Lights of Madness-Preston
Russell 2014-07-31 Joan of
Arc was burned alive in 1431,
condemned for her heresy
which defied church and
worldly authority. Since
childhood, she claimed to
have heard daily voices from
God. These angelic messages
miraculously guided Joan to
drive the English out of
France and end the Hundred
Years War. Author Preston
Russell traces her extensive
trial testimony, seeking to find
her own voice from five
hundred years ago. He also
examines her many faces
evolving in world literature,
theatre, and film, extending
from Shakespeare and
Voltaire to Mark Twain and
George Bernard Shaw.
Becoming a world symbol,
Joan of Arc has been
embraced by Napoleon, Nazi
Germany, Marxist ideology,
and French political parties.
The Catholic Church has also
claimed her as a Saint.
Competing interpretations
have strived to capture her
enduring mystery. Was Joan
really a military genius--or
actually a man--or a mystic, a

witch, a liar, a lunatic,
medieval religious reformer,
fascist, communist, proto-
feminist, heretic or saint?
With his background as a
physician, Dr. Russell
concludes with diverse
medical attempts to define
Joan of Arc. Theories of
insanity since Hippocrates are
traced through to 20th
century psychiatric theories,
among them Sigmund Freud,
Carl Jung, and Albert
Schweitzer. Yet 21st century
brain research is discovering
surprising aspects of the
minds split awareness and
subconscious abilities.
Neuroscientists are presently
chasing the elusive ghost
hiding within the machine of
our physical reality, beginning
to explore the metaphysical
realm of universal spirituality.
Russells search for Joan of Arc
seeks a reconciliation
between science and religion.
Columbus-David Meyers
2008-08-11 Columbus has
long been known for its
musicians. Unlike New York,
San Francisco, Kansas City,
Nashville, or even Cincinnati,
however, it has never had a
definable "scene." Still, some
truly remarkable music has
been made in this musical

crossroads by the many outstanding musicians who have called it home. Since 1900, Columbus has grown from the 28th- to the 15th-largest city in the United States. During this period, it has developed into a musically vibrant community that has nurtured the talents of such artists as Elsie Janis, Ted Lewis, Nancy Wilson, Rahsaan Roland Kirk, Dwight Yoakam, Bow Wow, and Rascal Flatts. But, in many instances, those who chose to remain at home were as good and, perhaps, even better.

A Word from "Brother"

Jeanne-Jeanne Webb Davis 2013-10-24 The word that "Brother" Jeanne brings is simple, sometimes humorous, and very insightful. These autobiographical essays started as a column for a church newspaper. The column was well received, with many looking forward to seeing what "Brother" Jeanne

would say next. Some of the issues Jeanne addresses are: How do you find hope for joy and peace when the world around you is so chaotic? How can you live with God's presence filling your life in this dark, depressing world? How can you trust that God is real, when skeptics are everywhere? How can the church make any real difference in the world? How can a Christian always act with love and kindness in the midst of meanness? How does God's grace touch our lives? How do we find time for God when we are so busy? With humor and a very mature wisdom Jeanne attempts to answer these questions in her essays. She also employs preacher stories from her husband, David Davis, and her father, Lance Webb. You can find hope in this straightforward read. You can be touched and engaged and even entertained as you see the word that "Brother" Jeanne has to say!

An Unfinished Journey: Education & the American Dream-Jeanne Allen 2020-01-23 Inspired by love of country, her Italian heritage, and this nation's ongoing quest to raise its children to aspire and achieve their greatest dreams, Jeanne Allen wrote An Unfinished Journey, which uniquely challenges us to think big about the education of our youth. The author—a well-known pioneer and veteran of education

policy, politics, and culture—provides a compendium of powerful yet brief essays that will have parents, policy makers, and the general public both laughing and crying at the way the nation's education institutions have developed or mishandled all that it takes to help children achieve their greatest potential. From musings on Columbus Day to how kids behave in school and from the role of parents to politicians, this book is a uniquely informative and instructive firsthand account of the people, policies, and players that have shaped American education and why it matters. Combining a fascinating personal story with political acumen from more than thirty years in the arena, Allen paves the road to finishing the journey to the American dream.
