Re-Reading Zola and Worldwide Naturalism-Carolyn Snipes-Hoyt 2013-07-26 Re-Reading Zola and Worldwide Naturalism continues the discussion of Émile Zola and French naturalism with examinations of unexplored areas of the founding father's project and legacy. In addition to offering essays on Zola's lesser known naturalist contemporaries, the volume extends the investigation of the naturalist literary current to include areas of Europe outside France, as well as the Americas and Asia, tracking its persistence in various forms through the twentieth century and into the twenty-first. The authors pay particular attention to the ways naturalism was conceived and then received, including in other channels, undergoing transformations in new social conditions and creating other versions of the basic precepts. This work features multidisciplinary and comparative approaches to the study of naturalism, paying tribute to Anna Gural-Migdal—a Professor of French Literature and Film Studies at the University of Alberta, in Canada, who specializes in the visual aspect of Zola's Rougon Macquart novels and the transfer of these strategies to naturalist film. She has been a leader in the field of Zola and naturalism in her role as president of the AIZEN for almost fifteen of its twenty years of existence.

From Multiculturalism to Democratic Discrimination-Alberto Spektorowski 2020-12-10 The effect of Islam on Western Europe has been profound. Spektorowski and Elfersy argue that it has transformed European democratic values by inspiring an ultra-liberalism that now faces an ultra-conservative backlash. Questions of what to do about Muslim immigration, how to deal with burqas, how to deal with gender politics, have all been influenced by western democracies' grappling with ideas of inclusion and most recently, exclusion. This book examines those forces and ultimately sees, not an unbridgeable gap, but a future in which Islam and European democracies are compatible, rich, and evolving.

Dictionnaire du Paris disparu-Alfred Fierro 1998 L'a-t-on assez entendu : Paris, confinée dans son rôle de ville-musée, serait plus soucieuse de la préservation de son passé que d'accéder au rang de capitale moderne. Cette timidité a-t-elle toujours valu pour l'architecture ? La longue liste des édifices et des sites rayés de la carte - la plupart oubliés - permet d'en douter. Pour s'en tenir aux phases de destruction massive - un phénomène relativement récent, concentré sur quelque deux siècles et demi - force est de constater qu'au moins quatre vagues ont emporté des pans entiers de la ville. - C'est d'abord la fièvre bâtisseuse du milieu du XVIIIe siècle dans un tissu urbain déjà dense, ne laissant guère d'autre choix que le sacrifice de nombreux édifices du Moyen Age, des XVe et XVIIe siècles : un tiers de la capitale change de visage. - La Révolution dépose le roi, pas la pioche. Mais le vandalisme dont les hommes de 1789 sont communément crédités fut, plus certainement, celui d'une bourgeoisie spéculatrice, lotissant à tour de bras les anciens domaines religieux. - Autre " temps fort " avec Haussmann dont le grand remodelage ampute le cœur de Paris du sixième de ses immeubles et fait table rase des deux tiers de sa périphérie. - Nouvel assaut, le dernier en date, à partir des années soixante ; un urbanisme sans style ni unité efface 30% du bâti qui lui préexistait. Ce Dictionnaire du Paris disparu, illustré de plus de deux cents documents, recense environ 4 500 sites et monuments, des menhirs préhistoriques aux édifices démolis récemment. Ces fantômes de Paris, doubles immatériels de la ville actuelle, en constituent aussi le socle.
