Telling Stories the Kiowa Way-Gus Palmer 2003 Among the Kiowa, storytelling takes place under familiar circumstances. A small group of relatives and close friends gather. Tales are informative as well as entertaining. Joking and teasing are key components. Group participation is expected. And outsiders are seldom involved. This book explores the traditional art of storytelling still practiced by Kiowas today as Gus Palmer shares conversations held with storytellers. Combining narrative, personal experience, and ethnography in an original and artful way, PalmerÑan anthropologist raised in a traditional Kiowa familyÑshows not only that storytelling remains an integral part of Kiowa culture but also that narratives embedded in everyday conversation are the means by which Kiowa cultural beliefs and values are maintained. Palmer's study features contemporary oral storytelling and other discourses, assembled over two and a half years of fieldwork, that demonstrate how Kiowa storytellers practice their art. Focusing on stories and their meaning within a narrative and ethnographic context, he draws on a range of material, including dream stories, stories about the coming of Tñim? (the spirit of the Sun Dance) to the Kiowas, and stories of tricksters and tribal heroes. He shows how storytellers employ the narrative devices of actively participating in oral narratives, leaving stories wide open, or telling stories within stories. And he demonstrates how stories can reflect a wide range of sensibilities, from magical realism to gossip. Firmly rooted in current linguistic anthropological thought, Telling Stories the Kiowa Way is a work of analysis and interpretation that helps us understand story within its larger cultural contexts. It combines the author's unique literary talent with his people's equally unique perspective on anthropological questions in a text that can be enjoyed on multiple levels by scholars and general readers alike.

Traditional Narratives of the Arikara Indians: Stories of Alfred Morsette, English translations- 1991-01-01 Until the late eighteenth century the Arikaras were one of the largest and most influential Indian groups on the northern plains. For centuries they have lived along the Missouri River, first in present South Dakota, later in what is now North Dakota. Today they share the Fort Berthold Indian Reservation in North Dakota with the Mandans and Hidatsas. Although their postcontact history and aspects of their culture are well documented, Douglas R. Parks's monumental four-volume work Traditional Narratives of the Arikara Indians represents the first comprehensive attempt to describe and record their language and literary traditions. ø Volumes 1 and 2 present transcriptions of 156 oral narratives in Arikara and include literal interlinear English translations. Volumes 3 and 4 contain free English translations of those narratives, making available for the first time a broad, representative group of Arikara oral traditions that will be invaluable not only to anthropologists and folklorists but to everyone interested in American Indian life and literature. ø The narratives cover the entire range of traditional stories found in the historical and literary tradition of the Arikara people, who classify their stories into two categories, true stories and tales. Here are myths of ancient times, legends of power bestowed, historical narratives, and narratives of mysterious incidents that affirm the existence today of supernatural power in the world, along with tales of the trickster Coyote and stories of the risque Stawi and various other animals. In addition, there are accounts of Arikara ritualism: prayers and descriptions of how personal names are bestowed and how the Death Feast originated.

THE ENGLISH WHEATS-KEN WHEAT 2012-03 This book is perhaps the most comprehensive ever written about the English Wheats. The author has researched ancient records including manorial rolls, heraldic visitations, the earliest wills and church records to find as many references as possible to the Wheat name. The result is a fascinating story about the evolution of the Wheats from peasants in 14th century England to merchants, lawyers, landowners, baronets, other professionals, as well as to agricultural labourers and industrial workers, through to the end of the 19th century. The links to Shakespeare, the Churchills, the Titanic and royalty amongst others, and the origins of the Wheat name and coat of arms will be of interest to anyone who bears the Wheat name. The comprehensive family charts by town and county, some reaching as far back as the 16th century, will be useful to those who are researching their own English Wheat roots.
