The Enneagram in Love and Work-Helen Palmer 2010-10-12 New from Helen Palmer, a "leading teacher and practitioner of the Enneagram" (San Francisco Chronicle), the first Enneagram book to give practical advice, in fascinating detail, on how to have the best possible relationships in love and business.

Personality Types-Don Richard Riso 1996-10-29 The Enneagram is an extraordinary framework for understanding more about ourselves. No matter from which point of view we approach it, we discover fresh conjunctions of new and old ideas." So writes Don Riso in this expanded edition of his classic interpretation of the Enneagram, the ancient psychological system used to understand the human personality. In addition to updating the descriptions of the nine personality types, Personality Types, Revised greatly expands the accompanying guidelines and, for the first time, uncovers the Core Dynamics, or Levels of Development, within each type. This skeletal system provides far more information about the inner tension and movements of the nine personalities than has previously been published. This increased specificity will allow therapists, social workers, personnel managers, students of the Enneagram, and general readers alike to use it with much greater precision as they unlock the secrets of self-understanding, and thus self-transformation.

My Best Self-Kathleen V. Hurley 1993-05-14 The authors of the popular What's My Type? break through to a dramatic new level of Enneagram work by exploring the Original -- or Hidden -- Wound and outlining the recovery of our Repressed Center -- the key to releasing our power to love ourselves, love others, and put our unique talents to work in the world. Reclaiming the Hidden Self or Repressed Center completes, heals, and integrates our personality. Through real-life examples and questions for personal or group use, the authors detail this soul-making process by which we become rounded, capable of love, and empowered to create and contribute. Hurley and Dobson explore the three centers of human intelligence -- the Intellectual, the Relational, and the Creative -- and how they operate in our lives. Each of the nine personality types prefers one center, relies on another for backup support, and represses one center altogether. The Enneagram challenge is to recover the lost resources of our personality's repressed center. Freed to be fully intellectual, creative, and relational in our living, we become able to achieve harmony, joy, love, and creativity. What Really Matters-Tony Schwartz 1996 Based on a successful journalist's five-year quest for wisdom and happiness, a soul-seeker's chronicle relates his encounters with true teachers and false gurus at a variety of retreats throughout the country. Reprint.
