A Taste for Travel-John Julius Norwich 1987 Uses selections from a variety of writers to look at the history of travel and discusses reasons for travel, departures, transportation, traveling companions, hardships, foreign customs, and homecomings

The Englishman's England-Ian Ousby 2016-09-12 "If my journals should remain legible, or be perused at the end of 200 years, there will, even then, be little curious in them relative to travel, or the people, because our island is now so explored; our roads, in general, are so fine; and our speed has reach'd the summit." Or so one late eighteenth century traveller thought, reminding us that the English tourist industry is not the modern creation we often suppose. In this fascinating and original study Ian Ousby investigates the landmarks chosen by the English for their leisure travel over the centuries. He looks in particular at four types of attraction still prominent on the tourist map of England: literary shrines, country houses, picturesque ruins and the natural landscape. All these first became objects of fashionable attention during the eighteenth century, when improvements in transport combined with a spirit of practical inquiry to breed the first generation of travellers who called themselves 'tourists'. Drawing on a wide range of sources - journals, travel books and guidebooks, novels and poems, as well as many engravings - Ian Ousby traces the canons of taste which led the early tourists to seek out places like Stratford-upon-Avon, Chatsworth, Tintern Abbey and the Lake District, and records the stages by which these places acquired the trappings of the tourist attraction. Above all, he shows the development not just of an industry but of a state of mind marked, from its earliest phase, by the underlying fear that tourism is fated to spoil or even destroy the very thing it most admires.

The Idea of Europe in British Travel Narratives, 1789-1914-Dr Katarina Gephardt 2014-08-28 Showing how specific rhetorical strategies used in nineteenth-century British travel writing produced fictional representations of continental Europe in works by Ann Radcliffe, Lord Byron, Charles Dickens, and Bram Stoker, Katarina Gephardt argues that nineteenth-century writers envisioned their country simultaneously as distinct from the Continent and as a part of Europe. She suggests that their imaginative geography of Europe anticipated Britain's ambivalence about European integration.

A Course of English Reading, adapted to every taste and capacity, with anecdotes of men of genius-James PYCROFT 1854

A Taste for the Foreign-Ellen R. Welch 2011-03-14 A Taste for the Foreign examines foreignness as a crucial aesthetic category for the development of prose fiction from Jacques Amyot's 1547 translation of The Ethiopian Story to Antoine Galland's early eighteenth-century version of The Thousand and One Nights. Concentrating on the most successful examples of some of the most important sub-genres of prose fiction in the long seventeenth century—heroic romances, shorter urban novels, fictional memoirs, and extraordinary voyages—the book examines how these types of fiction creatively appropriate the scientific or documentary forms of writing that claimed to inform the French public about exotic places.

Richard Hakluyt and Travel Writing in Early Modern Europe-Claire Jowitz 2016-03-23 Richard Hakluyt and Travel Writing in Early Modern Europe is an interdisciplinary collection of 24 essays which brings together leading international scholarship on Hakluyt and his work. Best known as editor of The Principal Navigations (1589; expanded 1598-1600), Hakluyt was a key figure in promoting English colonial and commercial expansion in the early modern period. He also translated major European travel texts, championed English settlement in North America, and promoted global trade and exploration via a Northeast and Northwest Passage. His work spanned every area of English activity and aspiration, from Muscovy to America, from Africa to the Near East, and India to China and Japan, providing up-to-date information and establishing an ideological framework for English rivalries with Spain, Portugal, France, and the Netherlands. This volume resituates Hakluyt in the political, economic, and intellectual context of his time. The genre of the travel collection to which he contributed emerged from Continental humanist literary culture. Hakluyt adapted this tradition for nationalistic purposes by locating a purported history of 'English' enterprise that stretched as far back as he could go in recovering antiquarian records. The essays in this collection advance the study of Hakluyt's literary and historical resources, his international connections, and his rhetorical and editorial practice. The volume is divided into 5 sections: 'Hakluyt's Contexts'; 'Early Modern Travel Writing Collections'; 'Editorial Practice'; 'Allegiances and Ideologies: Politics, Religion, Nation'; and 'Hakluyt: Rhetoric and Writing'. The volume concludes with an account of the formation and ethos of the Hakluyt Society, founded in 1846, which has continued his project to edit travel accounts of trade, exploration, and adventure.

A Taste for China-Eugenia Zuroski Jenkins 2013-05-23 'A Taste for China' offers an account of how literature of the long eighteenth century generated a model of English selfhood dependent on figures of China. It shows how various genres of writing in this period call upon 'things Chinese' to define the tasteful English subject of modernity. Chinoiserie is no mere exotic curiosity in this culture, but a potent, multivalent sign of England's participation in a cosmopolitan world order.

A Taste of Sage-Yaffa S. Santos 2020-05-19 From talented new writer, Yaffa S. Santos, comes this unforgettable, heartwarming, and hilarious rom-com about chefs, cooking, love, and self-discovery that is a cross between The Hating Game and Sweetbitter. Lumi Santana is a chef with the gift of synesthesia—she can perceive a person's emotions just by tasting their cooking. Despite being raised by a single mother who taught her that dreams and true love were silly fairy tales, she decides to take a chance and puts her heart and savings into opening a fusion restaurant in Inwood, Manhattan. The restaurant offers a mix of the Dominican cuisine she grew up with and other world cuisines that have been a source of culinary inspiration to her. When Lumi's eclectic venture fails, she is forced to take a position as a sous chef at a staid, traditional French restaurant in midtown owned by Julien Dax, a celebrated chef known for his acid tongue as well as his brilliant smile. Lumi and Julien don't get along in the kitchen—to say Lumi is irritated by Julien's smug attitude is an understatement, and she secretly vows never to taste his cooking. Little does she know that her resolve doesn't stand a chance against Julien's culinary prowess. As Julien produces one delectable dish after another, each one tempting Lumi with its overwhelming aromas and gorgeous presentations, she can no longer resist and samples one of his creations. She isn't prepared for the feelings that follow as she's overcome with intense emotions. She begins to crave his cooking throughout the day, which throws a curveball in her plan to save up enough money and move on as soon as possible. Plus, there's also the matter of Esme, Julien's receptionist who seems to always be near and watching. As the attraction between Lumi and Julien

simmers, Lumi experiences a tragedy that not only complicates her professional plans, but her love life as well... Clever, witty, and romantic, A Taste of Sage is sure to delight and entertain readers until the very last page.

On the History of Economic Thought-A. W. Bob Coats 2005-08-08 On the History of Economic Thought is introduced by an essay in intellectual autobiography outlining the development of Coats key ideas and the distinctive elements of his approach. Two themes in particular emerge. The first is the difference between British and American economics, both in content and in the practice of the profession. This is an important element in all areas of his research. The second theme is in the interrelationships between economic ideas, events (or conditions) and policy issues. The book concludes by offering an assessment of the current state of the discipline indicating the advantages an historian of economics can offer as a commentator on recent developments.

Mary Somerville and the Cultivation of Science, 1815-1840-E.C. Patterson 2012-12-06 Among the myriad of changes that took place in Great Britain in the first half of the nineteenth century, many of particular significance to the historian of science and to the social historian are discernible in that small segment of British society drawn together by a shared interest in natural phenomena and with sufficient leisure or opportunity to investigate and ponder them. This group, which never numbered more than a mere handful in comparison to the whole population, may rightly be characterized as 'scientific'. They and their successors came to occupy an increasingly important place in the intellectual, educational, and developing economic life of the nation. Well before the arrival of mid-century, natural philosophers and inventors were generally hailed as a source of national pride and of national prestige. Scientific society is a feature of nineteenth-century British life, the best being found in London, in the universities, in Edinburgh and Glasgow, and in a few scattered provincial centres.

Traveling with Philosophes-Ken Ewell 2006-08-27 Join a fellow traveler on a walkabout through Paris and London, and then travel with him across England, Scotland and Wales. After those walkabouts, accompany him as he journeys across America and follows the equator to Australia. Finally, wander with him along the corridors of modern and postmodern philosophy, and as he travels with old and new Philosophes, who all voiced an opinion as regards this travel book. It is a book that people won't buy, won't read and won't praise. Mark Twain After reading only a few pages, I gave up the study of philosophy forever. Voltaire I cannot look upon the book without shedding tears. Bertrand Russell If I could only make a travel book like that, I would be perfectly willing to die-even anxious. John Dewey I have seen a great many travel books in my time, but none that this one reminds me of. Will Durant This travel book is one-third fabrication, one-third prevarication and one-third barefaced lies. However, the rest of the book is the unadulterated truth. Dr. Morris A. Nussbaum
