Sabertooth Tiger- 2017-01-01 "Provides a revealing look at the Sabertooth Tiger through a fictional graphic novel story, accompanied by nonfiction facts and fossil record information"-- Tiger Time-Kama Einhorn 2019-10-29 Go inside Wild Animal Sanctuary in Colorado, where you will meet a tiger named Kamal, one of 500 animals who has been rescued and now lives in safety. Includes full-color photos, graphics, and maps. Meet Kamal! He's a tiger, and a resident of Wild Animal Sanctuary (WAS) in Colorado, along with 500 other big animals. Most of these animals have never lived in the wild. They've come from roadside zoos, entertainment facilities, and even people's homes! But even though a tiger can be super adorable as a baby, big (and little) tigers should never be pets. That's where WAS steps in. Since 1980, WAS has rescued and cared for lions, tigers, bears, leopards, jaguars, mountain lions, and some smaller carnivores such as wolves, bobcats, lynxes, foxes, and coyotes. There are also alpacas and horses, a few emus, several ostriches, one porcupine, one raccoon, and one camel! While it may sound amazing to be surrounded by all these incredible animals of all shapes and sizes, the animals have often come from terrible situations, and lack instincts that would keep them alive if they were able to live where they belong. They have been malnourished, declawed, not properly vetted. They don't know how to hunt, have never been able to mate (or have mated too much), and, most of all, have no trust in humans. The staff at WAS changes all of that, slowly but surely, getting animals like Kamal the tiger healthy, trusting, and safe again—and as close to wild as they can be. Tigers are very smart, loyal, and independent; Kamal was living in a dog crate with a man in a trailer, posing for pictures. It was no way for a tiger to live. Now Kamal has a habitat with tall prairie grass and a pond the size of a football field. It may not be the wild, but WAS is as close to perfect as it gets. When he's a tiger of course! This funny story is all about being who you want to be! Fatalis-Jeff Rovin 2000-06-12 The two luminescent eyes watched the long, deserted roadway from low on the gusty promontory. Moist and dark, like large oily pearls, the eyes shifted and widened almost imperceptibly at every movement a hundred feet below. They roamed among the dim lights and deep shadows, the tall waves of the sea beyond, the dark beach, the large sea animals that broke the surface in the distance, the night birds that soared and hovered above the rocks, the flat clouds, the misty raindrops, the signposts rattling in the wind. Most of these things were familiar; a few were not. But new or old, it was a world of constant movement, a world where any motion could be enemy or prey. Which was why the eyes missed nothing. Nor did the ears, which were shaped like gold tulip petals... It froze as the scent came suddenly, from the north...The black eyes were met by other black eyes and they all began to move...Quickly and silently they slid through the brush and stones...commanding the foothills simply by moving through them. The smell of the prey was different, the speed was greater than they had seen, but the size was familiar. They knew just what to do. --From Fatalis Facts about the Sabre Tooth Tiger-Lisa Strattin 2017-03-31 If you want to learn about the Sabre Tooth Tiger you will enjoy this book.Learn many interesting facts and

Sleep Like a Tiger-Mary Logue 2012 At bedtime a young girl asks "Does everything in the world go to sleep?"

The Big Miss-Hank Haney 2012-03-27 The Big Miss is Hank Haney's candid and surprisingly insightful account of his tumultuous six-year journey with Tiger Woods, during which the supremely gifted golfer collected six major championships and rewrote golf history. Hank was one of the very few people allowed behind the curtain. He was with Tiger 110 days a year, spoke to him over 200 days a year, and stayed at his home up to 30 days a year, observing him in nearly every circumstance: at tournaments, on the practice range, over meals, with his wife, Elin, and relaxing with friends. The relationship between the two men began in March 2004 when Hank received a call from Tiger in which the golf champion asked him to be his coach. It was a call that would change both men's lives. Tiger—only 28 at the time—was by then already an icon, judged by the sporting press as not only one of the best golfers ever, but possibly the best athlete ever. Already he was among the world's highest paid celebrities. There was an air of mystery surrounding him, an aura of invincibility. Unique among athletes, Tiger seemed to be able to shrug off any level of pressure and find a way to win. But Tiger was always looking to improve, and he wanted Hank's help. What Hank soon came to appreciate was that Tiger was one of the most complicated individuals he'd ever met, let alone coached. Although Hank had worked with hundreds of elite golfers and was not easily impressed, there were days watching Tiger on the range when Hank couldn't believe what he was witnessing. On those days, it was impossible to imagine another human playing golf so perfectly. And yet Tiger is human—and Hank's expert eye was adept at spotting where Tiger's perfection ended and an opportunity for improvement existed. Always haunting Tiger was his fear of “the big miss”—the wildly inaccurate golf shot that can ruin an otherwise solid round—and it was because that type of blunder was sometimes part of Tiger's game that Hank carefully redesigned his swing mechanics. Hank's most formidable coaching challenge, though, would be solving the riddle of Tiger's personality. Wary of the emotional distractions that might diminish his game and put him further from his goals, Tiger had developed a variety of tactics to keep people from getting too close, and not even Hank—or Tiger's family and friends, for that matter—was spared “the treatment.” Toward the end of Tiger and Hank's time together, the champion's laser-like focus began to blur and he became less willing to put in punishing hours practicing—a disappointment to Hank, who saw in Tiger's behavior signs that his pupil had developed a conflicted relationship with the game. Hints that Tiger hungered to reinvent himself were present in his bizarre infatuation with elite military training, and—in a development Hank didn't see coming—in the scandal that would make headlines in late 2009. It all added up to a big miss that Hank, try as he might, couldn't save Tiger from. There's never been a book about Tiger Woods that is as intimate and revealing—or one so wise about what it takes to coach a superstar athlete.

What's more, there were other sabertooths that were not cats, animals with exotic names like nimravids, barbourofelids, and thylacosmilids. Some were no taller than a domestic cat, others were larger than a lion, and some were as weird as their names suggest. Sabertooths continue to pose questions even for specialists. What did they look like? How did they use their spectacular canine teeth? And why did they finally go extinct? In this visual and intellectual treat of a book, Mauricio Antón tells their story in words and pictures, all scrupulously based on the latest scientific research. The book is a glorious wedding of science and art that celebrates the remarkable diversity of the life of the not-so-distant past.
