Better Strangers-Scott Tucker 2006-11 Robert, Cass, and Julia share a complex history going back to their college days in California-a triangle of lovers; a baby born in a marijuana field; a night of changing names and fleeing to Seattle. There are scars from ax blades and broken glass. Uneasy truces. Prying neighbors. The threat of war. And enough vegetables growing in the yard to feed a household through the winter. Now, on the morning of Robert Hamlin's 45th birthday, in the last year of setting fire to the world, everything is about to ignite again. How many strangers make a family? When does water flow thicker than blood? The universe is a random and violent place, after all, where souls-the lucky ones-find their way back eventually to the source of human kindness. Tucker collects his characters from the streets and his hopes for them from the stars. This is the story of human history, staged on a sixth of an acre in north Seattle.

Psychotherapy with Older Men-Tammi Vacha-Haase 2011-01-19 Growing older can be a time of great joy and satisfaction for men as they look back on their accomplishments and gain more free time, but it can also be a challenging and distressing experience, especially for those men raised with the very traditional notions of what it means to be a "real man." This book will help practitioners working with older and aging men understand the eras in which these men were raised, how they view the world, the gender role conflicts they experience, and the physical, mental, and emotional challenges and problems they face during the later stages of their lives. The authors discuss theories of masculinity and aging and therapeutic considerations for working with this special population. Making use of many detailed case studies, they explore the psychological issues that are commonly faced by older men, such as depression, anxiety, cognitive impairment, and substance use and abuse, as well as effective screening and assessment techniques, and treatment approaches. They then conclude with a look at the future directions of psychotherapy with older men.
