A Taste of Power-Elaine Brown 2015-05-20 Elaine Brown assumed her role as the first and only female leader of the Black Panther Party with these words: "I have all the guns and all the money. I can withstand challenge from without and from within. Am I right, Comrade?" It was August 1974. From a small Oakland-based cell, the Panthers had grown to become a revolutionary national organization, mobilizing black communities and white supporters across the country—but relentlessly targeted by the police and the FBI, and increasingly riven by violence and strife within. How Brown came to a position of power over this paramilitary, male-dominated organization, and what she did with that power, is a riveting, unsparing account of self-discovery. Brown's story begins with growing up in an impoverished neighborhood in Philadelphia and attending a predominantly white school, where she first sensed what it meant to be black, female, and poor in America. She describes her political awakening during the bohemian years of her adolescence, and her time as a foot soldier for the Panthers, who seemed to hold the promise of redemption. And she tells of her ascent into the upper echelons of Panther leadership: her tumultuous relationship with the charismatic Huey Newton, who would become her lover and her nemesis; her experience with the male power rituals that would sow the seeds of the party's demise; and the scars that she both suffered and inflicted in that era's paradigm-shifting clashes of sex and power. Stunning, lyrical, and acute, this is the indelible testimony of a black woman's battle to define herself. "A glowing achievement." —Los Angeles Times "Honest, funny, subjective, unsparing, and passionate. . . A Taste of Power weaves autobiography and political history into a story that fascinates and illuminates." —The Washington Post "A stunning picture of a black woman's coming of age in America. Put it on the shelf beside The Autobiography of Malcolm X." —Kirkus Reviews From the Trade Paperback edition.

A Taste of Power-Katharina Vester 2015-10-02 "A Taste of Power is an investigation of the crucial role culinary texts and practices played in the making of cultural identities and social hierarchies since the founding of the United States. Nutritional advice and representations of food and eating, including cookbooks, literature, magazines, newspapers, still life paintings, television shows, films, and the internet, have helped throughout American history to circulate normative claims about citizenship, gender performance, sexuality, class privilege, race, and ethnicity, while promising an increase in cultural capital and social mobility to those who comply with the prescribed norms. The study examines culinary writing and practices as forces for the production of social order and, at the same time, as points of cultural resistance against hegemonic norms, especially in shaping dominant ideas of nationalism, gender, and sexuality, suggesting that eating right is a gateway to becoming an American, a good citizen, an ideal man, or a perfect mother. Cookbooks, as a low-prestige literary form, became the largely unheralded vehicles for women to participate in nation-building before they had access to the vote or public office, for middle-class authors to assert their class privileges, for men to claim superiority over women even in the kitchen, and for Lesbian authors to reinscribe themselves into the heteronormative economy of culinary culture. The book engages in close reading of a wide variety of sources and genres to uncover the intersections of food, politics, and privilege in American culture." --Provided by publisher. A Taste of Desire-Beverley Kendall 2020-03-24 Thomas Armstrong vows only the loss of his faculties could ever convince him to take Amelia Bertram under his care during her father's absence from England. Sadly, that loss does occur... the moment Lady Amelia publicly states that rumors of his exalted sexual prowess are more fable than fact. Responding like any man with an ounce of pride would, he picks up the gauntlet she threw down on the ballroom floor. After the death of her mother, Amelia Bertram is further devastated by the withdrawal of her father's love. To survive the double heartbreak, she walls off her emotions. Now, her social faux pas finds her sharing a roof with the very man who took her place in her father's affections...the man her father hopes one day to call son. In the seclusion of

his country estate, Thomas glimpses in Amelia a vulnerability buried beneath a mountain of jealousy and pain. In turn, she discovers the ton's 'golden Greek god' is more than the sum of rumor and innuendo. Soon a fire ignites between them not even a deluge from the Thames can extinguish. Can they set aside their plans—his for revenge, hers to escape—to forge a love powerful enough to surmount his pride and crumble the walls surrounding her heart? *Reissue. A Taste of Honey-Shelagh Delaney 2014-10-13 It's chaotic - a bit of love, a bit of lust and there you are. We don't ask for life, we have it thrust upon us. Written by Shelagh Delaney when she was nineteen, A Taste of Honey is one of the great defining and taboo-breaking plays of the 1950s. When her mother, Helen, runs off with a car salesman, feisty teenager Jo takes up with a black sailor who promises to marry her before he heads for the seas, leaving her pregnant and alone. Art student Geoff moves in and assumes the role of surrogate parent until misguidedly, he sends for Helen and their unconventional setup unravels. A Taste of Honey offers an explosive celebration of the vulnerabilities and strengths of the female spirit in a deprived and restless world. Bursting with energy and daring, this exhilarating and angry depiction of harsh, working-class life in post-war Salford is shot through with love and humour, and infused with jazz. The play was first presented by Theatre Workshop at the Theatre Royal Stratford, London, on 27 May 1958.

Revolutionary Suicide-Huey P. Newton 2009-09-29 The searing, visionary memoir of founding Black Panther Huey P. Newton, in a dazzling graphic package Tracing the birth of a revolutionary, Huey P. Newton's famous and oft-quoted autobiography is as much a manifesto as a portrait of the inner circle of America's Black Panther Party. From Newton's impoverished childhood on the streets of Oakland to his adolescence and struggles with the system, from his role in the Black Panthers to his solitary confinement in the Alameda County Jail, Revolutionary Suicide is unrepentant and thought-provoking in its portrayal of inspired radicalism. A Taste for Brown Bodies-Hiram Pérez 2015-10-30 Winner, LGBT Studies Lammy Award presented by Lambda Literary Neither queer theory nor queer activism has fully reckoned with the role of race in the emergence of the modern gay subject. In A Taste for Brown Bodies, Hiram Pérez traces the development of gay modernity and its continued romanticization of the brown body. Focusing in particular on three figures with elusive queer histories—the sailor, the soldier, and the cowboy—Pérez unpacks how each has been memorialized and desired for their heroic masculinity while at the same time functioning as agents for the expansion of the US borders and neocolonial zones of influence. Describing an enduring homonationalism dating to the "birth" of the homosexual in the late 19th century, Pérez considers not only how US imperialist expansion was realized, but also how it was visualized for and through gay men. By means of an analysis of literature, film, and photographs from the 19th to the 21st centuries—including Herman Melville's Billy Budd, Anne Proulx's "Brokeback Mountain," and photos of abuse at the Abu Ghraib prison—Pérez proposes that modern gay male identity, often traced to late Victorian constructions of "invert" and "homosexual," occupies not the periphery of the nation but rather a cosmopolitan position, instrumental to projects of war, colonialism, and neoliberalism. A Taste for Brown Bodies argues that practices and subjectivities that we understand historically as forms of homosexuality have been regulated and normalized as an extension of the US nation-state, laying bare the tacit, if complex, participation of gay modernity within US imperialism.

A Taste for Intrigue-Philip Short 2014-04-08 The man who changed the course of modern France In 1981, François Mitterrand became France's first popularly elected socialist president. By the time he completed his mandate, he had led the country for 14 years, longer than any other French head of state in modern times. Mitterrand mirrored France in all its imperfections and tragedies, its cowardice and glory, its weakness and its strength. In the wake of the Observatory affair (in which he orchestrated his own assassination attempt), his secretiveness and mistrust grew more pronounced, especially when details of a second family came to light; he was a mixture of "Machiavelli, Don Corleone, Casanova and the Little Prince," said his doctor. During the German occupation, Mitterrand hedged his bets by joining Petain's Vichy government. Later in 1943, under the nom de guerre of Morland (and 30 other aliases), Mitterrand quit Vichy for the Resistance and a paramilitary organization. He changed the ground rules of French social and political debate in ways more far-reaching and fundamental than any other modern leader before him, helping set the agenda for France and Europe for generations to come. Philip Short's A Taste for Intrigue will fill the gap and become the standard against which all other Mitterrand biographies are set.

Royal Taste-Ms Daniëlle De Vooght 2013-07-28 The explicit association between food and status was, academically speaking, first acknowledged on the food production level. He who owned the land, possessed the grain, he who owned the mill, had the flour, he who owned the oven, sold the bread. However, this conceptualization of power is dual; next to the obvious demonstration of power on the production level is the social significance of food consumption. Consumption of rich food—in terms of quantity and quality—was, and is, a means to show one's social status and to create or uphold power. This book is concerned with the relationship between food consumption, status and power. Contributors address the 'old top' of society, and consider the way kings and queens, emperors and dukes, nobles and aristocrats wined and dined in the rapidly changing world of the late eighteenth and nineteenth centuries, where the bourgeoisie and even the 'common people' obtained political rights, economic influence, social importance and cultural authority. The book questions the role of food consumption at courts and the significance of particular foodstuffs or ways of cooking, deals with the number of guests and their place at the table, and studies the way the courts under consideration influenced one another. Topics include the role of sherry at the court of Queen Victoria as a means of representing middle class values, the use of the truffle as a promotional gift at the Savoy court, and the influence of European culture on banqueting at the Ottoman Palace. Together the volume addresses issues of social networks, prestige, politics and diplomacy, banquets and their design, income and spending, economic aims, taste and preference, cultural innovations, social hierarchies, material culture, and many more social and cultural issues. It will provide a useful entry into food history for scholars of court culture and anyone with an interest in modern cultural history.

A Taste for China-Eugenia Zuroski Jenkins 2013-05-23 'A Taste for China' offers an account of how literature of the long eighteenth century generated a model of English selfhood dependent on figures of China. It shows how various genres of writing in this period call upon 'things Chinese' to define the tasteful English subject of modernity. Chinoiserie is no mere exotic curiosity in this culture, but a potent, multivalent sign of England's participation in a cosmopolitan world order.

The Taste of Salt-Martha Southgate 2011-09-13 Award-winning novelist Martha Southgate (who, in the words of Julia Glass, "can write fat and hot, then lush and tender, then just plain truthful and burning with heart") now tells the story of a family pushed to its limits by addiction over the course of two generations. Josie Henderson loves the water and is fulfilled by her position as the only senior-level black scientist at the Woods Hole Oceanographic Institute. In building this impressive life for herself, she has tried to shed the one thing she cannot: her family back in landlocked Cleveland. Her adored brother, Tick, was her childhood ally as they watched their drinking father push away all the love that his wife and children were trying to give him. Now Tick himself has been coming apart and demands to be heard. Weaving four voices into a beautiful tapestry, Southgate charts the lives of the Hendersons from the parents' first charmed meeting to Josie's realization that the ways of the human heart are more complex than anything seen under a microscope.

Taste of War-Lizzie Collingham 2012-03-29 A New York Times Notable Book of 2012 Food, and in particular the lack of it, was central to the experience of World War II. In this richly detailed and engaging history, Lizzie Collingham establishes how control of food and its production is crucial to total war. How were the imperial ambitions of Germany and Japan - ambitions which sowed the seeds of war - informed by a desire for self-sufficiency in food production? How was the outcome of the war affected by the decisions that the Allies and the Axis took over how to feed their troops? And how did the distinctive ideologies of the different combatant countries determine their attitudes towards those they had to feed? Tracing the interaction between food and strategy, on both the military and home fronts, this gripping, original account demonstrates how the issue of access to food was a driving force within Nazi policy and contributed to the decision to murder hundreds of thousands of 'useless eaters' in Europe. Focusing on both the winners and losers in the battle for food, The Taste of War brings to light the striking fact that war-related hunger and famine was not only caused by Nazi Germany and Imperial Japan, but was also the result of Allied mismanagement and neglect, particularly in India, Africa and China. American dominance both during and after the war was not only a result of the United States' immense industrial production but also of its abundance of food. This book traces the establishment of a global pattern of food production and distribution and shows how the war subsequently promoted the pervasive influence of American food habits and tastes in the post-war world. A work of great scope, The Taste of War connects the broad sweep of history to its intimate impact upon the lives of individuals.

The Bitter Taste of Victory-Lara Feigel 2016-05-17 When Germany surrendered in May 1945 it was a nation reduced to rubble. Immediately, America, Britain, Soviet Russia, and France set about rebuilding in their zones of occupation. Most urgent were physical needs—food, water, and sanitation—but from the start the Allies were also anxious to indoctrinate the German people in the ideas of peace and civilization. Denazification and reeducation would be key to future peace, and the arts were crucial guides to alternative, less militaristic ways of life. In an extraordinary extension of diplomacy, over the next four years, many writers, artists, actors, and filmmakers were dispatched by Britain and America to help rebuild the country their governments had spent years bombing. Ernest Hemingway, Martha Gellhorn, Marlene Dietrich, George Orwell, Lee Miller, W. H. Auden, Stephen Spender, Billy Wilder, and others undertook the challenge of reconfiguring German society. In the end, many of them became disillusioned by the contrast between the destruction they were witnessing and the cool politics of reconstruction. While they may have had less effect on Germany than Germany had on them, the experiences of these celebrated figures, never before told, offer an entirely fresh view of post-war Europe. The Bitter Taste of Victory is a brilliant and important addition to the literature of World War II.

A Taste for Language-James Ray Watkins 2009-11-02 "This is a book about the American Dream as it has become embodied in the university in general and in the English department in particular," writes James Ray Watkins at the start of *A Taste for Language: Literacy, Class, and English Studies*. In it, Watkins argues that contemporary economic and political challenges require a clear understanding of the identity of English studies, making elementary questions about literacy, language, literature, education, and class once again imperative. A personal history of university-level English studies in the twentieth century, *A Taste for Language* combines biography, autobiography, and critical analysis to explore the central role of freshman English and literary studies in the creation and maintenance of the middle class. It tells a multi-generational story of the author and his father, intertwined with close reading of texts and historical analysis. The story moves from depression-era Mississippi, where the author's father was born, to a contemporary English department, where the author now teaches. Watkins looks at not only textbooks, scholars, and the academy but also at families and other social institutions. A rich combination of biography, autobiography, and critical analysis, *A Taste for Language* questions what purpose an education in English language and literature serves in the lives of the educated in a class-based society and whether English studies has become wholly irrelevant in the twenty-first century.

Neuroenology-Gordon M. Shepherd 2016-11-22 In his new book, Gordon M. Shepherd expands on the startling discovery that the brain creates the taste of wine. This approach to understanding wine's sensory experience draws on findings in neuroscience, biomechanics, human physiology, and traditional enology. Shepherd shows, just as he did in *Neurogastronomy: How the Brain Creates Flavor and Why It Matters*, that creating the taste of wine engages more of the brain than does any other human behavior. He clearly illustrates the scientific underpinnings of this process, along the way enhancing our enjoyment of wine. *Neuroenology* is the first book on wine tasting by a neuroscientist. It begins with the movements of wine through the mouth and then consults recent research to explain the function of retronasal smell and its extraordinary power in creating wine taste. Shepherd comprehensively explains how the specific sensory pathways in the cerebral cortex create the memory of wine and how language is used to identify and imprint wine characteristics. Intended for a broad audience of readers—from amateur wine drinkers to sommeliers, from casual foodies to seasoned chefs—*Neuroenology* shows how the emotion of pleasure is the final judge of the wine experience. It includes practical tips for a scientifically informed wine tasting and closes with a delightful account of Shepherd's experience tasting classic Bordeaux vintages with French winemaker Jean-Claude Berrouet of the Chateau Petrus and Dominus Estate.

Red State Revolt-Eric Blanc 2019 "An indispensable window into the changing shape of the American working class and American politics After nearly four decades of labour quiescence, the US was hit by a wave of strikes in early 2018. Educators in Oklahoma, Arizona and beyond walked off their jobs to demand increased school funding and better pay. Confounding all expectations, these actions erupted in Republican-dominated states with weak unions, bans on public sector strikes, and electorates that voted for Trump in 2016. With similar movements now emerging in California, Colorado, North Carolina, and Massachusetts, there is no sign that this upsurge will be short-lived. *Red State Revolt* is a compelling analysis of the emergence and development of this historic strike wave written with an eye to extracting its main strategic lessons for educators, labour activists, and radicals across the country"--

Planning and Urban Change-Stephen Victor Ward 2004-03-08 Fully revised and thoroughly updated, the Second Edition of *Planning and Urban Change* provides an accessible yet richly detailed account of British urban planning. Stephen Ward demonstrates how urban planning can be understood through three categories: ideas - urban planning history as the development of theoretical approaches: from radical and utopian beginnings, to the 'new right' thinking of the 1980s, and recent interest in green thought and sustainability; policies - urban planning history as an intensely political process, the text explains the complicated relation between planning theory and political practice; and impacts - urban planning history as the divergence of expectation and outcome, each chapter shows how intended impacts have been modified by economic and social forces. This Second Edition features an entirely new chapter on the key policy changes that have occurred under the Major and Blair governments, together with a critical review of current policy trends.
