Caribbean Without Borders-Raquel Puig
2008-12-18 Caribbean Studies is an emerging field. As such, many topics within this discipline have yet to be explored and developed. This collection of essays is one of the forerunners dedicated to a comprehensive study of the literature, language, and culture of the Caribbean. By exploring the works of such prominent literary scholars as Samuel Selvon and Lorna Goodison as well as the myriad of issues pertaining to the Caribbean experience, this volume provides an engaging overview of literary, language, and cultural analysis. Because of this wide range of essays, this text meets a need to examine the Caribbean in its complexity, which is rarely addressed.

Printers without Borders-A. E. B. Coldiron
2015-04-09 This innovative study shows how printing and translation transformed English literary culture in the Renaissance. Focusing on the century after Caxton brought the press to England in 1476, Coldiron illustrates the foundational place of foreign, especially French language, materials. The book reveals unexpected foreign connections between works as different as Caxton's first printed translations, several editions of Book of the Courtier, sixteenth-century multilingual poetry, and a royal Armada broadside. Demonstrating a new way of writing literary history beyond source-influence models, the author treats the patterns and processes of translation and printing as co-transformations. This provocative book will interest scholars and advanced students of book history, translation studies, comparative literature and Renaissance literature.

Educational Leaders Without Borders-Rosemary Papa
2015-06-23 Building from the history of inequality in education up to current problems, this text posits viewpoints on how to cultivate

humanistic leaders in education to best benefit underserved children around the world. Among perspectives examined are economic, cultural, and political circumstances that benefit some and harm others, creating educational inequality. To illustrate the work that must be done, this book connects vignettes of compelling school issues to educational philosophies, e.g., Makiguchi's work, to bridge the theoretical and the practical and pose real solutions.

Occupational Therapies without Borders - Volume 2 E-Book-Frank Kronenberg 2011-10-24
The companion text to Occupational Therapy without Borders - Volume 1: learning from the spirit of survivors! In this landmark text writers from around the world discuss a plurality of occupation-based approaches that explicitly acknowledge the full potential of the art and science of occupational therapy. The profession is presented as a political possibilities-based practice, concerned with what matters most to people in real life contexts, generating practice-based evidence to complement evidence-based practice. As these writers demonstrate,

occupational therapies are far more than, as some critical views have suggested, a monoculture of practice rooted in Western modernity. Nobel Peace Laureate Desmond Tutu captures the ethos of this book, which essentially calls for engagements in the service of a purpose that is larger than the advancement of our profession's interests: "Your particular approach to advancing our wellbeing and health strikes me as both unique and easily taken for granted. Whilst you value and work with medical understandings, your main aim seems to go beyond these. You seem to enable people to appreciate more consciously how what we do to and with ourselves and others on a daily basis impacts on our individual and collective wellbeing. As occupational therapists you have a significant contribution to make [...] allowing people from all walks of life to contribute meaningfully to the wellbeing of others." Links philosophy with practical examples of engaging people in ordinary occupations of daily life as a means of enabling them to transform their own lives Includes contributions from worldwide

leaders in occupational therapy research and practice Describes concrete initiatives in underserved and neglected populations Looks at social and political mechanisms that influence people's access to useful and meaningful occupation Chapters increase diversity of contributions - geographically, culturally and politically Emphasis on practice, education and research maintains academic credibility A glossary and practical examples in nearly every chapter make text more accessible to students

A Church Without Borders-Jeffrey Thomas VanderWilt 1998 "What kind of Church arises from the Lord's table?" "Doctrine, customs, culture, and history divide the Churches. Christians do not share a common table. Can a divided and injured Church celebrate the Eucharist, the sacrament of Christian communion?" "These are a few of the questions addressed in this study of the ecclesiology of communion. The "borderless" Church of the infinite love of Christ exists today. The divided Churches need only receive the communion of God as their innermost nature - at the borderless

table of God's kingdom."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Imagination without Borders-Laura Hein

2020-06-01 Tomiyama Taeko, a Japanese visual artist born in 1921, is changing the way World War II is remembered in Japan, Asia, and the world. Her work deals with complicated moral and emotional issues of empire and war responsibility that cannot be summed up in simple slogans, which makes it compelling for more than just its considerable beauty. Japanese today are still grappling with the effects of World War II, and, largely because of the inconsistent and ambivalent actions of the government, they are widely seen as resistant to accepting responsibility for their nation's violent actions against others during the decades of colonialism and war. Yet some individuals, such as Tomiyama, have produced nuanced and reflective commentaries on those experiences, and on the difficulty of disentangling herself from the priorities of the nation despite her lifelong political dissent. Tomiyama's sophisticated visual commentary on Japan's history—and on the global history in which Asia is embedded—provides a compelling guide through the difficult terrain of modern historical

remembrance, in a distinctively Japanese voice. Occupational Therapy Without Borders-Frank Kronenberg 2005 This landmark book challenges occupational therapists to examine the generally accepted assumptions and key concepts of their profession by looking at the social and political mechanisms that influence people's access to useful and meaningful occupations. It also explores the new idea of occupational apartheid - the separation between those who have meaningful, useful occupations and those who are deprived of, isolated from, or otherwise constrained in their daily life. Includes contributions from worldwide leaders in occupational therapy research and practice Describes concrete initiatives with under-served and neglected populations Links philosophy with practical examples of engaging people who have transformed their lives rather than remain dependent and marginalized Allows the voices of survivors from around the world to be heard - giving the reader a global OT perspective Questions generally accepted assumptions and key concepts of the profession Looks at social

and political mechanisms that influence people's access to useful and meaningful occupations

Doctors Without Borders-Renée C. Fox

2014-06-01 This study of Médecins Sans
Frontières / Doctors Without Borders (MSF)
casts new light on the organization's founding
principles, distinctive culture, and inner
struggles to realize more fully its "without
borders" transnational vision. Pioneering medical
sociologist Renée C. Fox spent nearly twenty
years conducting extensive ethnographic
research within MSF, a private international

medical humanitarian organization that was
created in 1971 and awarded the Nobel Prize for
Peace in 1999. With unprecedented access, Fox
attended MSF meetings and observed doctors
and other workers in the field. She interviewed
MSF members and participants and analyzed the
content of such documents as communications
between MSF staff members within the offices of
its various headquarters, communications
between headquarters and the field, and
transcripts of internal group discussions and
meetings. Fox weaves these threads of
information into a rich tapestry of the MSF
experience that reveals the dual perspectives of
an insider and an observer. The book begins with
moving, detailed accounts from the blogs of
women and men working for MSF in the field.
From there, Fox chronicles the organization's
early history and development, paying special
attention to its struggles during the first decades
of its existence to clarify and implement its
principles. The core of the book is centered on
her observations in the field of MSF's efforts to
combat a rampant epidemic of HIV/AIDS in

postapartheid South Africa and the organization's response to two challenges in postsocialist Russia: an enormous surge in homelessness on the streets of Moscow and a massive epidemic of tuberculosis in the penal colonies of Siberia. Fox's accounts of these crises exemplify MSF's struggles to provide for thousands of people in need when both the populations and the aid workers are in danger. Enriched by vivid photographs of MSF operations and by ironic, self-critical cartoons drawn by a

member of the Communications Department of MSF France, Doctors Without Borders highlights the bold mission of the renowned international humanitarian organization even as it demonstrates the intrinsic dilemmas of humanitarian action.
