Crusader's Tomb-A J Cronin 2016-02-01 Knowing his father's profoundest wish, that his son should succeed him as Rector of Stillwater, Stephen Desmonde tried to be worthy. But the siren call of art was too overwhelming; he felt driven as though by demons to pursue his vision of the world's beauty. He must put on canvas the truth as he saw it, whatever the cost might be, whether it was the blank misunderstanding of his family or the ridicule of the public. Few artists could have survived the scandal and mockery he had to endure in the sensational trial that stirred all England. Indeed, Stephen Desmonde himself could not have survived without the tender and understanding love of the unforgettable Jenny Dill, the uneducated but strangely wise little Cockney girl whose devotion kept him going when all else failed. It was Jenny who restored his confidence in himself and his vision, and in her love he found the serenity and peace that marked his greatest creations. Crusader's Tomb, also published as A Thing of Beauty, is altogether a memorable novel, whose many characters and diverse moods are woven together with a skill and an appeal mastered by only the greatest storytellers of any age.

Thing of Beauty-Stephen Fried 2011-12-06 At age seventeen, Gia Carangi was working the counter at her father's Philadelphia luncheonette, Hoagie City. Within a year, Gia was one of the top models of the late 1970's, gracing the covers of

Cosmopolitan and Vogue, partying at New York's Studio 54 and the Mudd Club, and redefining the industry's standard of beauty. She was the darling of moguls and movie stars, royalty and rockers. Gia was also a girl in pain, desperate for her mother's approval—and a drug addict on a tragic slide toward oblivion, who started going directly from \$10,000-a-day fashion shoots to the heroin shooting galleries on New York's Lower East Side. Finally blackballed from modeling, Gia entered a vastly different world on the streets of New York and Atlantic City, and later in a rehab clinic. At twenty-six, she became one of the first women in America to die of AIDS, a hospital welfare case visited only by rehab friends and what remained of her family. Drawing on hundreds of interviews with Gia's family, lovers, friends, and colleagues, Thing of Beauty creates a poignant portrait of an unforgettable character—and a powerful narrative about beauty and sexuality, fame and objectification, mothers and daughters, love and death.

Thing of Beauty-Jackson Mac Low 2008 This landmark collection brings together poetry, performance pieces, traditional verse, prose poems, and other poetical texts from Jackson Mac Low's lifetime in art. The works span the years from 1937, beginning with Thing of Beauty, his first poem, until his death in 2004 and demonstrate his extraordinary range as well as his unquenchable enthusiasm. Mac Low is widely acknowledged as one of the major figures in twentieth-century American poetry, with much of his work ranging into the spheres of music, dance, theater, performance, and the visual arts. Comparable in stature to such giants as Robert Creeley, John Ashbery, and Allen Ginsberg, Mac

Low is often associated with composer John Cage, with whom he shared a delight in work derived from chance operations. This volume, edited by Anne Tardos, his wife and frequent collaborator, offers a balanced arrangement of early, middle, and late work, designed to convey not just the range but also the progressions and continuities of his writings and writingways.

A Thing of Beauty-Lisa Samson 2015-01-20 It's a wonder to behold what happens when love moves in . . . Former child star Fiona Hume deserted the movie biz a decade ago—right after she left rehab. She landed in Baltimore, bought a dilapidated old mansion downtown, and hatched dreams of restoring it into a masterpiece, complete with a studio for herself. She would disappear from public view and live an artist's life. That was the plan. Ten years later, Fiona's huge house is filled with junk purchased at thrift stores, haggled over at yard sales, or picked up from the side of the road. Each piece was destined for an art project . . . but all she's got so far is a piece of twine with some antique buttons threaded down its length. She's thirty-two years old and still recognizable, but Fiona's money has finally run out. She's gotten pretty desperate, too, and in her desperation she's willing to do almost anything for money. Almost. So it is that she comes to rent out the maid's quarters to a local blacksmith named Josia Yeu. Josia is everything Fiona isn't: gregarious, peaceful, in control without controlling . . . in short, happy. As the light from the maid's quarters begins to permeate the dank rooms of Fiona's world, something else begins to transform as well—something inside Fiona. Something even she can see is beautiful.

Cuts of a Diamond-Sandra Rodriguez Bicknell 2019-02-05 In *Cuts of a Diamond*, Sandra Bicknell shows women how to turn even their most heartbreaking experiences into a thing of beauty by honoring their victories with a beautiful piece of jewelry that will remind them of their triumphs. Relationships can be hard. Sometimes women feel disillusioned, like the tides have turned against them and there is no one on their side who understands what they're going through. Or maybe they ask themselves, "Why me?" or "What did I do wrong?" Women need to know that there is more to it than circumstance. In *Cuts of a Diamond*, Sandra Bicknell sets down her raw emotions and honest experiences in order to make a difference in readers' lives. She calls for women to take back authority over their life. People cannot dictate what will or will not happen to them as their life unfolds, but they can change how they look at their experiences and how they let them affect their life. In her guide, Bicknell shows women how to change their outlook on life and then invites them to honor their victory with a beautiful piece of jewelry that will continue to remind them of their triumphs.

The NES Encyclopedia-Chris Scullion 2019-03-30 The NES is one of the most iconic video game systems of all time, and is credited with 'saving' the American video games industry in the early 80s when it looked likely to collapse. The NES Encyclopedia is the first ever complete reference

guide to every game released on the Nintendo Entertainment System, Nintendo's first industry-defining video game system. As well as covering all 714 officially licensed NES games, the book also includes more than 160 unlicensed games released during its lifespan, giving for the first time a definitive history of this important console's full library. Written by a retro gaming expert with 30 years of gaming experience and a penchant for bad jokes, the NES Encyclopedia promises to be both informative and entertaining. The NES continues to enjoy a strong cult following among Nintendo fans and gamers in general with wide varieties of officially licensed merchandise proving ever popular: both for older fans who remember it the first time around, and younger gamers discovering the system for the first time through Nintendo's regular re-releases of its older games. Nintendo's most recent console, the Switch, is the fastest selling video game console of all time in the United States and Japan. Nintendo will be launching a variety of classic NES games for download on the system later in 2018, meaning a new audience of gamers is due to discover the NES for the first time.

On Beauty-Zadie Smith 2017-01-24 In this loose retelling of *Howard's End*, Zadie Smith considers the big questions: Why do we fall in love with the people we do? Why do we visit our mistakes on our children? What makes life truly beautiful? Set in New England mainly and London partly, *On Beauty* concerns a pair of feuding families—the Belseys and the Kippses—and a clutch of doomed affairs. It puts low morals among high ideals and asks some searching questions about what life does to love. For the Belseys and the Kippses, the confusions—both personal and political—of our uncertain age are about to be brought close to home: right to the heart of family.

The Beauty of Everyday Things-Soetsu Yanagi 2019-01-31 The daily lives of ordinary people are replete with objects, common things used in commonplace settings. These objects are our constant companions in life. As such, writes Soetsu Yanagi, they should be made with care and built to last, treated with respect and even affection. They should be natural and simple, sturdy and safe - the aesthetic result of wholeheartedly fulfilling utilitarian needs. They should, in short, be things of beauty. In an age of feeble and ugly machine-made things, these essays call for us to deepen and transform our relationship with the objects that surround us. Inspired by the work of the simple, humble craftsmen Yanagi encountered during his lifelong

travels through Japan and Korea, they are an earnest defence of modest, honest, handcrafted things - from traditional teacups to jars to cloth and paper. Objects like these exemplify the enduring appeal of simplicity and function: the beauty of everyday things.

Field Theories-Samiya Bashir 2017 Field Theories wends its way through quantum mechanics, chicken wings, Newport, and love, melding blackbody theory (idealized perfect absorption vs. the whitebody's idealized reflection) with live Black bodies. Woven through experimental lyrics is a heroic crown of sonnets that wonders about love, intent, identity, hybridity, and how we embody these interstices. Albert Murray said, "The second law of thermodynamics ain't nothin' but the blues." So what is the blue of how we treat each other, ourselves, and the world, and of how the world treats us?

The Most Beautiful Thing-Kao Kalia Yang 2020-10-06 A warmhearted and tender true story about a young girl finding beauty where she never thought to look. Drawn from author Kao Kalia Yang's childhood experiences as a Hmong refugee, this moving picture book portrays a family with a great deal of love and little money. Weaving together Kalia's story with that of her beloved grandmother, the book moves from the jungles of Laos to the family's early years in the United States. When Kalia becomes unhappy about having to do without and decides she wants braces to improve her smile, it is her grandmother—a woman who has just one tooth in her mouth—who helps her see that true beauty is found with those we love most. Stunning illustrations from Vietnamese illustrator Khoa Le bring this intergenerational tale to life.

The Art Instinct-Denis Dutton 2009 The Dinka have a connoisseur's appreciation of the patterns and colours of the markings on their cattle. The Japanese tea ceremony is regarded as a performance art. Some cultures produce carving but no drawing; others specialize in poetry. Yet despite the rich variety of artistic expression to be found across many cultures, we all share a deep sense of aesthetic pleasure. The need to create art of some form is found in every human society. In *The Art Instinct*, Denis Dutton explores the idea that this need has an evolutionary basis: how the feelings that we all share when we see a wonderful landscape or a beautiful sunset evolved as a useful adaptation in our hunter-gather ancestors, and have been passed on to us today, manifest in our artistic natures. Why do people indulge in displaying

their artistic skills? How can we understand artistic genius? Why do we value art, and what is it for? These questions have long been asked by scholars in the humanities and in literature, but this is the first book to consider the biological basis of this deep human need. This sparking and intelligent book looks at these deep and fundamental questions, and combines the science of evolutionary psychology with aesthetics, to shed new light on longstanding questions about the nature of art.

The Life of Things, the Love of Things-Remo Bodei 2015-04-01 From prehistoric stone tools, to machines, to computers, things have traveled a long road along with human beings. Changing with the times, places, and methods of their production, emerging from diverse histories, and enveloped in multiple layers of meaning, things embody ideas, emotions, and symbols of which we are often unaware. The meaning of "thing" is

richer than that of "object," which is something that is manipulated with indifference or according to impersonal technical procedures. Things also differ from merchandise, objects that can be sold or exchanged or seen as status symbols. Things, in the philosophical sense, are nodes of relationships with the life of others, chains of continuity among generations, bridges that connect individual and collective histories, junctions between human civilizations and nature. Things incite us to listen to reality, to make them part of ourselves, giving fresh life to an otherwise suffocating interiority. Things also reveal the hidden aspect of a "subject" in its most secret and least explored side. Things are the repositories of ideas, emotions, and symbols whose meaning we often do not understand. In an unexpected but coherent journey that includes the visions of classic philosophers from Aristotle to Husserl and from Hegel to Heidegger, along with the analysis of works of art, Bodei addresses issues such as fetishism, the memory of things, the emergence of department stores, consumerism, nostalgia for the past, the self-portraits of Rembrandt and Dutch still-lives of the seventeenth century. The more we are able to recover objects in their wealth of meanings and integrate them into our mental and emotional horizons, he argues, the broader and deeper our world becomes.

The Marvels-Brian Selznick 2015-09-15 From the Caldecott Medal-winning creator of *The Invention of Hugo Cabret* and *Wonderstruck* comes a breathtaking new voyage. In this magnificent reimagining of the form he originated, two stand-alone stories--the first in nearly 400 pages of continuous pictures, the second in prose--create a beguiling narrative puzzle. The journey begins at sea in 1766, with a boy named Billy Marvel. After surviving a shipwreck, he finds work in a London theatre. There, his family flourishes for generations as brilliant actors until 1900, when young Leontes Marvel is banished from the stage. Nearly a century later, runaway Joseph Jervis seeks refuge with an uncle in London. Albert Nightingale's strange, beautiful house, with its mysterious portraits and ghostly presences, captivates Joseph and leads him on a search for clues about the house, his family, and the past. A gripping adventure and an intriguing mystery *The Marvels* is a loving tribute to the power of story.

A Little Book of Beauty-Ruskin Bond 2018-06-10 Where does beauty live? Where should we travel to find it? Is a dawn without birdsong still beautiful? What might we see through the

branches of a cherry tree at night? Can we crave the rose if we fear its thorns? What does the heart have to do with beauty? Few writers anywhere have celebrated the beauty of the world, of all creatures great and small, as magically as Ruskin Bond has done. This little anthology brings together his own ideas and images of beauty and those of writers and thinkers he has read and liked. This pocketbook is a thing of quiet beauty.

Shannon's Way-A J Cronin 2016-02-01 Robert Shannon was a devoted scientist on the brink of a medical discovery of great importance. He had no time or inclination for women . . . or for any of the world outside his laboratory. But Jean Law had other plans for him. Strictly brought up by narrow-minded parents, confined by her hospital lectures and her dingy boarding-house, she hardly knew the fires that burned beneath her calm exterior . . . except that they burned for Robert Shannon. She knew she had to have him for herself, and, despite her family's religious beliefs , their shocked disapproval, and all she had been taught was her destiny, she was determined to fight for him. In the magnificent narrative tradition of The Citadel, The Stars Look Down and Cronin's other classic novels, Shannon's Way is a great book by a much-loved author.
