These Old Shades-Georgette Heyer 2009-10-01 "Heyer was one of the great protagonists of the historical novel in the post-war golden age..." —Philippa Gregory Considered the book that launched Georgette Heyer's career, These Old Shades features two of Heyer's most memorable characters: Justin Alastair, the Duke of Avon, and Leonie, whom he rescues from a life of ignominy and comes to love and marry. The Duke is known for his coldness of manner, his remarkable omniscience, and his debauched lifestyle. Late one evening, he is accosted by a young person dressed in ragged boy's clothing running away from a brutal rustic guardian. The Duke buys "Leon" and makes the child his page. "Leon" is in fact Leonie, and she serves the Duke with deep devotion. When he uncovers the true story of her birth, he wreaks an unforgettable revenge on her sinister father in a chilling scene of public humiliation. PRAISE FOR GEORGETTE HEYER: "Our Georgette Heyer display of the Sourcebooks reprints has been a huge success, not only to those early fans like myself, but to many new readers who appreciate her style and wit." Nancy Olson, Quail Ridge Books, Raleigh, NC "Reading Georgette Heyer is the next best thing to reading Jane Austen." Publishers Weekly "Wonderful characters, elegant, witty writing, perfect period detail, and rapturously romantic. Georgette Heyer achieves what the rest of us only aspire to." Katie Fforde "Absolute monarch of the

Regency romance." Kirkus Reviews

New Digital Worlds-Roopika Risam 2018-11-15 The emergence of digital

humanities has been heralded for its commitment to openness, access, and the democratizing of knowledge, but it raises a number of questions about omissions with respect to race, gender, sexuality, disability, and nation. Postcolonial digital humanities is one approach to uncovering and remedying inequalities in digital knowledge production, which is implicated in an information-age politics of knowledge. *New Digital Worlds* traces the formation of postcolonial studies and digital humanities as fields, identifying how they can intervene in knowledge production in the digital age. Roopika Risam examines the role of colonial violence in the development of digital archives and the possibilities of postcolonial digital archives for resisting this violence. Offering a reading of the colonialist dimensions of global organizations for digital humanities research, she explores efforts to decenter these institutions by emphasizing the local practices that subtend global formations and pedagogical approaches that support this decentering. Last, Risam attends to human futures in new digital worlds, evaluating both how algorithms and natural language processing software used in digital humanities projects produce universalist notions of the "human" and also how to resist this phenomenon.
