The Public Image of Eastern Orthodoxy-Heather L. Bailey 2020-06-15 Focusing on the period between the revolutions of 1848-1849 and the First Vatican Council (1869-1870), The Public Image of Eastern Orthodoxy explores the circumstances under which westerners, concerned about the fate of the papacy, the Ottoman Empire, Poland, and Russian imperial power, began to conflate the Russian Orthodox Church with the state and to portray the Church as the political tool of despotic tsars. As Heather L. Bailey demonstrates, in response to this reductionist view, Russian Orthodox publicists launched a public relations campaign in the West, especially in France, in the 1850s and 1860s. The linchpin of their campaign was the building of the impressive Saint Alexander Nevsky Church in Paris, consecrated in 1861. Bailey posits that, as the embodiment of the belief that Russia had a great historical purpose imextricably tied to Orthodoxy, the Paris church both reflected and contributed to the rise of religious nationalism in Russia that followed the Crimean War. At the same time, the confrontation with westerners' negative ideas about the Eastern Church fueled a reformist spirit in Russia while contributing to a better understanding of Eastern Orthodoxy in the West.
A New French and English Dictionary-Jean Louis de Lolme 1903
Ulster County, New York Probate Records-Gustave Anjou 2009-06-01 The core of the book consists of the contents of nearly 100 Bibles arranged alphabetically according to the surname of the book's owner, and, thereunder, in progressions of marriages, births, and deaths. In all, more than 1,000 mostly 18th- and 19th-century inhabitants of Suffolk and Nansmond are here rescued from obscurity and further made accessible in the index to Bible records at the back.

Articulating Bodies-Kylee-Anne Hingston 2019-09-30 Articulating Bodies investigates the contemporaneous developments of Victorian fiction and disability's medicalization by focusing on the intersection between narrative form and body. The book examines texts from across the century, from Frederic Shoberl's 1833

English translation of Victor Hugo's Notre-Dame de Paris to Arthur Conan Doyle's Sherlock Holmes story "The Adventure of the Crooked Man" (1893), covering genres that typically relied upon disabled or diseased characters. By tracing the patterns of focalization and narrative structure across six decades of the nineteenth century and across six genres, Articulating Bodies demonstrates that throughout the Victorian era, authors of fiction used narrative form as well as narrative theme to negotiate how to categorize bodies, both constructing and questioning the boundary dividing normalcy from abnormality. As fiction's form developed from the massive hybrid novels of the early decades of the nineteenth century to the case-study length of fin-de-siècle mysteries, disability became increasingly medicalized, moving from the position of spectacle to specimen.
