A Spider in the Cup-Barbara Cleverly 2013-08-20

At dawn one morning in 1933, an amateur dowsing team digging the banks of the Thames for precious metals unearths the body of a young woman with a missing toe and a priceless gold coin in her mouth. The case falls on Assistant Commissioner of Scotland Yard Joe Sandilands' turf, but he's been given another assignment—and a very high-profile one. London is hosting a historic global economic conference to try to solve the global Depression, and political tensions are running very high, as very influential participants are starting to take positions allied with or staunchly against the rapidly militarizing Germany. Sandilands' job is to protect and keep an eye on the visiting American senator Cornelius Kingstone, right-hand man to President Roosevelt, throughout the conference. When a strange set of coincidences link the river bank body to the senator, Joe realizes his assignment is much bigger than he'd thought, and that Senator Kingstone is caught up in a very dangerous game—one that might cost not just one but thousands of lives.

The Spider in the Cup-Barbara Fried 1978 Adam and Eve may have eaten of the apple that shattered the revelation and hurled us forward into a void more cosmic than the one God had populated for us. They discovered knowledge, but we discovered the unknowable: 'There remained no hole to hide in. Even metaphysics swept back over science with the green water of the deep-sea ocean and no one could longer hope to bar out the unknowable, for the knowable was known.'

The Implied Spider-Wendy Doniger 2011 Wendy Doniger's foundational study is both modern in its engagement with a diverse range of religions and refreshingly classic in its transhistorical, cross-cultural approach. By responsibly analyzing patterns and themes across context. Doniger reinvigorates the comparative reading of religion while tapping into a wealth of narrative traditions. from the instructive tales of Judaism and Christianity to the moral lessons of the Bhagavad Gita. She extracts political meaning from a variety of texts while respecting the original ideas of each. A new preface confronts the difficulty of contextualizing the comparison of religions as well as controversies over choosing subjects and positioning arguments, and the text itself is expanded and updated throughout. `An entertaining and highly accessible look at how myths reveal what is common to all humanity.--- Parabola `A racy, enjoyable book...Wendy Doniger brings to her study a wealth of story and folklore from many different traditions, exploring creatively the enduring role of myth through time and across cultures.---Theological Book Review `A timely meditation on what comparative studies might mean...a cross-cultural comparison of different stories from different areas of the world, different tribes, different languages."--- London Review of Books "A book that is particularly worthy of the attention of readers in religious studies beyond the history of religions. Since it is Wendy Doniger's most methodological book. The Implied Spider is important, not for its analysis of myths, but for the arguments that it makes in support of the comparative study of myths.'---Religious Studies Review "By analyzing the political, theological, and psychological structures of the sacred stories of various cultures through time, from the Hebrew Bible to Star Trek. Doniger shows how myths create a shared interdisciplinary narrative of all human creatures....Ranging widely, she offers a detailed, scholarly account."---Library Journal "Sparkings with erudite and often entertaining intertextual references. The implied Spider is an impressive web delicately constructed of deft analysis together with a sustained argument about the myth's ability to convey and conjure the theological and the political. With its challenges to literary theorists, historians, and

ethnographers, it takes various bulls by their respective horns, It will doubtless delight and surely provoke readers, whatever their ilk."--- Church History

Chasing the Cup-Jimmy Spithill 2017-09-13 Jimmy Spithill is arguably one of the world's greatest skippers: the youngest and double winner of the America's Cup, the oceanic version of Formula 1; winner of the Sydney Hobart; multiple world champion in match and fleet racing... the list goes on. And on a day off he'll paddleboard 32 miles through Hawaiian double overhead waves. What goes on inside the head of this extremely focused man who is a true pioneer in the game called sailing? Here he tells his rags-to-riches story of fierce determination, court cases, seasickness, crashed boats and cars, alcohol, the greatest comeback ever in sporting history and the dramatic 2017 America's Cup defence. All of it contributed to turning a quiet, bullied, water-loving blue-collar redhead born in Sydney into one of sailing's biggest rockstars. Far from the official media-trained account so often found in the closed-off world of the America's Cup, Jimmy's open, honest style gives us a rare insight into what goes on inside the head of a man at the top of his game. A compelling read, with many lessons in leadership, teamwork and achieving your dreams, no matter how impossible they might seem.

Embodied Cognition and Shakespeare's Theatre-Laurie Johnson 2014-03-26 This collection considers issues that have emerged in Early Modern Studies in the past fifteen years relating to understandings of mind and body in Shakespeare's world. Informed by The Body in Parts, the essays in this book respond also to the notion of an early modern 'body-mind' in which

Shakespeare and his contemporaries are understood in terms of bodily parts and cognitive processes. What might the impact of such understandings be on our picture of Shakespeare's theatre or on our histories of the early modern period, broadly speaking? This book provides a wide range of approaches to this challenge, covering histories of cognition, studies of early modern stage practices, textual studies, and historical phenomenology, as well as new cultural histories by some of the key proponents of this approach at the present time. Because of the breadth of material covered, full weight is given to issues that are hotly debated at the present time within Shakespeare Studies: presentist scholarship is presented alongside more historically-focused studies, for example, and phenomenological studies of material culture are included along with close readings of texts. What the contributors have in common is a refusal to read the work of Shakespeare and his contemporaries either psychologically or materially; instead, these essays address a willingness to study early modern phenomena (like the Elizabethan stage) as manifesting an early modern belief in the embodiment of cognition.

Character Sketches of Romance, Fiction and the Drama-Ebenezer Cobham Brewer 2004-03 Originally published in 1892, "the object of this Handbook is to supply readers and speakers with a lucid, but very brief account of such names as are used in allusions and references, whether by poets or prose writers; - to furnish those who consult it with the plot of popular dramas, the story of epic poems, and the outline of well-known tales. The number of dramatic plots sketched out is many hundreds. Another striking and interesting feature of the book is the revelation of the source from which dramatists

and romancers have derived their stories, and the strange repetitions of historic incidents. It has been borne in mind throughout that it is not enough to state a fact. It must be stated attractively, and the character described must be drawn characteristically if the reader is to appreciate it, and feel an interest in what he reads." This work, an American reprint of *The Reader's Handbook* by E. Cobham Brewer, ..".while retaining all of the original material that can interest and aid the English-speaking student, gives also 'characters and sketches found in American novels, poetry and drama.'"
