A Strange Mother-M. L. Reid 2015-02-28 "My mother made a decision that would change my life. I was never to see my dad or know him. She decided to emigrate to the Caribbean with me at the age of two years, unannounced, with no finances or place to live. Her intention was to escape the law and take revenge on my father." Set partly in England and partly in Jamaica, A Strange Mother is the evocative and dramatic real-life tale of M. L. Reid, whose mother kidnapped her from her father after she had lost custody of her. In revenge, the young child was taken away to Jamaica and lived there with her mother for over fifteen years, in severe hardship, and was subjected to mental, psychological and physical abuse at the hands of her mother. Years later, M. L. Reid was fortunate to return to the UK and, when reunited with her mother, made an extraordinary discovery about the dark world her mother was involved in. She learned, with pure disbelief, that powerful and often evil spells had systematically been cast upon her by a supernatural power, with the intention of destroying her. "I am a mother and it doesn't matter what my children do or say - they are my flesh and blood. I could never be so cold to inflict a curse on them and watch them fall in life. To do so, one would have to be a strange mother." A Strange Mother is M. L. Reid's harrowing true tale, which will appeal mainly to fans of autobiographies. It bears many similarities to Ugly by Constance Briscoe.

Compelling and astonishing."-Kristen Arnett, author of Mostly Dead Things Intimacy has always eluded twenty-seven-year-old Maggie Krause--despite being brought up by married parents, models of domestic bliss--until, that is, Lucia came into her life. But when Maggie's mom, Iris, dies in a car crash, Maggie returns home only to discover a withdrawn dad, an angry brother, and, along with Iris's will, five sealed envelopes, each addressed to a mysterious man she's never heard of. In an effort to run from her own grief and discover the truth about Iris--who made no secret of her discomfort with her daughter's sexuality--Maggie embarks on a road trip, determined to hand-deliver the letters and find out what these men meant to her mother. Maggie quickly discovers Iris's second, hidden life, which shatters everything Maggie thought she knew about her parents' perfect relationship. What is she supposed to tell her father and brother? And how can she deal with her own relationship when her whole world is in freefall? Told over the course of a funeral and shiva, and written with enormous wit and warmth, All My Mother's Lovers is the exciting debut novel from fiction writer and book critic Ilana Masad. A unique meditation on the universality and particularity of family ties and grief, and a tender and biting portrait of sex, gender, and identity, All My Mother's Lovers challenges us to question the nature of fulfilling relationships. Momma Love-Ali Smith 2013-05-01 When cutting-edge portrait photographer and documentarian Ali Smith set out to explore contemporary motherhood, she was determined to capture not only its great joys but its conflicts, compromises, messiness, and unpredictable mix of emotions—and to allow a wide range of fascinating women to tell their stories in their own voices. The result is a cinematic blend of Smith's bold photography and the enthralling words of real women caught in the midst of real life at its most intense. Among the mothers you'll meet in Momma Love are Oscar-nominated actress Amy Ryan, who talks about being a mother in image-obsessed Hollywood; rock musician Alyson Palmer, who has taken both of her children on tour for years for what she calls "road schooling"; and Deborah Kopaken Cogan, who traded her harrowing life as a war photographer for the challenges of motherhood—enduring criticism as a "quitter" from her colleagues and the media. They are just a few of Ali's subjects, who come from a wide range of backgrounds and places but share a penchant for honest self-reflection. Perusing Momma Love is like entering into an honest, gutsy conversation that women of all ages will want to join, whether they are just curious about motherhood; contemplating it in earnest, as the author was when she began her journey; or deep in the throes of it. It is also for fans of great documentary photography that sticks in the mind and heart forever.

A Russian Mother-Alain Bosquet 1996 Berthe Turiansky always seemed artistically gifted. A young violinist caught in the upheavals of 1917, she fled Russia with her new husband, Alexander Bisk, a poet from a wealthy Belgian family. For

years the couple and their young son - the narrator of this book - are buffeted from country to country. As Berthe's absorption in the arts gradually shifts to her only child, she becomes the object of his rage and contempt, his love and attraction, and not even the physical remove afforded by the young man's departure for war, not even his marriage and success as a writer, can relieve the tension between them. A gripping story of geographical and psychological displacement emerges as mother and son are tantalized and tormented - in each other's company, in letters, and in their dreams. In this unforgettable novel the dissonance between Berthe and her son gradually intensifies to reveal a relationship so disturbing and complex, so brutally and delicately delineated, as to seem wholly familiar and enigmatic at the same time. At the core of A Russian Mother lies the profound ambivalence of two people who are chillingly remote yet obsessively attached. This painful symbiosis between a mother and son takes shape in fragments, as the narrative jumps back and forth in time until the late 1970s. The narrator provides the psychological threads that unify the haphazard chronology, the chaotic uprootings, and the conflicting emotions as he tries to come to terms with his mother - as blood relative and fictional character.

Arab Cooking on a Saskatchewan Homestead-Habeeb Salloum 2005 In Arab Cooking on a Saskatchewan Homestead, over 200 recipes and the author's recollections from childhood combine to tell the story of a little-known group of early immigrants to the Saskatchewan prairies--the Syrians (most of them later known as Lebanese). There was a significant Syrian community in Saskatchewan during the Depression, and as Mr. Salloum points out, their traditional foods and crops were well-suited to the dryland farming that the drought of the 1930s demanded. Thus they thrived during this difficult period on the prairies. Their traditional foods--such as yogurt, chickpeas, and burghul--were, at the time, virtually unknown to their fellow homesteaders; today, however, these same foods are an important part of an increasingly varied and globally influenced North American cuisine.
