A Time To Live, A Time To Die-Jacqui Ryalls 2012-04-01 This book emerges from a heart of terror and courage, and is a poignant lesson in the power of faith. This translates into a fast moving inspirational story where lives are saved against impossible odds. The author shows the reader the tragedy of war torn Bosnia, at a time when ignorance, suspicion and fear were stirred into racial hatred, which quickly degenerated into the vicious circle of ethnic warfare. Many readers will take great comfort in the author's fortitude and marvel at her ability to see rays of hope penetrating the darkest clouds. She conveys the tragedy of Bosnia and demonstrates how, when tough love is put into action even when surrounded by pain and hatred, one can make a small contribution on the side of good. This true story offers hope to victims of violence by helping them to realise that others are prepared to make great sacrifices in order to ease their suffering and, in this case, save lives against impossible odds. It is the quality of child-like faith in God which helped the author and her husband through the darkest of hours, and which makes this such a potent story, because religion only becomes truly meaningful when it can be seen to be working in peoples lives, and making a difference.

A Time to Live-Robert Raines 1998-11-01 In A Time To Live, Robert Raines explores the spiritual and emotional dimensions of what can be the most rewarding time of life. Drawing on his experiences as an ordained minister and as director of a non-denominational retreat center focusing on issues of personal growth, Raines delineates the important passages we must all make from our middle years in the process of growing older. In an approach

that is both meditative and inspirational, drawing from a variety of backgrounds, anecdotes, and literature, Raines provides a new perspective on the aging process and its implications. To make the most of this ultimate period of life, he argues, we must each confront certain issues: waking up to mortality, embracing sorrow, savoring blessedness, re-imagining work, nurturing intimacy, seeking forgiveness, and taking on the mysterious process of exploring what is yet to be done in life with a sense of possibility and hope. For the millions of baby boomers just entering their fifties and others approaching their sixties who are determined to be aware and take advantage of the challenges they face, *A Time To Live*, is the only book to directly address their needs. Sure to be a welcome and important spiritual guide for many, it offers the possibility of fulfillment and personal satisfaction.

A Time to Live-George Pitcher 2010 A well-informed presentation of the case against assisted suicide, with reference to politics, society and medicine. This book addresses the the foundational imperative that cherishes life under all circumstances. This is about the choice of the kind of world we want to live in - a Christian heritage which is likely to be squandered. George Pitcher reaffirms the view that death is part of life: there is a long tradition of the acceptance of suffering. By contrast, the modern alternative - right to die becomes duty to die - looks utilitarian, the culling of the weak. There are worrying implications for the provision of care. We are being asked to consider the economics of suicide. Despite recent advances in palliative care there is a sad lack of investment, made

worse by this callous approach. In Oregon and Holland, where euthanasia is licensed, there has been a marked fall in palliative care. George Pitcher concludes with a strong celebration of life, in which death plays its part. He argues that this approach empowers medical staff and leads to the regeneration of pastoral care.

Nevertheless, his contact with wildlife, the changing seasons, and the natural world equaled and even surpassed Thoreau's. Hugely popular with the international

There's a big difference between being alive and knowing how to truly live. To be alive is something that happens to you. But to truly live is something you get to choose each day. As Robertson says, "When you truly learn to live the life God offers, your whole existence becomes a verb." In *Live*, Sadie Robertson inspires us to thrive in the life God gave us by making choices that will lead us into the fullness He has for us, not into the emptiness the world offers. With photography and captivating design, *Live* shows us how we can find a rich and rewarding life when we choose to wholeheartedly embrace God's ways and God's truth. Moments of decision greet everyone, sometimes on a more-than-daily basis. Some of those decisions are minor and others are life altering, but all serve as stepping-stones to peace, joy, and fullness or to disappointment and emptiness. Sadie is passionate about inspiring a generation to live in that fullness every day. The book includes material on overcoming jealousy, finding confidence, dealing with haters, waiting on God, living in the moment, discovering the power of words, and knowing how to tell the difference between what leads to life and what leads to death--so young people can make the best choices. Whether you have a long-time relationship with God or are new to faith, *Live* is a joyful encouragement to make the most of each moment, to make wise decisions, and to always seek the truth of God's Word. Filled with stories and biblical principles, *Live* celebrates what everyone has in common--the opportunity to not simply be alive but to truly live.

Minor Universe 31 is a vast story-space on the outskirts of fiction, where paradox fluctuates like the stock market, lonely sexbots beckon failed protagonists, and time travel is serious business. Every day, people get into time machines and try to do the one thing they should never do: change the past. That's where Charles Yu, time travel technician—part counselor, part gadget repair man—steps in. He helps save people from themselves. Literally. When he's not taking client calls or consoling his boss, Phil, who could really use an upgrade, Yu visits his mother (stuck in a one-hour cycle of time, she makes dinner over and over and over) and searches for his father, who invented time travel and

then vanished. Accompanied by TAMMY, an operating system with low self-esteem, and Ed, a nonexistent but ontologically valid dog, Yu sets out, and back, and beyond, in order to find the one day where he and his father can meet in memory. He learns that the key may be found in a book he got from his future self. It's called How to Live Safely in a Science Fictional Universe,

and he's the author. And somewhere inside it is the information that could help him—in fact it may even save his life. Wildly new and adventurous, Yu's debut is certain to send shock waves of wonder through literary space-time.
