La relaxation pneumo-phonique-Robert de Guardia 2015-07-20 Toute situation de stress est potentiellement génératrice de perturbations de la fonction respiratoire et, éventuellement, de la fonction vocale. Ces conditions stressantes agissent sur le mode respiratoire qui, dès qu'il est modifié, génère à son tour de l'anxiété. Le cercle vicieux est établi. De ce dérèglement à l'apparition des troubles de la voix, il n'y a qu'un pas à franchir. Mais cette respiration dégradée peut également engendrer des maux divers comme des troubles du transit intestinal, du sommeil, de la circulation sanguine, de la mémoire et d'autres dysfonctionnements plus insidieux. L'auteur a donc mis au point une technique manuelle de restauration du mode respiratoire, conçue pour pacifier la masse osseuse et corporelle et gommer les tensions musculaires. Cette pratique peut être utilisée pour lutter contre le bégaiement, prendre en charge des malades de Parkinson, des personnes atteintes d'hyperactivité, et plus largement toutes les pathologies qui génèrent un stress important. Ce travail vibratoire du thorax agit également sur la vie émotionnelle et combat les ressentis négatifs enfouis. Cet ouvrage s'adresse à ceux dont la voix est l'outil de travail, aux sportifs qui cherchent leur souffle, à ceux et celles qui pratiquent la relaxation..., mais surtout à tous ceux qui désirent réapprendre à respirer pour vivre mieux.

Prosodia Rationalis-Joshua Steele

Clinical Voice Disorders-Arnold E. Aronson 2011-01-01 Praise for the previous edition:Should be a part of every voice therapist's library.--American Journal of OtolaryngologyThe fourth edition of Clinical Voice Disorders is an up-to-date, practical reference for the management of voice disorders caused by structural and neurologic etiologies, as well as psychogenic disorders. The book provides a solid foundation for understanding the relationship between biology and clinical assessment; how neuromechanism relates to disorders; and the complex nature of behavioral voice disorders and treatment. An expanded collection of clinical case studies provides the valuable opportunity to work through real-life examples of frequently encountered problems. New to this edition is a DVD-ROM with videos that provide a window into clinical interviewing, enabling viewers to observe Dr. Aronson's techniques and approaches to therapy. Additional chapters on the DVD-ROM present the evolution and embryology of the larynx and respiratory system, covering vital respiration, respiration for speech, and the anatomy and physiology of phonation. Demonstrations of vocal fold vibratory patterns, stroboscopic examples of various pathologies, and audio samples of dysarthric voices enable clinicians to apply concepts presented in the text. Highlights: Detailed presentation of the voice examination Evidence-based approaches that guide the reader through decision making and to the confident selection of treatments and therapies New chapter presenting the special considerations for treating the professional singer In-depth coverage of the laryngeal and respiratory anatomy and physiology--topics frequently omitted in textbooks on voice disorders Nearly 200 photographs and illustrations demonstrating key concepts Ideal for students in graduate-level speech-language pathology programs and clinicians treating patients with voice disorders, this multimedia resource is indispensable for mastering the philosophy and clinical management for the full range of clinical voice pathologies.

Stuttering-Joseph Green Sheehan 1970 S. 351-415: Bibliography 1950-1970

Mister God, This is Anna-Fynn 2013-06-20 Anna was four years old when Fynn, then only 16 himself, found her wandering round London's Docklands one foggy night in the 1930s. Badly neglected and abandoned by her parents, he took her home to be cared for by his own family.

The World According to Anna-Jostein Gaarder 2015-11-12 When fifteen-year-old Anna begins receiving messages from another time, her parents take her to the doctor. But he can find nothing wrong; in fact he believes there may be some truth to what she is seeing. Anna is haunted by visions of the desolate world of 2082. She sees her great-granddaughter, Nova, roaming through wasteland with a band of survivors, after animals and plants have died out. The more Anna sees, the more she realises she must act to prevent the future in her visions becoming real. But can she act quickly enough? 'Compelling' Sunday Times

Women and Health-World Health Organization 2009 Despite considerable progress in the past decades, societies continue to fail to meet the health care needs of women at key moments of their lives, particularly in their adolescent years and in older age. These are the key findings of the WHO report Women and health: today's evidence tomorrow's agenda. WHO calls for action both within the health sector and beyond to improve the health and lives of girls and women around the world, from birth to older age. The report provides the latest and most comprehensive evidence available to date on women's specific needs and health challenges over their entire life-course. The report includes the latest global and regional figures on the health and leading causes of death in women from birth, through childhood, adolescence and adulthood, to older age.--Publisher's description.

Elements of French Grammar-C. F. L'Homond 1848

Critical Human Resource Development-Jim Stewart 2007 Focuses on organisational goals and those of other stakeholders and society at large. This book provides an insight into the potential benefits and pitfalls, expectations and concerns of advancing a critical view of HRD in practice. It is intended for lecturers, students and practitioners who are achng for a critical analysis.

The Auditory Periphery Biophysics and Physiology-Peter Dallos 2012-12-02 The Auditory Periphery: Biophysics and Physiology is an attempt to provide comprehensive and detailed information regarding biophysics and physiology in terms of the peripheral auditory system. Eight detailed chapters are presented in the book where the first and last serve as introduction and summary. The introductory chapter provides background on the anatomy and functional organization of the auditory system. The second chapter illustrates the most common experimental techniques. A whole chapter is dedicated to the discussion of the middle ear, while Chapters 4 and 5 discuss cochlear mechanisms and potentials. The topic most studied but less understood in the operation of the ear is also emphasized in the book, which is the production of distortion. The topic of feedback mechanisms and systems is also covered. This book aims to be of help to various specialists such as biophysicists, bioengineers, physiologists, otolaryngologists, and speech and hearing scientists.

Fascia: The Tensional Network of the Human Body - E-Book-Robert Schleip 2013-02-26 This book is the product of an important collaboration between clinicians of the manual therapies and scientists in several disciplines that grew out of the three recent International Fascia Research Congresses (Boston, Amsterdam, and Vancouver). The book editors, Thomas Findley MD PhD, Robert Schleip PhD, Peter Huijing PhD and Leon Chaitow DO, were major organizers of these congresses and used their extensive experience to select chapters and contributors for this book. This volume therefore brings together contributors from diverse backgrounds who share the desire to bridge the gap between theory and practice in our current knowledge of the fascia and goes beyond the 2007, 2009 and 2012 congresses to define the state-of-the-art, from both the clinical and scientific perspective. Prepared by over 100 specialists and researchers from throughout the world, Fascia: The Tensional Network of the Human Body will be ideal for all professionals who have an interest in fascia and human movement - physiotherapists, osteopathic physicians, osteopaths, chiropractors, structural integration practitioners, manual therapists, massage therapists, acupuncturists, yoga or Pilates instructors, exercise scientists and personal trainers - as well as physicians involved with musculoskeletal medicine, pain management and rehabilitation, and basic scientists working in the field. Reflects the efforts of almost 100 scientists and clinicians from throughout the world Offers comprehensive coverage ranging from anatomy and physiology, clinical conditions and associated therapies, to recently developed research techniques Explores the role of fascia as a bodywide communication system Presents the latest information available on myofascial force transmission which helps establish a scientific basis for given clinical experiences Explores the importance of fascia as a sensory organ - for example, its important proprioceptive and nociceptive functions which have implications for the generation of low back pain Describes new imaging methods which confirm the connectivity of organs and tissues Designed to organize relevant information for professionals involved in the therapeutic manipulation of the body's connective tissue matrix (fascia) as well as for scientists involved in basic science research Reflects the increasing need for information about the properties of fascia, particularly for osteopaths, massage therapists, physiotherapists and other complementary health care professionals Offers new insights on the fascial related foundations of Traditional Chinese Medicine Meridians and the fascial effects of acupuncture

Self Esteem-Germain Duclos 2001

The Feeling of what Happens-Antonio R. Damasio 1999 A new theory of consciousness and the construction of identity focuses on the body's reaction to its world, postulating that a complex relationship between body, emotion, and mind is required to configure the self. Reprint. 50,000 first printing.

Dan Tesene-Dan Tesene 2016-07-16 The drawings which compose Sketchbook Works Vol. 1 & 2 were developed through pain staking processes of organized mark making within the rigid confines of the grid. The production of these works employ traditional methods of drawing, as well as unconventional modes such as tediously mixing a vast array of custom marker colors for perfect gradients, laser engraving miniature patterns onto pages, and using destructive processes like dissolving imagery with chemical solvents. These drawing processes craft a diverse array of visual experiences derived not only from organized drawing systems, but also from mistakes and destructive actions, whose results were sources of evolution seen in this body of work.

Resuscitation of Babies at Birth-Royal College of Paediatrics and Child Health 1997-04-21 this concise book covers all aspects of neonatal resuscitation from the moment of birth to transfer to the neonatal unit. It discusses special considerations, and communication with parents and other professionals. The advice has been drawn up by a working party, giving it the authority of a distinguished body of specialists.

Lady of Light and Shadows-C. L. Wilson 2010-07-20 "I love this book." —Christine Feehan The incomparable C.L. Wilson brings her phenomenal Tairen Soul novels to Avon Books! Lady of Light and Shadows is the second book in the epic romantic adventure that combines sweeping fantasy with breathtaking paranormal romance. USA Today and New York Times bestseller C. L. Wilson continues the stirring, magical romance of Ellysetta, the woodcutter's beautiful daughter, and the tormented Fey King Rain, as darkness rises up all around them, determined to destroy their love and their world.

Language Hacking German-Benny Lewis 2017-11-14 It's true that some people spend years studying German before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of German, #LanguageHacking shows you how to learn and speak German through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in German from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Odyssey of the Voice-Jean Aitibhol 2006 Renowned French otolaryngologist Jean Aitibhol, a lifetime student of the human voice, takes readers on an unforgettable odyssey spanning man's first use of voice through the acquisition of language to the use of voice as an expression of self. With great wit and charm, Dr. Aitibhol's narrative encompasses everything from the psychological to the physiological, from explaining the workings of the voice to celebrating the human voice's highest achievements. He describes a fascinating history of the voice, its origins, its course since the Homo Sapiens' first sentences, its episodes of hoarseness, and its achievements, from the newborn cry to the coloratura soprano, from the impersonator to the ventriloquist. After exploring what is known about the voice, Dr. Aitibhol tells us what our voices are capable of. He examines what he describes as "the magic of the voice": the voice as a fingerprint, a reflection of our personality in expressing our sex and sexuality. A great portion of this odyssey is devoted to singing and singers, both to the complexity of singing in general and to lyrical singing, the intricacies of which requires participation of the mechanical, emotional, and cerebral systems. The mystery of the voice unfold as Dr. Aitibhol guides readers through the latest physiological and pathological research using examples of historical figures', patients', and celebrities' voices to explain how the ways in which the body moves affect the way the voice sounds and how vocal quality is unique to each human being. A unique tour de force of the human vocal instrument, Odyssey of the Voice changes the way we think about our voices.

Lady Fiasco-Kathleen Baldwin 2004 When a battle-weary lord becomes reacquainted with a mischievous mixn from his childhood, he finds himself falling in love. Original.

Forecasting the Environmental Fate and Effects of Chemicals-Philip S. Rainbow 2001-05-25 Forecasting the Environmental Fate and Effects of Chemicals is the first book to address specifically the issue of forecasting in environmental toxicology and chemistry from a methodological, regulatory and practical perspective. It is becoming increasingly important for environmental toxicologists and chemists to be able to forecast the fate and effects of chemicals by using existing information to predict the future. Providing a unique and timely opportunity for active researchers and students to obtain in a single volume the 'state of the art' in this expanding field, this text discusses how forecasts can be made by: * using ecotoxicological endpoints at different levels of biological organisation * measuring and modelling chemical fate in biotic and abiotic environments * adopting difference quantitative frameworks Written by an international team of scientists, this text will be essential reading for postgraduate and advance undergraduate students studying ecotoxicology, toxicology, chemistry and environmental statistics aswell as industrial and academic research scientists in environmental toxicology, environmental chemistry and those involved in risk management.

Language Hacking French-Benny Lewis 2017-03-28 It's true that some people spend years studying French before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of French, #LanguageHacking shows you how to learn and speak French through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. You don't need to go abroad to learn a language any more.

Landscapes-John Berger 2018-11-06 A major new work from the world's leading writer on art Landscapes, the companion volume to John Berger's highly acclaimed Portraits, explores what art tells us about ourselves. "Berger's work is an invitation to reimagine; to see in different ways," writes Tom Overton in the introduction to this volume. As a master storyteller and thinker John Berger challenges readers to rethink their every assumption about the role of creativity in our lives. In this brilliant collection of diverse pieces--essays, short stories, poems, translations--which spans a lifetime's engagement with art, John Berger reveals how he came to his own unique way of seeing. He pays homage to the writers and thinkers who influenced him, such as Walter Benjamin, Rosa Luxemburg and Bertolt Brecht. His expansive perspective takes in artistic movements and individual artists--from the Renaissance to the present--while never neglecting the social and political context of their creation. Berger pushes at the limits of art writing, demonstrating beautifully how his artist's eye makes him a storyteller in these essays, rather than a critic. With "landscape" as an animating, liberating metaphor rather than a rigid definition, this collection surveys the aesthetic landscapes that have informed, challenged and nourished John Berger's understanding of the world. Landscapes--alongside Portraits--completes a tour through the history of art that will be an intellectual benchmark for many years to come.

Landscape Art Quilts, Step by Step-Ann Loveless 2015-02-01 Ann Loveless shares her time-tested method for creating one-of-a-kind art quilts based on your favorite landscape photographs. With step-by-step instructions, she shows you her free-form method of cutting and placing fabrics on fusible web and finishing with free-motion machine quilting.

From Genomes to Proteome-Michael J. Dunn 2008-11-21 As research on the human, animal, plant and microbial genomes matures towards descriptive fullness, the need for understanding the proteome has clearly emerged as the next major endeavor of life sciences. Proteomics - the quantitative analysis of all proteins working in a cell at a specific time and at specific conditions - provides deep insight into the highly organized network of expression, modification and degradation of proteins. Compiled in this book are reviews and research articles which describe the recent advances and perspectives of this new field of research. The articles are grouped into the following sections: - Sample Preparation and Solubilization - Developments in Electrophoresis - Detection and Quantitation - Mass Spectrometry - Proteome Data Analysis and Management - Prokayotes and Yeast - Biological Fluids - Eukaryotic Cells and Tissue - Oncology - Plants Proteomics is a new key for the functional analysis of living systems and of equal importance for basic as well as application oriented research.

Lady's Choice-Ethel Waxham 1993 A rich portrait of a woman's life in the American West of the early 1900s--a love story that reads like a novel.

Encyclopedia Brown, Super Sleuth-Donald J. Sobol 2009 Idaville's secret weapon against lawbreakers, ten-year-old Leroy "Encyclopedia" Brown, helps the police force solve ten new cases, the solutions to which are found in the back of the book. Outfoxed-Rita Mae Brown 2005-07-26 From the bestselling author of the landmark work Rubyfruit Jungle comes an engaging, original new novel that only Rita Mae Brown could have written. In the pristine world of Virginia foxhunting, hunters, horses, hounds, and foxes form a lively community of conflicting loyalties, where the thrill of the chase and the intricacies of human-animal relationships are experienced firsthand--and murder exposes a proud Southern community's unsavory secrets. . . . As Master of the prestigious Jefferson Hunt Club, Jane Arnold, known as Sister, is the most revered citizen in the Virginia Blue Ridge Mountain town where a rigid code of social conduct and deep-seated tradition carry more weight than money. Nearing seventy, Sister now must select a joint master to ensure a smooth transition of leadership after her death. It is an honor of the highest order--and one that any serious social climber would covet like the Holy Grail. Virginian to the bone with a solid foxhunting history, Fontaine Buruss is an obvious candidate, but his penchant for philandering and squandering money has earned him a less than sparkling reputation. And not even Sister knows about his latest lawdry scandal. Then there is Crawford Howard, a Yankee in a small town where Rebel bloodlines are sacred. Still, Crawford has money--lots of it--and as Sister is well aware, maintaining a first-class hunt club is far from cheap. With the competition flaring up, Southern gentility flies out the window. Fontaine and Crawford will stop at nothing to discredit each other. Soon the entire town is pulled into a rivalry that is spiraling dangerously out of control. Even the animals have strong opinions, and only Sister is able to maintain objectivity. But when opening hunt day ends in murder, she, too, is stunned. Who was bold and skilled enough to commit murder on the field? It could only be someone who knew both the territory and the complex nature of the hunt inside out. Sister knows of three people who qualify--and only she, with the help of a few clever foxes and hounds, can lay the trap to catch the killer. A colorful foray into an intriguing world, Outfoxed features a captivating cast of Southerners and their unforgettable animal counterparts. Rita Mae Brown has written a masterful novel that surprises, delights, and enchants. From the Hardcover edition.

Believe in the Sign-Mark Hodgkinson 2006 'Believe in the Sign' is a 'sort of' memoir of a normal, average boy who would have grown up happily average and normal but for a dark and perverse passion: the seductive lure of masochistic devotion to a no-hope, near-derelict football club.

Food Additives-A. Larry Branen 2001-11-01 Offering over 2000 useful references and more than 200 helpful tables, equations, drawings, and photographs, this book presents research on food phosphates, commercial starches, antibrowning agents, essential fatty acids, and fat substitutes, as well as studies on consumer perceptions of food additives. With contributions from nearly 50 leading international authorities, the Second Edition of Food Additives details food additives for special diets, food safety, contemporary studies on the role of food additives in learning, sleep, and behavioral problems in children, safety and regulatory requirements in the U.S. and the European Union, and methods to determine hypersensitivity.

Theatrical Performance and the Forensic Turn-James Frieze 2019-04-09 Contemporary theatre, like so much of contemporary life, is obsessed with the ways of which information is detected, packaged and circulated. Running through forms as diverse as neo-naturalistic playwrighting, intimately immersive theatre, verbatim drama, intermedial performance, and musical theatre, a common thread can be observed: theatre-makers have moved away from assertions of what is true and focussed on questions about how truth is framed. Commentators in various disciplines, including education, fine art, journalism, medicine, cultural studies, and law, have identified a 'forensic turn' in culture. The crucial role played by theatrical and performative techniques in fuelling this forensic turn has frequently been mentioned but never examined in detail. Political and poetic. Theatrical Performance and the Forensic Turn' is the first account of the relationship between theatrical and forensic aesthetics. Exploring a rich variety of works that interrogate and resist the forensic turn, this is a must-read not only for scholars of theatre and performance but also of culture across the arts, sciences and social sciences.

Representing Jihad-Jacqueline O'Rourke 2012-08-09 The jihad has been at the centre of the West's securitization discourse for more than a decade. Theorists constantly use the jihadist as a discursive tool to further their neoliberal, military and market agendas, perpetuating massive gaps of understanding between 'the West', Muslims and jihadistists themselves. They are helped by Muslim interlocutors, who all too often play the role of 'good' Muslims explaining the motifs of the 'bad' Muslims. This timely book argues that Muslim theory and fiction has been significantly commodified to cater to the needs of western ideology. It skillfully critiques the ideological contradictions of the debate around the jihadist by offering a comprehensive analysis of Muslim and non-Muslim cultural critics. Ranging from Edward Said to Slavoj Zizek, from Don DeLillo to Orhan Pamuk and from Mohammed Siddique Khan to Osama bin Laden, this vastly heterogeneous discourse produces a multi-dimensional Muslim response. O'Rourke examines some of its critical fault lines in postcolonial theory and literary analysis. This groundbreaking book argues that the temptation to appropriate the figure of the jihadist offers a fertile area from which to launch a discussion about the limits of current theory.

Bzrk Apocalypse-Michael Grant 2016-08 Noah and Sadie struggle to hold onto their sanity and each other while preparing for an ultimate showdown to save the world from being destroyed by an invisible apocalypse.

MESSAGES FROM AFGHANISTAN-Nancy Lachapelle 2009-11-25 Fifty-one years old and off to war, what woman dreams of spending her golden years in heavy body armor carrying an M-4 rifle? Reive the experience of one Air Force nurse's service in a foreign land in MESSAGES FROM AFGHANISTAN, a collection of correspondence on culture, war, and struggle authored by Nancy Lachapelle. This book is a compilation of emails sent to family and friends chronicling her service in Afghanistan--her participation in the effort to win the war on terror by winning the hearts and minds of the people. You will enjoy a unique first hand perspective of day-to-day survival as Lachapelle recounts with wisdom and humor the trials and tribulations of her new Afghan friends' quest for peace and safety for themselves and their children. You will come to understand the similarities of people everywhere and to appreciate the deep love and dedication the Afghan people have for their country. Through this book, Lachapelle shares her appreciation for the loyalty, generosity, and intelligent nature of the Afghan people, which thrived despite the despair that their nation has endured for over thirty years at war.

Return of the Untamed Billionaire-Carol Marinelli 2016-06-01 An explosive reunion! Every night, prima ballerina Anya Ilyushin dances for Roman Zverev—the man who once captured her heart, before shattering it. Anya has buried the fragments behind an impenetrable wall, but when Roman saunters into her dressing room, their fierce attraction is rekindled... Beneath Roman's wealth and sophistication lies an untamed wildness—there's nothing civilized about what he feels for Anya! He left before their longing could consume them both, but memories were branded onto his soul. Now he's back and determined to make Anya his own!

The Presidency of the United States-David Heath 2000-08 Discusses the establishment of the presidency, the system of checks and balances it helps maintain, the duties of the president and more.

The Greek Claims His Shock Heir-Lynne Graham 2019-02-01 The billionaire's discovered her secret... She's had his son! After learning of tycoon Eros Nevraakis's betrayal, personal chef Winnie Mardas walks out of his life, determined to never look back--or reveal the child she's carrying... A year later, she's shocked when Eros arrives to legitimize his heir! Swept away to his lavish Mediterranean villa, Winnie is overwhelmed by the fire still burning between them. But can she accept her new role as his convenient wife? Lose yourself in this dramatic secret baby story!

Rylin's Fire-Michelle Howard 2016-03-16 Rylin thought he'd lost everything when his mate left him to bond with another. Then in a surprising twist of fate he inherited the mantle of leadership. Now Rylin rules the Black Dracol but it's a lonely life. With hopes of finding another mate, he attends a mating party and finds the fates aren't done with him yet. An Earth woman captures his heart with one flash of her endearing smile and the open ability to laugh at herself. Not one single Dracol man had approached Dara Fletcher and the few she made eye contact with rushed away. About to count her time a total lost, Dara stumbles into a handsome Dracol who sweeps her off her feet. Literally. Dragon shifter, earth woman and alien hero, sci fi romance, paranormal romance

Rogue Hunter-John R. Monteith 2016-02-14 Book 8 of the Rogue Submarine Series. Rogue Avenger ('05), Rogue Betrayer ('07), Rogue Crusader ('10), Rogue Defender ('13), Rogue Enforcer ('14), Rogue Fortress ('15), Rogue Goliath ('15), Rogue Hunter ('16). A nation under siege... It's been more than four years since the annexation of Crimea and UN has decided to take covert military action to loosen the stranglehold of the Russian invaders. The targets are a strategic bridge and underwater pipelines which supply the occupied peninsula with natural gas, electrical power, and telecommunications from mainland Russia. If these critical lifelines can be severed, Ukrainian resistance fighters might have a chance at reclaiming independence. To make this possible, former U.S. naval officer Jake Slate and international arms dealer Pierre Renard must wage a clandestine war against the Russian navy. Their enemies are aided by weaponized dolphins, who know the ocean environment far better than any human possibly can. If this is not a suicide mission, it's pretty damned close...

Reiki from a to Z-Angie Webster 2016-10-17 The book you're about to read is a lighthouse, a beacon designed to help us evolve on our Reiki path. Angie's articles are true step-stones on the Reiki spiritual journey. With each story, our understanding of how we can deepen our Reiki practice grows to new levels. Angie's wisdom and experience are a true and reliable compass on our spiritual path. As a writer, Angie has contributed hundreds of articles and stories to Reiki Rays and other publications, both online and on paper. This book is a compilation of Angie's most appreciated articles, arranged in a way that flows naturally and makes for an easy and inspiring read. With each new lecture, you will discover new gems of wisdom which will help you get closer to the peaceful joy we are all meant to live in. To fully understand and to be able to apply some of the techniques described in this book, the reader should already be introduced to the healing magic of Reiki.

Wanted By The Werewolf Prince-Kara Lockharte 2017-10-18 Prince Ral of the House of Nightclaw, Duke of Some Random Planet, Lord Master Stud may be the handsomest prince in the universe. But that doesn't mean he can tell me what to do.

La Relaxation Pneumo Phonique Technique Manuelle De Restauration De La Respiration Confiante
