Stranger in the Mirror-Robert Levine 2019-02-07 Who are we? Where is the boundary between us and everything else? Are we all multiple personalities? And how can we control who we become? From distinguished psychologist Robert Levine comes this provocative and entertaining scientific exploration of the most personal and important of all landscapes: the physical and psychological entity we call our self. Using a combination of case studies and cutting-edge research in psychology, biology, neuroscience, virtual reality and many other fields, Levine challenges cherished beliefs about the unity and stability of the self - but also suggests that we are more capable of change than we know. Transformation, Levine shows, is the human condition at virtually every level. Physically, our cells are unrecognizable from one moment to the next. Cognitively, our self-perceptions are equally changeable: A single glitch can make us lose track of a body part or our entire body, or to confuse our very self with that of another person. Psychologically, we switch back and forth like quicksilver between incongruent, sometimes adversarial sub-selves. Socially, we appear to be little more than an ever-changing troupe of actors. And, culturally, the boundaries of the self vary wildly around the world - from the confines of one's body to an entire village. The self, in short, is a fiction: vague, arbitrary, and utterly intangible. But it is also interminably fluid. And this unleashes a world of potential. Engaging, informative, and ultimately liberating, Stranger in the Mirror will change forever how you think about your self - and what you might become.

The Stranger in the Mirror is one woman's attempt to understand what middle age means for her and whether, as a new generation of women turns fifty, a revolution is under way. Hiding the Stranger in the Mirror-Cameron J. Camp 2012-07-02 "In 'Hiding the Stranger in the Mirror,' Dr. Cameron Camp writes with wit and compassion, aiming to help his audience better understand how dementia affects memory, and how memory loss may affect behavior. Going against conventional wisdom, the author stresses that the key to successfully caring for persons with dementia is to focus on their strengths rather than their weaknesses--to see the person and not the disease. His entertaining and insightful book examines cases based on real individuals to illustrate common challenging behaviors and how to approach these challenges. Readers act as detectives and are given the tools and the resources to understand why persons with dementia do what they do, and how to solve their own cases. More importantly, the stories lead the reader to new ideas, new ways of thinking, and a new attitude towards persons with dementia."--From publisher description.

Trapped in the Mirror-Elan Golomb, PhD 2012-06-19 In this compelling book, Elan Golomb identifies the crux of the emotional and psychological problems of millions of adults. Simply put, the children of narcissist—offspring of parents whose interest always towered above the most basic needs of their sons and daughters—share a common belief: They believe they do not have the right to exist. The difficulties experienced by adult children of narcissists can manifest themselves in many ways: for examples, physical self-loathing that takes form of overeating, anorexia, or bulimia; a self-destructive streak that causes poor job performance and rocky personal relationships; or a struggle with the self that is perpetuated in the adult's interaction with his or her own children. These dilemmas are both common and correctable, Dr. Golomb tells us. With an empathic blend of scholarship and case studies, along with her own personal narrative of her fight for self, Dr. Golomb plumbs the depths of this problem, revealing its mysterious hold on the affairs of otherwise bright, aware, motivated, and worthy people. Trapped in the Mirror explores. the nature of the paralysis and lack of motivation so many adults feel stress and its role in exacerbating childhood wrongs why do many of our relationships seem to be "reruns" of the past how one's body image can be formed by faulty parenting how anger must be acknowledge to be overcome and, most important, how even the most traumatized self can be healed. Rooted in a profoundly humanist traditional approach, and suffused with the benefit of the latest knowledge about intrafamily relationships, Trapped in the Mirror offers more than the average self-help book; it is truly the first self-heal book for millions.

Within these pages, you’ll find real and honest accounts of everyday people whose discoveries of faith will inspire and comfort you on your own journey. *** The security lock thumped open, and I stepped into Level 3, a neonatal unit where I had been drawn to a drama played out minute by minute. As I stood above two cribs along a back wall, I wondered less about doctors, nurses, and medicine and more about God. Two babies had been born with a congenital diaphragmatic hernia. Both had been placed on a heart-lung bypass machine to let their organs rest. One boy had no name. His mother was a crack addict. After giving birth, she abandoned her baby and never returned to the hospital. In the adjacent crib lay Jonah Van Arnam. His parents were active members of a church and visited their son daily to pray for him and the nurses and doctors. One afternoon, a nurse pulled me aside and told me a miracle was taking place: the crack addict’s baby was getting better. But . . . Jonah was dying. Why had God abandoned this couple and their son? The Little Stranger-Sarah Waters 2009-05-05 From the multi-award-winning and bestselling author of The Night Watch and Fingersmith comes an astonishing novel about love, loss, and the sometimes unbearable weight of the past. In a dusty post-war summer in rural Warwickshire, a doctor is called to see a patient at lonely Hundreds Hall. Home to the Ayres family for over two centuries, the once grand house is now in decline, its masonry crumbling, its garden choked with weeds. All around, the world is changing, and the family is struggling to adjust to a society with new values and rules. Roddie Ayres, who returned from World War II physically and emotionally wounded, is desperate to keep the house and what remains of the estate together for the sake of his mother and his sister, Caroline. Mrs. Ayres is doing her best to hold on to the gracious habits of a gentler era and Caroline seems cheerfully prepared to continue doing the work a team of servants once handled, even if it means having little chance for a life of her own beyond Hundreds. But as Dr. Faraday becomes increasingly entwined in the Ayreses' lives, signs of a more disturbing nature start to emerge, both within the family and in Hundreds Hall itself. And Faraday begins to wonder if they are all threatened by something more sinister than a dying way of life, something that could subsume them completely. Both a nuanced evocation of 1940s England and the most chill-inducing novel of psychological suspense in years, The Little Stranger confirms Sarah Waters as one of the finest and most exciting novelists writing today.

Stranger in the Mirror-Ray Speckman 2011

When the Emperor Was Divine-Julie Otsuka 2007-12-18 The debut novel from the PEN/Faulkner Award Winning Author of The Buddha in the Attic On a sunny day in Berkeley, California, in 1942, a woman sees a sign in a post office window, returns to her home, and matter-of-factly begins to pack her family's possessions. Like thousands of other Japanese Americans they have been reclassified, virtually overnight, as enemy aliens and are about to be uprooted from their home and sent to a dusty internment camp in the Utah desert. In this lean and devastatingly evocative first novel, Julie Otsuka tells their story from five flawlessly realized points of view and conveys the exact emotional texture of their experience: the thin-walled barracks and barbed-wire fences, the omnipresent fear and loneliness, the unheralded feats of heroism. When the Emperor Was Divine is a work of enormous power that makes a shameful episode of our history as immediate as today's headlines.

In Her Feminine Sign-Dunya Mikhail 2019-07-30 A brilliant poetic exploration of language and gender, place, and time, seen through the mirror of exile In Her Feminine Sign follows on the heels of Dunya Mikhail's devastating account of Daesh kidnappings and killings of Yazidi women in Iraq, The Beekeeper. It is the first book she has written in both Arabic and English, a process she talks about in her preface, saying "The poet is at home in both texts, yet she remains a stranger." With a subtle simplicity and disquieting humor reminiscent of Wislawa Szymborska and an unadorned lyricism wholly her own, Mikhail shifts between her childhood in Baghdad and her present life in Detroit, between Ground Zero and a mass grave, between a game of chess and a flamingo. At the heart of the book is the symbol of the tied circle, the Arabic suffix taa-marbuta—a circle with two dots above it that determines a feminine word, or sign. This tied circle transforms into the moon, a stone that binds friendship, birdsong over ruins, three kidnapped women, and a hymn to Nisaba, the goddess of writing. A section of "Iraqi haiku" unfolds like Sumerian symbols carved onto clay tablets, transmuted into the stuff of our ordinary, daily life. In another poem, Mikhail defines the Sumerian word for freedom, Ama-ar-gi, as "what seeps out / from the dead into our dreams."
