A Spiritual Clinique-Arthur a Pierson 2017-11-10 Excerpt from A Spiritual Clinique: Four Bible Readings Given at Keswick Somewhat as a physician puts before his class a series of representative cases of disease, and seeks to show how, according to the highest authorities they must be dealt with, I desire to indicate the symptoms of each disease and how they should be met by the application of the Divine remedy. By way of justification of this method, I may call attention to the fact that in the Word of God we have indications that the Lord Jesus looked upon all sin as a desperate and deadly disease, to be dealt with as such. A Spiritual Clinique-A. Pierson 2014-12-23 The four selected ailments are: UNSUBDUED SIN; UNANSWERED PRAYER; PERSISTENT DARKNESS and HABITUAL UNBELIEF. All the brethren who have anything to do with Convention teaching will agree that these are some of the most desperate kinds of difficulty we have to deal with, and we are perpetually coming into contact with them. Somewhat as a physician puts before his class a series of representative cases of disease, and seeks to show how, according to the highest authorities they must be dealt with, I desire to indicate the symptoms of each disease and how they should be met by the application of the Divine remedy.

Interdenominational Faith Missions in Africa-Fiedler, Klaus 2018-03-13 It was not the European and American churches which evangelised Africa, but the mission societies. The missions from the Great Awakening such as the London Missionary Society and Church Missionary Society, or the Holy Ghost Fathers and the White Fathers, which started the process of Sub-Saharan Africa becoming a Christian continent are well known and documented. Less known, and less documented are the interdenominational faith missions which began in 1873 with the aim of visiting the still unreached areas of Africa: North Africa, the Sudan Belt and the Congo Basin. Missions such as the Africa Inland Mission or Sudan Interior Mission gave birth to some of the big churches like ECWA in Nigeria and Africa Inland Church in Kenya. It is the aim of this book to describe faith missions and their theology and to present an overview of the early development of faith missions insofar as they touched Africa.

Arthur T. Pierson-Delavan Leonard Pierson 2019-04-30 Excerpt from Arthur T. Pierson: A Spiritual Warrior, Mighty in the Scriptures; A Leader in the Modern Missionary Crusade Probably no two of those who study this portrait of Arthur T. Pierson will agree in their interpretation of the man. One will see in his face the beloved pastor, another the eloquent preacher and learned teacher, and still another the ardent advocate of world-wide missions. Some who look will be moved by the memory of a loving, faithful friend, others by thoughts of the man who led them to the Saviour, and still others by the recollections of the Ambassador of Christ who brought them into closer fellowship with the Master and who inspired them to render more devoted service to their King. A Few may recall most vividly a rebuke or may be unable to overlook some real or fancied defect in character or conduct. None can see the whole man, but all can see one who fought well and nobly the battles within and without - battles for purity, truth and the supremacy of the will of God. The Keswick Movement-Charles Edwin Jones 2007 This volume introduces researchers to the leaders, ideas, and institutions of the Keswick Movement, a strand of holiness teaching that was embraced by many evangelicals who came from the more Calvinistic wing of Protestantism, especially Anglicans, Baptists, Congregationalists, and Presbyterians. The Keswick Movement is the most difficult of the three main holiness traditions to delineate. Unlike the Wesleyan Holiness and Holiness Pentecostal traditions, the Keswick Movement has not gone through a definitive period of careful theological refining and institutional boundary setting.

Experiments in Psychical Research at Leland Stanford Junior University-John Edgar Coover 1917 "The experiments described in this monograph fall into several classes of investigations which are fairly closely related to each other, and which are believed to be of fundamental importance to Psychical Research. They are offered as some slight contribution to science, of interest particularly to those who are more or less technically familiar with Psychical Research; possibly their less technical portions may interest the layman. Herein will be found (1) a statistical method of experimnt in Psychical Research which, it is believed, will be acceptable to science and will prove adequate for resolving doubt and controversy concerning the alleged supernormal acquisition of knowledge (telepathy, lucidity or clairvoyance, or communication from discarnate intelligences capable of apprehending facts in our world); and (2) the results of the first applications of this method"--Preface.
