity, and eschatology to the Church in this new historical overview of ecclesiology.

1979

A Reader's Guide to the Comprehensive Models for Preparing Elementary Teachers-ERIC Clearinghouse on Teacher Education
1969

The Campaign Guide-Conservative Party (Great Britain). Research Department
1974

Liberal Hearts and Coronets-Veronica Strong-Boag
2015-02-26 Scottish aristocrats John Campbell Gordon (1847-1934) and Ishbel

Marjoribanks Gordon (1857-1939), known as the Aberdeens, rejected both revolution and reaction in their political careers. The aristocratic progressivism and egalitarian marriage of these fervent liberals confounded both contemporaries and historians. John, as viceroy of Ireland and governor-general of Canada, was a notable ally of feminists, workers, and Irish Home Rulers. Ishbel, his viceregal companion and the long-time president of the International Council of Women, was a liberal feminist and Home Ruler whose commitments stirred up even more controversy. Superbly written and informed by decades of research, *Liberal Hearts and Coronets* is the first biography to treat John Campbell

Gordon as seriously as his better-known wife. Examining the Aberdeens' remarkable careers as landlords, philanthropists, and international progressives, Veronica Strong-Boag casts the twilight of the British aristocracy in an entirely new light.

The Consumer's Guide to Experts-Susan Ten Abby Shay 2001 Provides advice on what to look for in choosing a service professional in such fields as accounting, architecture, plumbing, and real estate.

The Puzzled Voter's Guide to Politics-Peter Bartram 1983
