L'averroisme Et Le Roman de la Rose de Jean de Meung- 2011 <p>L'orf?vrierie alg?rienne et tunisienne-Paul Eudel 1902 L'orf?vrierie alg?rienne et tunisienne. Chaucer and the Roman de la Rose-Dean Spruill Fansler 1914 <p>New and Selected Poems-Yves Bonnefoy 1995-12-18 Yves Bonnefoy, celebrated translator and critic, is widely considered the most important and influential French poet since World War II. Named to the College de France in 1981 to fill the chair left vacant by the death of Roland Barthes, Bonnefoy was the first poet honored in this way since Paul Valery. Winner of many awards, including the Prix Goncourt in 1987 and the Hudson Review's Bennett Award in 1988, he is the author of six critically acclaimed books of poetry. Spanning four decades and drawing on all of Bonnefoy's major collections, this selection provides a comprehensive overview of and an ideal introduction to his work. The elegant translations, many of them new, are presented in this dual-language edition alongside the original French. Several significant works appear here in English for the first time, among them, in its entirety, Bonnefoy's 1991 book of verse, The Beginning and the End of the Snow, the 1988 prose poem Where the Arrow Falls, and an important long poem from 1993, "Wind and Smoke." Together with poems from such classic volumes as "In the Lure of the Threshold", these new works shed light on the growth as well as the continuity of Bonnefoy's work. John Naughton's detailed introduction looks at the evolution of Bonnefoy's poetry from the 1953 publication of "On the Motion and Immobility of Douve", which immediately established his reputation as one of France's leading poets, through the 1993 publication of The Wandering Life and its centerpiece "Wind and Smoke." "This is a comprehensive selection that contains examples of work spanning [Bonnefoy's] full career of forty years, from the ground-breaking "Du Mouvement et de l'Immobilit� de Douve" through the celebratory "Pierre Ecrite" to the magical winter landscapes of America's East Coast and an unsettling reworking of myth in the recent "La Vie Errante" . . . The translations, which are the work of a variety of hands, including Galway Kinnell, Emily Grosholz and Anthony Rudolf, nevertheless fit well together and all are sensitive to the register and subtleties of both languages, while the introductory essay by John Naughton expertly explains Bonnefoy's importance as a poet and the influences which have shaped him. This is definitely a volume worth having, for layman and French specialist alike."—Hilary Davies, Times Literary Supplement "Anyone not familiar with Bonnefoy's work will benefit from the background information and explanations given by John Naughton in his excellent introduction The book as a whole provides an excellent introduction to Bonnefoy's poetry and to his concerns of a lifetime."—Don Rodgers, Poetry Wales Mediaeval Antiquity-Andries Welkenhuyesen 1995 Papers read to the colloquium which was organized from 28 to 30 May 1990 at the Katholieke Universiteit Leuven. Gusick 2011-03-01 Annual collection on diverse aspects of the fifteenth century, with an emphasis on manuscripts and manuscript culture. Poems of Cupid, God of Love-Thelma S. Fenster 1990 The lightheartedness of these works both masks and enhances their engagement with provocative issues of continuing interest today: conduct in society, literary practice and moral praxis, relations between men and women, the value of received wisdom. This volume offers texts of two medieval French poems by Christine de Pizan: the "Epistre au dieu d'amours" and "Dit de la Rose," together with the first translation of these poems into modern English. The medieval English adaptation of Christine's "Epistre," Thomas Hoccleve's "The Letter of Cupid," is likewise presented here, and provided with a modern English translation. Finally, an eighteenth-century version of Hoccleve's poem, George Sewell's "The Proclamation of Cupid," is edited here for the first time. The editions of these poems by Christine, last edited a century ago, are based on the most recent scholarly findings. The edition of Hoccleve's poem reproduces its authorial punctuation from manuscript for the first time, and thus sheds light on the vexed question of fifteenth- century English metrics. The lively modern English translations of both can be used by students, scholars, and the general reader. Knowing Poetry-Adrian Armstrong 2011-05-15 In the later Middle Ages, many writers claimed that prose is superior to verse as a vehicle of knowledge because it presents the truth in an unvarnished form, without the distortions of meter and rhyme. Beginning in the thirteenth century, works of verse narrative from the early Middle Ages were recast in prose, as if prose had become the literary norm. Instead of dying out, however, verse took on new vitality. In France verse texts were produced, in both French and Occitan, with the explicit intention of transmitting encyclopedic, political, philosophical, moral, historical, and other forms of knowledge. In Knowing Poetry, Adrian Armstrong and Sarah Kay explore why and how verse continued to be used to transmit and shape knowledge in France. They cover the period between Jean de Meun's Roman de la rose (c. 1270) and the major work of Jean Bouchet, the last of the grands rh�toriqueurs (c. 1530). The authors find that the advent of prose led to a new relationship between poetry and knowledge in which poetry serves as a medium for serious reflection and self-reflection on subjectivity, embodiment, and time. They propose that three major works—the Roman de la rose, the Ovide moralis�, and Boethius' Consolation of Philosophy—form a single influential matrix linking poetry and intellectual inquiry, metaphysical insights, and eroticized knowledge. The trio of thought-world-contingency, poetically represented by Philosophy, Nature, and Fortune, grounds poetic exploration of reality, poetry, and community. Yeats ; a variorum edition-William Butler Yeats 1981 RACAR, Revue D'art Canadienne- 1985 Visions/revisions-Nigel Harkness 2003 Selected from papers given at the first annual conference of the Society of Dix-Neuvi�mistes, the nineteen essays in this volume contribute diversely towards a revision and a reconceptualisation of nineteenth-century France. Many adopt interdisciplinary methodologies attentive to the interplay between literature, history, art, popular and high culture, politics and science. The wide-ranging discussion of issues such as identity, alterity, commemoration, cultural history, tensions between centre and margins, mimesis and representation, suggest that no simplistic snapshot of this century is possible. Opening with a section on the modernity of the nineteenth century, the volume continues with sections on cultural transfer, war, readings and re-readings, and concludes with two essays on questions of identity. The critical reappraisals put forward here offer us various insights into directions in which nineteenth-century French studies are heading at the turn of another new century. modern critics, who have viewed its many interruptions and philosophical discussions as signs of a lack of formal organization and a characteristically medieval predilection for encyclopedic summation. In Fortune's Faces, Daniel Heller-Roazen calls into question these assessments, offering a new and compelling interpretation of the romance as a carefully constructed and far-reaching exploration of the place of fortune, chance, and contingency in literary writing. Situating the Romance of the Rose at the intersection of medieval literature and philosophy, Heller-Roazen shows how the thirteenth-century work invokes and radicalizes two classical and medieval traditions of reflection on language and contingency: that of the Provençal, French, and Italian love poets, who sought to compose their "verses of pure nothing" in a language Dante defined as "without grammar," and that of Aristotle's discussion of "future contingents" as it was received and refined in the logic, physics, theology, and epistemology of Boethius, Abelard, Albert the Great, and Thomas Aquinas.Through a close analysis of the poetic text and a detailed reconstruction of the logical and metaphysical concept of contingency, Fortune's Faces charts the transformations that literary structures (such as subjectivity, autobiography, prosopopeia, allegory, and self-reference) undergo in a work that defines itself as radically contingent. Considered in its full poetic and philosophical dimensions, the Romance of the Rose thus acquires an altogether new significance in the history of literature: it appears as a work that incessantly explores its own capacity to be other than it is. Correspondance Des Directeurs de L'Academie de France a Rome-Accademia di Francia (Rome, Italy) 1904 Christine de Pizan and the Moral Defence of Women-Rosalind Brown-Grant 1999 The first book-length study of a seminal 'feminist' text from the Middle Ages. P.H.M.-Revue Horticole- 1989 Catalogue of Foreign Literature-San Francisco Public Library 1898 Literary Figures in French Drama (1784-1834)-Eric H. Kadler 2012-12-06 The general aim of this book is to present a study of a dramatic genre which was a significant facet of French drama in the period from 1784 to 1834 and has never before been singled out or analyzed. The striking feature of the plays of this genre is that the protagonists represent French literary figures. A casual examination of a collection of late eighteenth-and early nineteenth-century plays, many of which concern literary figures, led to the initial idea for this study. Conscientious cross-checking was sub sequently done in a number of reference works and contemporary newspapers to obtain complete coverage and to draw up a list of all the plays in which French literary figures appeared as characters. From the total number of such plays, 153 have been used as the primary source of information. They were found scattered either in different collections or as separate copies in various libraries. This source has been supplemented by use of theatrical journals and almanacs giving reviews of some of the plays which were not published. Le Sac de Pierre- 2011 R�pertoire Des Combats Franco-anglais de la Guerre de Cent Ans (1337-1453)-Jean-Claude Castex 2012 The Lily and the Thistle-William Calin 2013-12-31 In The Lily and the Thistle, William Calin argues for a reconsideration of the French impact on medieval and renaissance Scottish literature. Calin proposes that much of traditional, medieval, and early modern Scottish culture, thought to be native to Scotland or primarily from England, is in fact strikingly international and European. By situating Scottish works in a broad intertextual context, Calin reveals which French genres and modes were most popular in Scotland and why. The Lily and the Thistle provides appraisals of medieval narrative texts in the high courtly mode (equivalent to the French "dits amoureux"); comic, didactic, and satirical texts; and Scots romance. Special attention is accorded to texts composed originally in French such as the Arthurian "Roman de Fergus," as well as to the lyrics of Mary Queen of Scots and little known writers from the French and Scottish canons. By considering both medieval and renaissance works, Calin is able to observe shifts in taste and French influence over the centuries. Skepticism and Political Thought in the Seventeenth and Eighteenth Centuries-John Christian Laursen 2015-02-26 In this collection, thirteen distinguished contributors examine the influence of the ancient skeptical philosophy of Pyrrho of Elis and Sextus Empiricus on early modern political thought. Classical skepticism argues that in the absence of certainty one must either suspend judgment and live by habit or act on the basis of probability rather than certainty. In either case, one must reject dogmatic confidence in politics and philosophy. Surveying the use of skepticism in works by Hobbes, Descartes, Hume, Smith, and Kant, among others, the essays in Skepticism and Political Thought in the Seventeenth and Eighteenth Centuries demonstrate the pervasive impact of skepticism on the intellectual landscape of early modern Europe. This volume is not just an authoritative account of skepticism's importance from the Enlightenment to the French Revolution, it is also the basis for understanding skepticism's continuing political implications.
