Escape from the Iris Village-J.C.R. Forehand 2008-12-10 This work is broken into my life phases. The first is my very early life in Chillicothe, Texas through high school in Colorado City, Texas. The second includes my time in the U.S Marine Corps when I met my wife Sally. The third is a period at Texas A&M University while Sally and I were raising a family. The fourth and last phase covers more recent adventures. I did not start writing poetry until after Jack Turner's funeral in Phoenix, Arizona, so all of the poems are memories of events and times.

When Weakness Becomes Strength-Laura Russell Simpson 2016-04-11 And He said unto me, My grace is sufficient for thee: for My strength is made perfect in weakness. Most gladly therefore will I rather glory in my infirmities, that the power of Christ may rest upon me. Therefore I take pleasure in my infirmities, in reproaches, in necessities, in persecutions, in distresses for Christs sake: for when I am weak, then I am strong. 2 Corinthians 12:910 It is through many years of personal experiences, struggles, and sufferings that God has brought forth this collection of writings. These are His words, not mine. Our sufferings are never wasted. Our weaknesses do become our strengths through His help. My prayer is that His words will encourage you, that He will reveal to you the times of weakness that made you strong, that you will see His presence with you as He carries you from your weaknesses to strength. May you experience His faithfulness to His words in 2 Corinthians 12:910.

Mapping the Edge-Sarah Dunant 2001-03-30 People go missing every day. They walk out of their front doors and out of their lives into the silence of cold statistics. For those left behind it is the cruelest of long good-byes. Anna, a self-sufficient and reliable single mother, packs her bags one day for a short vacation to Italy. She leaves her beloved six-year-old daughter, Lily, at home in London with good friends. But when Anna doesn't return, everyone begins to make excuses until the likelihood that she might not come back becomes chillingly clear. And the people who thought they knew Anna best realize they don't know her at all. How could she leave her daughter? Why doesn't she call? Is she enjoying a romantic tryst with a secret lover? Or has she been abducted or even killed by a disturbed stranger? Did that person you loved so much and thought you knew so well did they simply choose to go and not come back? Or did someone do the

choosing for them? Dunant, a masterly British suspense writer, skillfully interweaves parallel narratives that are stretched taut with tension even as they raise difficult questions about motherhood, friendship, and accountability. In this compelling hybrid of sophisticated crime writing and modern women's fiction, Dunant challenges and unnerves us as she redefines the boundaries of the psychological thriller. Missing rubs the soul raw. In place of answers all you have is your imagination.

Secrets of an Old Man's Girlhood-Shaughn Marlowe 2013-11 Shaughn Marlowe realized in the early 1930s that he was a little boy living in a girl's body, but it wasn't until more than forty years later that Marlowe finally let that little boy out. In *Secrets of an Old Man's Girlhood*, Marlowe chronicles his journey, often with sardonic humor, to comprehend and conquer his own identity issues as he underwent the physical, psychological, and spiritual transformation from a confused child born with the wrong anatomy to a confident adult comfortable in his own skin. The story centers on Marlowe's struggles against the insurmountable obstacles of gender conflict and self-identity in a hostile society in which LGBT issues simply were not discussed. Alongside these dilemmas, Marlowe also explores topics like alcoholism, romantic entanglement, religion, and family relationships, showing that his transition from youth to adulthood, though unique in many respects, was not all that different from what others endure when coming of age. Through narrative, dialogue, and flashback, Marlowe takes readers on a tour of America that includes Pittsburgh, Pennsylvania, Hollywood, California, and New Orleans, Louisiana, and spans hallmarks of U.S. history, such as World War II, racial segregation, and the beatnik and hippie cultures. But he always returns readers to the psychotherapist's couch, from where he was able to find his greatest solace, in the form of a nurturing psychotherapist with whom he shared a physical attraction and who motivated him to persevere in his search for personal fulfillment. *Secrets of an Old Man's Girlhood* is a story of triumph over adversity, replete with moments of revelation, self-actualization, and promise that shed light on topics still somewhat hush-hush today. In sharing his own story, Marlowe strives to demystify the phenomenon of gender conflict for the general public and to inspire others with gender issues toward achieving self-authenticity. When the World Went Dark...-Edward R. Straka 2017-07-21 When the World Went Dark is a dystopian story of the future that begins in what was once Hong Kong with the mainland - Jungwa - being the landmass that Old City is attached to even though owned by a separate entity than Jungwa within the Corporation. Across the harbor is the high-tech island of New City that is owned by still another entity. Both cities have different legal systems thus rights and freedoms. Both cities represent different opportunities for their citizens that ultimately provoke the citizens in Old City to begin to rebel, which brings them into conflict with the security forces headed at the street level by Captain David McStern. Yet more is at stake than basic freedoms as McStern at the street level and along the Border of Jungwa learns. His high ranking counter-part in New City Nigel Roberts is confronted with the same revelation: an underground "skin-trade" exists for experimentation up to and including "Rendition" that involves the government sanctioned New City research center. As both men begin to follow the various clues they discover in the course of their investigation they are confronted with Kahn: a product of "Rendition" himself that was taken from the deserts of Jungwa and used as a mercenary. Although mind-jacked by drugs and other bio-tech implants that suppress his spirit for many years Kahn is able to break free and begins the desperate search for self and meaning. In the course of his break for freedom he finds out about others who have been likewise "taken for Rendition" and seeks to free them also. It is in the process of this escape that Kahn begins to work with Roberts and his crew to save even more which brings them into conflict with the powers to be in both cities including the Eastern Sea cartel from the mysterious city of Artillect that is attempting to high-jack the bio-tech firm and the soldiers it had begun to breed: the Chimera.

Your Ghost Or Mine-Shannon Kostyal 2018-01-19 For a year, Violet's life has been blissfully calm. In fact, life has actually been pretty great; A year of a fully effective restraining order against her abusive ex, and as a bonus, she just closed on her very own house. Nothing fancy, nothing big-but safe, and it came at a pretty great price. Her work is a little odd - but it had been for a few years. No one worked at Pompeii's Periodical, the resident new age bookstore/café, without expecting at least a little uniqueness in the environment. Violet didn't actually believe in any of the things her store marketed to, or that the customers believed in, but she liked her coworkers, most of the customers were pretty cool, and she admired any environment that encouraged free thinking. One size didn't fit all in clothing, so why would it on something so profound as philosophical and spiritual world views? Sounded great. Heck, it even sounded like the happy ending wrap up to a story. The year came and went, and the restraining order expired. Her ex showed up again, and if that wasn't bad enough, it turned out Violet's bargain price house wasn't quite what she'd bargained for. One teeny tiny extra feature came with the purchase. Her very own theatrically dramatic ghost. One stalking ex, one attention-starved dead actor, and one budding romance later, Violet's kissed her peaceful, calm existence goodbye, and all she has to show for it is a deep uncertainty about all the things she thought she knew. Juggling these strange changes would be a lot less difficult if the resident ghost didn't keep screwing with her tea stash.
